Subject: Municipal Excess Liability Joint Insurance Fund issued a Request for Qualifications (RFQ) for Emergency

Dear Evaluators,

Please accept our RFQ Emergency Cleanup and Restoration Services. Restoration Management Inc. dba Servpro of Haddon Heights/Voorhees has been in business since July 2004. We have grown our business every year since inception based on our ability to provide outstanding service to all of our customers large and small. Our goal, on all projects, is to provide the proper remediation services based on our assessment of the damage and follow all applicable industry guidelines. All work is done in the most cost effective manner possible.

In most instances we need to respond rapidly to minimize the disruption to our customer. Many times we are able to come up with remediation plans that allow our commercial customers to keep business open while remediation takes place. Safety for building occupants and our employees is of utmost concern on all projects.

We have experience performing remediation work in the Institutional/Higher Education market. We have an understanding of the many various types of structures found at the University including dorms, classrooms, laboratories, libraries and sports facilities to name a few. Each type can present unique requirements to complete successful remediation.

Our Company has four Core Values: Treat everyone with dignity and respect. Solve problems. Keep our promises. And create a professional impression. All of our employees adhere to these values and they are of primary consideration whenever we hire additional staff.

We invest heavily in training for all of our employees. Much of the technical training we invest in is included in certification programs with The Institute of Inspection Cleaning and Restoration (IICRC). Collectively our employees currently maintain 35 certifications with the IICRC and our company is an IICRC Certified Firm.
