ORDERING AND RETURN INSTRUCTIONS

ORDERING INSTRUCTIONS

Safety Videos are made available to MEL Members at no charge.

1. All requests can be made by:

- On-Line: Click below to login & order conventional videos
[MEL Safety Institute Login](#) (user name & password required)
- By fax: 856-552-4741 (see request form)
- By telephone: 856-552-4900
- By email: melvideolibrary@jamontgomery.com

2. When calling or faxing in your order, please indicate the following information:

- DVD or VHS requested (Maximum of four (4) videos per order)
- UPS Shipping Address
- Name of person who should receive the order
- Phone number and/or email address

RETURN INSTRUCTIONS

1. Safety Videos must be returned within 14 days of receiving your order to assure timely distribution to other members' making requests.
2. Videos should be returned utilizing either the same shipping box or the prepaid UPS envelope and label included with your order.
3. Entities will be responsible to replace all lost or damaged videos they have requested and received from the MEL.

Newest DVD Additions (added 2018)

See Catalog for Descriptions

Category	Number	Title
Accident Investigation	203	Supervisor's Guide to Accident Investigation
Asbestos/Lead/Silica Awareness	404	Lead in the Workplace
Asbestos/Lead/Silica Awareness	405	Silica Safety in Industrial and Construction
Behavior Safety/Employee Relations	601	Communication Skills What Everyone Needs to Know
Bloodborne Pathogens	706	Controlling Exposure to Bloodborne Pathogens
Bloodborne Pathogens	707	Needlestick Injury Prevention
Confined Space Entry	804	Confined Space Atmospheric Testing
Confined Space Entry	805	Confined Space Ventilation
Confined Space Entry	806	Confined Space Entry: Permit Required
Confined Space Entry	807	Confined Space Entry
Confined Space Entry	808	Confined Space: The Silent Killers
Confined Space Entry	809	Confined Space Entry: Keeping Public Employees Safe
Confined Space Entry	810	Confined Space NonEntry Rescue
Crossing Guard / School Safety	903	School Crossing Guards and Traffic Control
Crossing Guard / School Safety	904	School Bus Inspection
Crossing Guard / School Safety	905	School Bus Safety (Elementary School Students)
Crossing Guard / School Safety	906	Bus Evacuation Drills for Students (Bus Drivers)
Driving Safety	1020	Defensive Driving: A Crash Course
Driving Safety	1021	Defensive Driving: Prepared for the Worst
Driving Safety	1022	Defensive Driving for Government Employees
Driving Safety	1023	Distracted Driving: At What Cost
Driving Safety	1024	Driving the 5 Keys: Small Vehicles
Driving Safety	1025	The Keys to Safe Lane Changing & Merging
Driving Safety	1026	Winter Driving Safety
Driving Safety	1027	Winter Driving Safety: When the Rules Change (Refresher)
Driving Safety	1028	Shift Work Fatigue
Driving Safety	1029	The Consequences of Driving Under the Influence
Driving Safety	1030	Road Rage
Driving Safety	1031	Safe Driving on Freeways
Driving Safety	1032	Think N Drive
Driving Safety	1033	Driving Reverse
Drug Awareness	1105	Chemical Dependency
Electrical/LOTO/Arc-Flash	1210	Electrical Safety: Working Around Live Circuits
Electrical/LOTO/Arc-Flash	1211	The Mark Sandifer Story
Electrical/LOTO/Arc-Flash	1212	Arc Flash
Electrical/LOTO/Arc-Flash	1213	Lock-Out/Tag-Out (Marcom)
Electrical/LOTO/Arc-Flash	1214	Lockout/Tagout (Digital)
Emergency Preparedness	1406	Swept Away...A Guide To Water Rescue Operations
Emergency Preparedness	1413	Disaster Workers Code of Safe Practices
Emergency Preparedness	1414	Incident Safety
Emergency Preparedness	1415	Incident Command Safety (ICS)
Emergency Preparedness	1416	Public Building Security: It's Everyone's Concern
Emergency Preparedness	1417	What To Do In Case of An Emergency
Emergency Preparedness	1418	AED – Automated External Defibrillators
Emergency Preparedness	1419	Emergency First Aid
Emergency Preparedness	1420	Emergency Incident Response
Emergency Preparedness	1421	Emergency Planning
Emergency Preparedness	1422	Evacuation Procedures
Excavation/Trenching/Shoring	1606	Trenching and Shoring Safety (Marcom)

Eye Safety	1705	Eye Protection: A New Approach
Fall / Ladder / Scaffold Safety	1807	Fall Protection (Digital)
Fall / Ladder / Scaffold Safety	1808	About Personal Fall Arrest Systems (Concise)
Fall / Ladder / Scaffold Safety	1809	Walkways, Ladder and Elevations: Don't Slip & Fall
Fall / Ladder / Scaffold Safety	1810	Scaffold Safety
Fall / Ladder / Scaffold Safety	1811	Roof Top Safety
Fire Department	1915	Surface Ice Rescue
Fire Extinguisher / Fire Safety	2009	Advanced Fire Extinguisher Training
Fire Extinguisher / Fire Safety	2010	Commercial Kitchen Fire Prevention
Flagger / Work Zone	2103	Work Zone Safety (Traffic Control)
Fleet Safety & Maintenance	2205	Jump Start Your Battery Safety (Automotive)
Fleet Safety & Maintenance	2206	Preventing Back Injuries (Automotive)
Fleet Safety & Maintenance	2207	Hearing Conservation (Automotive)
Fleet Safety & Maintenance	2208	Hand & Power Tool Safety (Automotive)
Fleet Safety & Maintenance	2209	Passenger Light Truck Tire Installer
Fleet Safety & Maintenance	2210	Hazard Communication (Automotive)
Fleet Safety & Maintenance	2211	Disabled Vehicles: Accident Procedures & Truck Fires
Forklift / Cranes / Aerial / Utility	2313	About The Safe Operation of Aerial Work Platforms (Concise)
Forklift / Cranes / Aerial / Utility	2314	Overhead Pendant Hoist Safety (Public Agency)
General Job Safety	2407	Job Safety Analysis
General Job Safety	2408	Job Safety Analysis: Safety Awareness And You (Concise)
General Job Safety	2409	Work Standards & Safety (Sanitation)
General Job Safety	2410	Leading Indicators: It's the Little Things
General Job Safety	2411	Administrative Employee Safety Orientation (Schools)
General Job Safety	2412	Teacher Safety Orientation
General Job Safety	2413	Safety Orientation & Accident Prevention (Custodial & Maintenance)
General Job Safety	2414	Employee Safety Orientation (Sanitation)
General Job Safety	2415	Employee Safety Orientation for Automotive Personnel
Hazardous Materials & Chemicals	2712	Carbon Monoxide Poisoning
Hazardous Materials & Chemicals	2713	Handling Compressed Gas Safely
Hazardous Materials & Chemicals	2714	Bonding & Grounding Flammable Liquids
Hazardous Materials & Chemicals	2715	Indoor Air Quality
Heavy Equipment/Snow Plow	2918	Backhoe Operations for Public Works
Heavy Equipment/Snow Plow	2919	Backhoe Loader: Safe Operating Techniques
Heavy Equipment/Snow Plow	2920	Backhoe Loader: Pre-Start Inspections
Heavy Equipment/Snow Plow	2921	Wheel Loader: Operating Techniques
Heavy Equipment/Snow Plow	2922	Dump Truck Operation & Safety
Heavy Equipment/Snow Plow	2923	Crawler Excavator: Maintenance & Transport
Heavy Equipment/Snow Plow	2924	Skid Steer: Pre-Operation Inspection
Landscape Safety	3013	Landscape Maintenance Safety (Digital)
Landscape Safety	3014	Commercial Mower Safety
Landscape Safety	3015	Groundskeeping Safety: Dealing with Bugs & Critters
Landscape Safety	3016	Chain Saw Safety (Aurora)
Landscape Safety	3017	Elements of Pruning
Landscape Safety	3018	Landscape Tools: Use & Safety
Landscape Safety	3019	Pesticide Safety: Minimal Risk to the Applicator
Landscape Safety	3020	Power Blower
Landscape Safety	3021	Tractor Accidents: It's Not Gonna Happen to Me
Office & Ergonomics Safety	3209	Dealing with the Irrate Customer
Office & Ergonomics Safety	3210	Social Media at Work
Outdoor Exposure	3314	Heat Stress (Digital)
Outdoor Exposure	3315	Tick Bite Prevention and Response
Personal Protective Equipment	3404	Personal Protective Equipment (Marcom)
Playground Safety / Field Maint.	3509	Elementary Playground Safety

Police Department	3600	Emergency Response Driving
Respiratory Protection	3703	Personal Protective Respirators and How to Use Them
Respiratory Protection	3704	Disposable Respirators: Exposure Control
Respiratory Protection	3705	Fit Testing Under New NIOSH Standards
Respiratory Protection	3706	Respirators: The New Rules (2011)
Sanitation Safety	3916	Back Injury Prevention
Sanitation Safety	3917	Route Safety Analysis (and Safe Driving Techniques)
Sanitation Safety	3918	Vehicle Inspection
Shop & Tool Safety	4114	Cutting Torch Safety
Shop & Tool Safety	4115	Garage Repair Shop Safety
Shop & Tool Safety	4116	Portable Generator Hazards & How to Avoid Them
Slips, Trips, Falls	4210	Preventing Slips & Falls in Trucking
Supervisors / Management	4312	Stress Management for Supervisors & Employees
Supervisors / Management	4313	Discipline: The Supervisors Role
Supervisors / Management	4314	Safety Decision Making
Supervisors / Management	4315	Better Meeting Management
Supervisors / Management	4316	Becoming a Leader
Task Specific Training	4408	Rigging Safety
Water / Waste Water	4506	Water and Sewer Treatment Plant Safety
Water / Waste Water	4507	Dog Bite Prevention
Water / Waste Water	4508	Meter Reader Safety
Water / Waste Water	4509	Utility Crew Truck Safety
Water / Waste Water	4510	Valve Crew Safety
Water / Waste Water	4511	Understanding Your Stormwater Pollution Prevention Plan
Welding	4603	Arc Welding Safety
Wellness	4735	Anxiety Disorders: Generalized Anxiety Disorder
Wellness	4736	Spillover – Zika, Ebola & Beyond

ACCIDENT AWARENESS			
100 <i>DVD</i>	<p>“The First Step” - DVD</p> <p>This is the story about how one wrong action can change your life forever. Candace Carnahan, a young college student, worked summers at a paper mill in her home town. She had worked at the mill for three years and was comfortable with the work and familiar with the environment; so familiar that she thought nothing of taking an often used shortcut – stepping over a conveyer system that ran at floor level. Her story will help your employees realize that the first step to not being injured is knowing that you can be injured.</p>	5:00	General Audience
101 <i>DVD</i>	<p>“It Only Takes A Second II” - DVD</p> <p>This video features footage of mistakes and bad choices we often make. Viewers won't forget the powerful accident reenactments and dramatic consequences illustrated in this motivational video. It's a great meeting opener for any safety topic! This video makes you think safety.</p>	4:00	General Audience
102 <i>Avail. in DVD & VHS</i>	<p>“Pedestrian Safety In Industry”</p> <p>Employees can easily recognize the hazards associated with material handling, welding, machine operation, electrical work and other dangerous job tasks, but they tend to overlook more common hazards. These employees all share a common job title: pedestrian. More than 25 million workers suffer some type of injury while walking at work each year. This video shows employees the precautions they must take to avoid incidents while walking.</p> <p>Topics include: Awareness of walking hazards, Workplace signs, Slips and falls, Walking around material handling equipment, Overhead hazards, Traveling through parking lots</p>	17:00	General Audience
103 <i>DVD</i>	<p>“Field Operations Safety for Public Works & Construction” - DVD</p> <p>As public employees and contractors working for public agencies, we perform many jobs that generally go unnoticed, but are a great benefit to the public by virtue of a safe and reliable water supply, well maintained roadways, and other portions of the public infrastructure.</p> <p>Topics include in this safety video are: supervisors, employees, training, job safety analysis, pre-job planning for safety, traffic control, personal protective equipment (PPE), locations, preventing the most common injuries, digging, heat illness, heat stroke, trenching, confined space entry, back injury prevention, housekeeping, fall prevention, fire prevention, and equipment.</p>	24:00	Public Works Employees
104 <i>DVD</i>	<p>“Stored Energy: The Hidden Hazard” - DVD</p> <p>Many items in our workplace present a hidden hazard. We're talking about the sheer weight or the potential energy of things such as loaded pallets, heavy equipment, doors and cables. When these things move or fall, they release that stored energy and create deadly hazards.</p> <p>This video featuring dramatic reenactments of stored energy mishaps, increases our awareness of stored energy hazards and helps us become more observant of them in our surroundings.</p>	18:00	Public Works; Utilities; Maintenance Personnel

MEL MEDIA LIBRARY CATALOG

Tape #	Title/Description	Length	Audience
105 <i>Avail. in DVD & VHS</i>	<p>“Accident Causes and Prevention” (Digital)</p> <p>The Insurance Industry, Governmental agencies, and the National Safety Council have analyzed employee accident investigations over the years and have determined that the overwhelming cause of most industrial accidents and injuries can be attributed to the unsafe acts of employees.</p> <p>Topics include: the definition of “contribute to an accident,” unsafe acts, box cutters, personal protective equipment, forklifts, running at work, “fault,” accident prevention, written documentation, and safety counseling.</p>	11:00	General Audience
106 <i>Avail. in DVD & VHS</i>	<p>“Safety: The Good Fight”</p> <p>This video tells tragic story of Patrick Hayes, a young man killed in an avoidable on-the-job accident. Interviews with his family drive home the importance of on-the-job safety.</p>	15:00	General Audience
107 <i>DVD</i>	<p>“Close Calls & Near Misses-Refresher”- DVD</p> <p>This video stresses to employees the importance of reporting all close calls and near miss incidents so that proper action can be taken to improve work conditions and prevent injuries.</p> <p>Topics Include: employee complacency, escalation of unreported incidents, correcting hazards and unsafe conditions, control of emotions and recognizing and avoiding unsafe acts.</p>	10:00	General Audience
108 <i>DVD</i>	<p>“Making Safety Work: An Overview of Workplace Safety & Employee Responsibilities”- DVD</p> <p>In just an instant, a workplace injury can transform a productive worker into one who is unable to work. This is why workplace injuries must be prevented and why all employees are needed to make your safety program work.</p> <p>This video provides an overview of common workplace hazards and how they are to be controlled while also demonstrating the importance of each employee's commitment and participation in the safety effort. Viewers will also see how easily injuries can occur when employees decide not to take responsibility for their safety.</p> <p>Topics Include: Lockout/Tagout, PPE, Bloodborne pathogens, Confined space entry, Hazard communication, Good housekeeping, Pedestrian safety</p>	10:00	General Audience
109 <i>DVD</i>	<p>“Unsafe Acts – Human Behaviors” - DVD</p> <p>The Insurance Industry, Governmental agencies and the National Safety Council have analyzed employee accident investigations over the years and have determined that the overwhelming cause of most industrial accidents and injuries can be attributed to the unsafe acts of employees.</p> <p>Topics include: the definition of "contribute to an accident", safe lifting technique, box cutters, personal protective equipment, forklifts, running at work, "fault," written documentation, safety counseling, and the importance of teamwork.</p>	11:00	General Audience

MEL MEDIA LIBRARY CATALOG

Tape #	Title/Description	Length	Audience
110 <i>Avail. in DVD & VHS</i>	<p>“Cause & Avoidance of Accidents”</p> <p>There are generally 2 types of training in the workplace for the prevention of injuries.</p> <p>Topics Include: Pre-Incident Training, Post-Incident Training, Cause and Avoidance program - after the incident: meeting between the supervisor and the employee, Incident Form should be completed, Once the supervisor’s investigation is complete, usually within 48 hours, the employee should be notified to come back for a second meeting, what action should the employee take to avoid a repeat of this incident, To properly implement a Cause and Avoidance program - Training employees in the proper work and safety rules and procedures, and Supervision.</p>	15:00	General Audience; Supervisors; Management
111 <i>Avail. in DVD & VHS</i>	<p>“What is Carelessness?”</p> <p>Carelessness should never be used as the cause of any accident. You need to determine the cause of all accidents and that means investigating the accident. There are always definable causes to accidents. The misuse of the word "careless" indicates a human factor that contributed to an accident. What does "careless" mean? Care-less...if that's the meaning, careless about what: accidents, injuries, other employees? No, caring less was not the cause. What we're leading up to is trying to redefine the many things supervisors and employees label as carelessness.</p> <p>Topics include: examples of unsafe behavior, unsafe acts, or failure to do something that causes accidents.</p>	5:00	General Audience
112 <i>Avail. in DVD & VHS</i>	<p>“Accidents: “It Can’t Happen To Me””</p> <p>Accident prevention is each individual's responsibility. This video is designed to make you think more about accident causes and how you can prevent injuries. Accidents and injuries can be prevented.</p> <p>Topics include: causes of accidents, unsafe behavior and unsafe conditions, and safety.</p>	10:00	General Audience
2401 <i>DVD</i>	<p>“Housekeeping and Accident Prevention” - DVD</p> <p>Train employees to keep their workplace clean and safe, and encourage good habits and practices.</p> <p>Topics include:</p> <ul style="list-style-type: none"> • Clean, accessible, well-lit exits, aisles & stairs • Using tools: choosing, inspecting, storing correctly, importance of lock-out/tag-out • Material storage and handling: best shelves, aisles and lighting for storage areas, care in lifting • Hazardous substances: labels and MSDS, PPE, safe storage/disposal 	13:00	General Audience
4305 <i>DVD</i>	<p>“Developing a Positive Safety Culture” - DVD</p> <p>This video discusses the benefits of developing a positive safety culture including fewer accidents and injuries, improved morale, increased productivity, and better public relations. In addition, methods for establishing a strong culture by communicating with staff, supporting safety items in the budget, setting a good example, holding staff accountable, and implementing cost allocations systems are reviewed.</p>	20:14	Supervisors; Management

ACCIDENT INVESTIGATION			
200 DVD	<p>"Accident Investigation" - DVD</p> <p>"Accidents will happen". We have all heard that statement before. In spite of our best efforts, things occasionally do go wrong. While many accidents seem to happen for obvious reasons, there may be things that contribute to an accident which are not always apparent. That is why it is vital to conduct a thorough Accident Investigation. This video shows employees steps in an Accident Investigation, and highlights how important it is for employees to fully cooperate with any inquiry. It also points out that while an investigation's focus is to determine the cause of an accident, the overall goal is to prevent similar accidents.</p> <p>Topics include: The goals of an accident investigation, Securing an accident scene, "Root-cause" analysis, The importance of investigative interviews, Assisting in an accident investigation, The importance of warning signs in accident. - Reporting "near misses", The role of policies, equipment and training on accident prevention.</p>	13:00	Safety Committee; Supervisors; Management
201 DVD	<p>"Accident Investigation for Everyone (Refresher)" - DVD</p> <p>Accident investigation is a key component of an effective safety process, but very few investigations achieve their intended purpose. All too often the focus of an investigation is finding someone responsible for an incident, but it should really be about finding facts, finding real causes and finding the fixes that will prevent the incident from happening again. For an accident investigation to be successful, it must lead to proactive safety improvements and injury prevention.</p> <p>This video will help everyone involved in an investigation-management, employees and investigators-understand their roles in the process. Viewers will also learn how to recognize common mistakes made during investigations and how to make the right changes that can prevent injuries and improve workplace safety.</p>	10:00	General Audience
202 <u>Avail. in</u> DVD & VHS	<p>"How to Investigate an Accident"</p> <p>This video explains the basics of accident investigation and the benefits of investigating every accident regardless of its size or severity and why this policy is an essential part of your overall safety program.</p>	13:00	Supervisors; Management
203 DVD New 2018	<p>"Supervisor's Guide to Accident Investigation" - DVD</p> <p>Accident investigation is an important part of a supervisor's responsibility and accident investigation. Accident investigation and reporting is a preventive effort. This video will concentrate on the importance of conducting a thorough investigation and why the information is necessary.</p> <p>Topics Include:</p> <ul style="list-style-type: none"> • Investigation • Completing a Report • Options 	13:00	Supervisors; Management

Tape #	Title/Description	Length	Audience
AMERICANS WITH DISABILITIES ACT			
3504 CD-ROM	<p>"Planning Accessible SAFE Playgrounds Using the Americans With Disabilities Act" - CD-ROM</p> <p><i>This video is not a video and has no sound track. It is in the format of a Power Point Presentation. It contains important information for playground administrators, planners or those responsible for preparing specifications for future playgrounds. It can be used in conjunction with the listed reference materials to inform meeting participants of crucial information. Some of the information is very detailed and may require presentation by a knowledgeable person, such as a CPSI to be most beneficial.</i> This is a self-paced pictorial guide covering all the elements of the Americans with Disabilities Act (ADA) requirements. It is useful for designers, planners, installers, and anyone interested in planning a safe, accessible playground. It offers a clear explanation of the ADA standards for playgrounds.</p> <p>The following parts have been outlined in this CD-ROM: Part 1: Understanding the Americans with Disabilities Act Part 2: Common Definitions that are Used in the Guidelines Part 3: Designing Inclusive Play Areas for all Children Part 4: Additional Technical Requirements for Play Areas Part 5: Future Directions and Reference List</p>	Instructor Lead	Parks & Rec.; Schools; Management
ASBESTOS / LEAD / SILICA AWARENESS			
400 DVD	<p>"Asbestos Awareness" - DVD</p> <p>Comply with 29 CFR 1910.1001. Many construction workers & maintenance people come in contact with asbestos.</p> <p>Topics Include: Hazards of asbestos, OSHA's Asbestos Standard, Composition and nature of asbestos, Types of materials that may contain asbestos, and where they are encountered, How to protect yourself when disturbing a material that may contain asbestos, Air monitoring and decontamination.</p>	14:00	Vehicle; Maintenance Personnel; Employees working with Asbestos
401 DVD	<p>"Cutting/Milling Asbestos Cement Pipe" - DVD</p> <p>Asbestos containing materials hidden within existing products have been in use for thousands of years. Asbestos has been used for many products such as fire proofing, pipe insulation, theatre curtains, siding, roofing, gaskets and packing, water and sewer pipe, and more. In water and waste water applications, asbestos cement pipe may contain as much as 20% asbestos or more which is used as re-enforcement for the pipe, much in the same way steel is used to re-enforce concrete in bridges and buildings. However, we must understand that the cement used in the pipe can degrade over time therefore increasing the risk of fiber release. The types of asbestos used are both the serpentine (Chrysotile) and amphibole (Amosite and Crocidolite).</p> <p>Topics include: employer responsibilities, physical characteristics, health effects, important regulations, personal protective equipment (PPE), planning, pipe removal, pipe cutting, field lathes, wet tapping, dry tapping, abrasive disk tools and saws, housekeeping and waste disposal, and unacceptable work practices for asbestos cement pipe.</p>	19:00	Utilities; Public Works; Supervisors

MEL MEDIA LIBRARY CATALOG

Tape #	Title/Description	Length	Audience
402 DVD	<p>“Crystalline Silica Employee Training” - DVD</p> <p>Crystalline silica is a naturally occurring substance used in a wide variety of industries and construction operations, such as the production of cement, sandblasting operations and the production of glass and ceramics. While silica has many valuable uses, it can also present a danger when workers are exposed to excessive amounts of crystalline silica dust. In fact, each year there are hundreds of deaths and thousands of illnesses attributed to harmful exposures to silica dust.</p> <p>To help prevent such exposures, OSHA recently issued regulations for general industry and maritime operations as well as the construction industry. This video discusses key requirements of the silica standards as well as basic safe work practices that employees should follow to protect themselves from harmful exposure to crystalline silica.</p> <p>Topics include: Effects of Exposure, Engineering Controls, Work Practice Controls, Respiratory Protection, Table 1 of the Construction Regulation</p>	10:00	Utilities; Public Works
403 DVD	<p>“Lead Exposure in General Industry” - DVD</p> <p>Lead is poisonous. If it's taken into the body, it can cause serious health problems and even be fatal. Most people who are exposed to lead today are exposed on the job. OSHA estimates that more than 800,000 U.S. workers work around lead regularly.</p> <p>Employees can be exposed to lead while sanding and stripping lead-based paint, welding or cutting painted metal, repairing and servicing automobile brakes, manufacturing ceramics or electronics, smelting or casting metals and performing numerous other tasks.</p> <p>This safety training video provides employees with the information they need to understand lead hazards and the safety regulations that address them. The video also explains how to recognize lead hazards in the workplace and handle them safely.</p> <p>Topics include: The health effects of lead exposure, The OSHA Lead Standards for General Industry, Compliance programs, Risk assessment and monitoring, PPE and respiratory protection, Housekeeping and decontamination, Medical surveillance and removal</p>	20:00	Utilities; Public Works
404 DVD New 2018	<p>“Lead in the Workplace” - DVD</p> <p>Lead can stay in your body for years causing serious health effects that may not be treatable. Over-exposure of lead by workers in many industries is a major concern. Lead can be found in the air at home in paint, dishware, water, lead solder used in plumbing. Workers are encouraged to monitor blood levels if exposed to lead. This video discusses the various lead exposures in the workplace with an emphasis on safety.</p> <p>Topics Include: Lead Exposure, Ventilation, Personal Protective Equipment, Basic Safety Requirements and Responsibilities, Training and Education, Safety Requirements</p>	15:00	Utilities; Public Works
405 DVD New 2018	<p>“Silica Safety In Industrial and Construction Environments” - DVD</p> <p>Silica dust can cause serious, even fatal, health problems for anyone who inhales it. And more than two million workers are exposed to this substance on the job every year. OSHA's Silica Safety Rule has established rigorous standards to protect them.</p> <p>Topics include: The hazards of respirable crystalline silica, OSHA's Silica Safety Standards, Exposure to silica dust in the workplace, A silica dust exposure control plan, Control systems, safe work practices and PPE, Medical surveillance and recordkeeping.</p>	16:00	Utilities; Public Works

Tape #	Title/Description	Length	Audience
BACK SAFETY / LIFTING			
500 <i>VHS Only</i>	<p>“Back Safety: Lift Well, Live Well” - VHS</p> <p>Almost everyone has had back pain at one time. Sometimes it hurts a lot. But you're much better off taking care of your back before pain sets in. This video shows how you can "head off back pain" when you use your head and remember to protect your back from injury.</p> <p>Topics Include: Back basics, Warning signs, Positive steps, Proper lifting, Exercise</p>	15:00	General Audience
501 <i>DVD CC</i>	<p>“Back Injury Prevention Through Exercise” - DVD</p> <p>This video will outline a pro-active approach to back injury prevention. Specifically, a routine of exercise that will build up the strength and endurance of your back. Remember, a strong healthy back is less prone to injury.</p> <p>Topics Include: Exercises to do before work, Exercises to do at home.</p>	7:00	General Audience
502 <i>DVD Includes Spanish</i>	<p>“Stop & Think...to Avoid Back Pain” - DVD</p> <p><u>Video Produced by the MEL, JIF & JA Montgomery Risk Control</u></p> <p>Back injuries are on the rise, and while lifestyle and stress are contributing factors, these painful injuries are most often caused by a pattern of risky motions repeated over and over again, not the result of one unfortunate incident. This video will take you to the job site and show you where the hidden dangers really lie. Whether you work behind a desk, in the shop or in the field, "Stop and Think...to Avoid Back Pain".</p> <p><i>This program is also available on the MEL Website as an on-line resource</i></p>	16:00	General Audience
503 <i>Avail. in DVD & VHS</i>	<p>“Back Safety”</p> <p>For many employees, back injuries are something that "happens to the other person... not to me." Yet four out of five people will experience some type of back problems during their lives. And many back injuries are caused by common activities experienced both on and off the job... such as lifting, climbing, reaching, etc. Video emphasize the importance of overall back care, both at work and at home, including exercises and weight control.</p> <p>Topics include: How the back works, Common types and causes of back injuries, Effects of back injuries, Injury prevention and safety practices, Proper lifting techniques, and more</p>	21:00	General Audience
504 <i>DVD</i>	<p>“Back Injury Prevention” - DVD</p> <p>According to the National Safety Council and medical research, 20% of backaches are attributed to inflammation such as arthritis, 10% are due to actual back injuries and other miscellaneous causes, and 70% result from degeneration of spinal discs.</p> <p>Topics include: the mechanics of the back, muscle strains, and difficult lifting situations.</p>	9:00	General Audience
505 <i>DVD</i>	<p>“Preventing and Managing Back Pain” - DVD</p> <p>In this video you will learn specific techniques that will alleviate or even prevent back pain with the investment of just a few minutes per day.</p>	37:00	General Audience
506 <i>Avail. in DVD & VHS</i>	<p>“Back Care for Public Agencies”</p> <p>Most back care videos address lifting nice, clean boxes in a non-strenuous environment. In the real world, many injuries result from shoveling, operating breakers, lifting pipe and bags of concrete, etc. This video offers ways to avoid back strain.</p>	11:00	Utilities; Public Works

1005 <u>Avail. in</u> DVD & VHS	"The Driver's E.D.G.E" As traffic congestion continues to increase, so too has the anger, aggravation and frustration experienced by motorists. This video uses four driver interviews to outline and identify the most frequent sources of these potentially dangerous behind-the-wheel emotions. This presentation will minimize the viewer's collision potential, while providing a foundation for a more relaxed driving experience. Driving behavior and attitude can be positively influenced when an understanding of the Big Picture is realized.	17:00	All Drivers
1006 <u>Avail. in:</u> DVD & VHS	"The Keys To Foul Weather Driving" Safe foul weather driving is a challenge that can be met with experience and driver education. This video demonstrates the many dangerous situations that arise when confronted with driving in foul weather. The video succeeds in teaching the proven methods from the Smith System that provides the skills necessary to drive as safely as possible during inclement weather.	17:00	All Drivers
1007 DVD	"Fatigue Management" - DVD In our 21st Century world, business runs on a 24-hour clock, 7 days a week. As a result, fatigue has become a major concern for drivers and motor carriers alike. Nearly 60,000 collisions occur each year due to sleepy drivers. These crashes result in the deaths of almost 1600 people and cause over 40,000 serious injuries annually. The federal Department of Transportation estimates that there are nearly 8000 fatigue-related crashes each year. These accidents result in the deaths of almost 400 truck drivers and cost about two and a half billion dollars. Topics include: reduced vigilance, accident characteristics, sleep loss, Circadian Rhythm, medications, sleep apnea, caffeine use and rule compliance.	15:00	General Audience; Shift Workers
1008 DVD	"Hang Up and Drive – The Jacy Good Story" - DVD In May 2008, Jacy Good and her parents were enjoying a great day of accomplishment - Jacy's college graduation. But that day was shattered when a young man on a cell phone caused a devastating collision that took the lives of Jacy's parents and left her in a coma. Her brain injury has left her with physical, speech, and cognitive impairment. But Jacy's story is an inspiration also. Since the collision Jacy has worked tirelessly to raise awareness about the dangers of cell phone use while driving. Fifteen people die everyday in North America because of cell phone use while driving. This is a story that can help you change the culture of cell phone use and driving at your organization. This is a story that can save lives.	20:00	All Drivers
1009 DVD	"Texting & Driving: The Facts" - DVD Texting and driving is the new "drunk driving" in this technological world we live in. This video covers the three basic ways texting and driving distracts drivers and presents testimonials from a few drivers who have had personal experiences with texting and driving. Texting and driving not only affects you, it also affects those around you.	9:20	All Drivers

1028 DVD New 2018	“Shift Work: Preventing Fatigue” - DVD People who work rotating shifts suffer a higher rate of illness and death than day shift workers. Experience and statistics show that human error is the primary cause of 85% to 98% of accidents and injuries. Surveys show that shift workers are chronically deprived of sleep. This group has approximately twice as many automobile accidents as the 9 to 5 workers. This video focuses on understanding fatigue from shift work and procedures to cope with change.	15:00	Shift Workers
1029 DVD New 2018	“The Consequences of Driving A Motor Vehicle Under the Influence” - DVD This video talks about the hazard of drinking and driving. Manslaughter charges, murder charges, felony convictions, deaths, injuries, court costs, license revoked or suspended, attorney fees, public service, rehabilitation and of course, the police record that goes with the arrest and conviction. This video is not designed to tell you not to drink and drive, you already know that!	15:00	All Drivers
1030 DVD New 2018	“Road Rage” - DVD The vast majority of commuters are stressed by their daily drive to and from work. Feeling stressed behind the wheel could be a health hazard. The longer distances you commute, the higher your blood pressure. This leads to an increase in job frustration and illness. Combining stress and frustration with poor drivers is a challenge. The objective of this video is to provide information to help you make better driving decisions.	15:00	All Drivers
1031 DVD New 2018	“Safe Driving on Freeways” - DVD Everyone seems to be in a hurry and the use of motor vehicles is growing and growing. It's a good thing that most people know how to operate their vehicles safely or there could be many more accidents. The sad story is there are a lot of accidents, injuries and fatalities on our freeways. This video is not meant to serve as an operators training program, but simply a reminder of important driving tips drivers tend to forget from time to time. This is a short refresher training course.	7:00	All Drivers
1032 DVD New 2018	“Think N Drive” - DVD A training video won't change attitudes, but we believe if you learn and use this information; you'll be a better, safer driver. Studies have shown that the longer distances you commute in your vehicle, the higher the driver's blood pressure. This also leads to an increase in job frustration and illness. Topics include: good driver skills, the professionals, vehicle capabilities and limitations, driver licenses, professional truckers and motor coach operators, eliminate blind spots by adjusting mirrors, where should you hold your hands on the steering wheel, and intersections.	19:00	All Drivers
1033 DVD New 2018	“Driving Reverse” - DVD Some of the most common situations or crashes aren't on the open road; they are in parking lots, driveways and parking garages, striking fixed and moving objects - while the vehicle is in reverse. This latest video shows drivers how they can avoid backing collisions and increase safety while parking and in other backing situations.	13:00	All Drivers

1208 DVD	“Safe Electrical Work Practices (NFPA 70E 2015)-Refresher”-DVD This video provides an overview of the 2015 edition of NFPA 70E and shows how following its guidelines helps keep electrical workers safe. Every year, electrical workers are seriously injured or killed by contacting energized parts or being subjected to an electrical arc flash. To prevent these types of incidents, these workers and the organizations for which they work must understand and follow up-to-date electrical safety-related electrical work practices, maintenance requirements and administrative controls. One of the leading authorities on electrical safety is the National Fire Protection Association, the NFPA. Their document number 70E is recognized by many regulatory authorities and organizations as the “best practices” for electrical safety.	16:00	Personnel working around Electrical Hazards
1209 DVD	“Lockout/Tagout: When Everyone Knows”-DVD This dramatic video will help you comply with 1910.147 by explaining critical lock-out/tag-out procedures. The video contains dramatic reenactments and wrong way/right way scenarios that clearly illustrate the importance of energy control and proper procedures.	17:00	Personnel working around Electrical Hazards
1210 DVD New 2018 2nd lang.	“Electrical Safety: Working Around Live Circuits” - DVD Unwire the currents of electrical dangers for your employees with this video. It is designed for qualified electrical workers and it discusses the basis of OSHA's qualification requirements. It also highlights ways to reduce injuries and accidents, as advocated by the National Electrical Code. Topics Include: Requirements for qualification, Working with and around live circuits, National Electrical Code, Test equipment	7:00	Personnel working around Electrical Hazards
1211 DVD New 2018	“The Mark Standifer Story: Lessons Learned from Arc Flash Tragedy” - DVD Mark Standifer received 2nd and 3rd degree burns over 4 percent of his body and was nearly killed when he was engulfed in an arc blast while performing an electrical task at a wastewater treatment plant. While installing relays on the door of a 13,8-volt switchgear, he made several crucial errors resulting in a tragedy that will affect Mark and his family for the rest of their lives. In this powerful video, viewers will see the mistakes Mark made and learn the lifesaving lessons from the incident. The importance of understanding all hazards of a job task and taking the necessary precautions to protect yourself from them is stressed throughout the video. Topics Include: Always following safe electrical work practices, the dangers of complacency when performing electrical work, hazards of jewelry and flammable clothing and the purpose of an arc hazard analysis.	12:00	Personnel working around Electrical Hazards
1212 DVD New 2018	“Arc Flash” - DVD Electricity poses two major hazards to people who work with it. The most intense is arc flash, a violent release of electrical energy that causes severe injuries and fatalities. The second is shock, which can cause burns, internal injuries, cardiac arrest and even be fatal. This video focuses on what arc flash is, its hazards and how employees can avoid it on the job. The video provides practical procedures employees can use to protect themselves from electric shock, as well. Topics Include: Shock and how to avoid it, What is arc flash?, Personal protective equipment, Creating an electrically safe condition, Avoiding arc flash situations, and more	15:30	Personnel working around Electrical Hazards

1416 DVD New 2018 2nd lang.	“Public Building Security: It’s Everyone’s Concern” - DVD Buildings are not as safe and secure as they once were. They are vulnerable to more dangers, including terrorist attacks. It is thus more important than ever NOT to let safety standards crumble down. Build a solid foundation of safety with this video, which examines vital building security measures to ensure the safety of everyone. Topics Include: International and domestic terrorism vs. criminal activity vs. workplace violence, Specific security measures, Communicating important information	17:00	Safety Committee; General Audience
1417 DVD New 2018	“What to do in Case of an Emergency” - DVD No matter what job you have or in what industry, safety is your responsibility. It is management’s responsibility to provide safety training and information about your job, machines, equipment and potential hazards. Training is an ongoing process. The company must have written policies, procedures and personnel trained to respond to emergencies. Everyone in the organization should be familiar with emergency procedures. This video is about emergency actions to help you and fellow workers in the event of a major emergency. Topics Include: Emergency Actions, Chemicals, Fire, Fire Extinguishers, Alarms, Elevators and Stairwells, Manmade Emergencies, Earthquake, Violence in the Workplace	16:00	General Audience; Safety Committee
1418 DVD New 2018	“AED: Automated External Defibrillators” - DVD Most people who go into sudden cardiac arrest will still have some electrical activity of the heart. The sooner an AED is attached, the greater chance of survival. An arrhythmia is any change from the normal sequence of electrical impulses. When the heart is in ventricular fibrillation, it is fluttering and will not allow the blood to reach the brain. Irreversible brain damage can occur within 4 to 6 minutes. The national average EMS response time is about 10 to 12 minutes. This video focuses on the laws pertaining to AED and proper procedures when assisting a person in need.	12:00	General Audience
1419 DVD New 2018	“Emergency First Aid” - DVD This video is designed to provide basic information on how to properly apply first aid in emergency situations. First Aid is the immediate care given to the injured or suddenly ill person. It's temporary assistance that is rendered until competent medical care, if required, arrives and takes over. Emergency First Aid means dealing with urgent conditions. This video has been designed to help provide basic information that will help you properly apply first aid that can save lives, reduce recovery time, and can possibly be the difference between temporary disability or lifelong disability for the victim.	19:00	General Audience
1420 DVD New 2018	“Emergency Incident Response” - DVD This video is designed to provide basic information and guidelines relating to emergency response. When talking about incident response, you might think of a major fire department's command and control of a particular situation. Emergency response is a major operation center with radios, communications, and a wide variety of people performing special tasks to ensure all the proper resources are provided for the incident. Topics Include: Safety, An Emergency Response Situation, Medical Response, Prevention, Other Hazards	10:00	Emergency Response Team; Firefighters

Check out those janitor closets and other storerooms to make sure there are no flammables or combustibles improperly stored. Keep the areas clean, neat, and organized.</p> <p>Topics include: storing oily rags, electrical motors, electrical equipment, octopus plugs, flexible cords, cords, extension cords, trash cans, exits, fire sprinkler system, telephone numbers of emergency agencies, call the fire department, types of fire extinguishers, and smoke detectors.</p>	11:00	General Audience
2704 DVD	<p>“Hazardous Material Labels” - DVD</p> <p>One important method for identifying hazardous materials is through the use of container labels. From bottles and drums to trucks and railcars, labels and placards provide information about the contents of a container, as well as what to do and who to call in case of an emergency. Because this information is so critical for the safe handling and transporting of these potentially dangerous substances, several organizations have developed labeling and placarding systems to communicate to employees about a container's contents.</p> <p>This video is designed to help employees understand the characteristics of different labeling systems and the ways that each convey information. By recognizing the differences and similarities of these systems, employees will be better prepared to work safely around hazardous materials.</p> <p>Topics include: OSHA's Hazard Communication Standard, Types of containers requiring labels, Information required on labels, Department of Transportation (DOT) Hazardous Material Classifications, DOT label and placard requirements, United Nations Identification Numbers, The Hazardous Materials Identification System (HMIS), The National Fire Prevention Association (NFPA) Labeling System, Hazardous waste labeling</p>	22:00	Utilities; Public Works; Those working with MSDS's
2711 DVD	<p>“Dealing with Hazardous Spills” - DVD</p> <p>Hazardous materials are a part of many work situations. They can be found in many different types of facilities and on many job sites... from manufacturing and construction to retail and office environments. Some organizations have to deal with hazardous materials as part of their daily business, and have detailed plans and highly trained workers to handle a sudden spill. But other facilities only have to handle these materials infrequently, and may not have given much thought to what must be done in case of a spill.</p> <p>This video designed to help employees who seldom have to face the dangers of a hazardous spill deal with a cleanup situation.</p> <p>Topics include: The Hazard Communication Plan, The Emergency Response Plan, Five levels of OSHA's HAZMAT training, Initial spill response, Spill containment, Instruments used to identify chemicals involved in a spill, Additional hazards of a spill site, and more.</p>	23:00	Employees working with Hazardous Materials

4306 DVD	<p>“Critical Incident Stress Debriefing” - DVD</p> <p>This training video stresses the importance of having a program that provides debriefings, how to make best use of these services, when to call, and generally dealing more effectively with Critical Incidents when they occur.</p> <p>Topics include: What is CISD?, lay-offs, What are some workplace incidents that would require action?, robberies, What is diffusing?, Some managers think CISD is psychological nonsense, terrorist threats, What should you do before an incident?, How soon should some form of CISD take place?</p>	13:00	Supervisors; Management
4511 DVD New 2018	<p>“Understanding Your Stormwater Pollution Plan” - DVD</p> <p>All employees need to know the overall scope of your organization’s Stormwater Pollution Prevention Plan and the role each person plays in its success. Pollution spread by contaminated stormwater is a real problem and providing your employees with an understanding of your facility’s plan is the purpose of this program.</p> <p>Topics include: the National Pollution Discharge Elimination System, the Multi-Sector General Permit, stormwater pollution prevention teams, site assessments of potential sources of stormwater pollution, various methods of minimizing pollutant exposure, spill and leak response and the three types of stormwater discharge inspections.</p>	23:00	Utilities

EMPLOYEE CONDUCT, HARASSMENT & VIOLENCE IN THE WORKPLACE

1500 DVD	<p>“Violence on the Job” - DVD</p> <p>This video will assist you in offering safety and health at work for all people through research into the problem and prevention techniques.</p>	27:00	General Audience
1501 DVD	<p>“Conflict Resolution in the Office” - DVD</p> <p>Conflict in the workplace is inevitable. Anytime two or more people come together, they will eventually disagree about something. While some conflict can be healthy, it is often an indication that there is something wrong. Conflict is frequently a "call to action"... a problem crying out for a solution.</p> <p>The good news about conflict is that it is usually based on "caring". The more someone defends their point of view in an argument, the more they care. But if conflict is allowed to fester and grow without a resolution, it can lead to serious problems such as threats and even physical violence. The effectiveness of an entire organization can be harmed if conflict is allowed to escalate.</p>	17:00	Office Personnel; Supervisors; Management
1502 DVD	<p>“No Tolerance” (2011 Edition) - DVD</p> <p>Presented by the MEL and JA Montgomery Risk Control to discuss EPL issues that municipalities face on a daily basis.</p> <p>Topics to include:</p> <ul style="list-style-type: none"> • Workplace harassment, • Discrimination • Wrongdoing <p><i>This DVD is also available on the MEL Website as an on-line resource.</i></p>	17:00	Office Personnel; Supervisors; Management

EXCAVATION & TRENCHING SAFETY			
1600 <i>DVD</i>	<p>“The Competent Person & Soil Classification” - DVD</p> <p>If you have been around construction or public works for any length of time, you know that working around trenches can be dangerous. A person buried under only a couple of feet of soil can experience enough pressure to the chest to prevent the lungs from expanding causing suffocation. Heavier soil and boulders can crush us in an instant. Of course we must remember that the average cave-in can drop five yards or soil or more. That’s 13,500 pounds of dirt!</p> <p>Topics include: competent person, inspections, soil classification, and manual testing.</p>	20:00	Utilities; Public Works; Parks & Rec.
1601 <i>DVD</i>	<p>“Trench Safety for Field Personnel” - DVD</p> <p>This training video has been developed specifically for those persons actually working in or around trenches, excavations. An excellent refresher course for anyone in this category. Basic information stresses trenching safety, equipment, different types of soils and the competent person job responsibilities. Discusses pre-planning, how heavy soil is, cave-ins and other day to day risks and hazards.</p>	14:00	Utilities; Public Works
1602 <i>DVD</i>	<p>“Seeing is Believing: Safely Exposing Buried Utilities” - DVD</p> <p>Knowing the colors and meaning of utility markers is only part of the answer to safe, damage-free digging. Physically exposing buried utilities in a safe, efficient way is absolutely vital to any installation or repair. Learn the most efficient and cost effective means through this video.</p> <p>Topics Reviewed: One-call requirements, Open trench & trenchless, Vacuum systems, Hand digging, Damage response</p>	23:00	Utilities; Public Works; Parks & Rec.
1603 <i>DVD</i>	<p>“Digging Dangers XVI: Excavation Tragedies” - DVD</p> <p>This video covers some of the worst excavation accidents of 2004. Viewers see an on-the-scene portrayal of a backhoe hit on a jet fuel line in Walnut Creek CA that killed five workers. This video also covers a Belgium pipeline explosion that killed 24 and injured 100, a gas pipeline explosion near Madrid IA, two Dallas TX firefighters overcome by gas while responding to pipeline damage, an Evansville IN gas explosion that killed two, a water main hit that flooded streets in Ft. Lauderdale, FL, a gas explosion in Hammond IN, a worker injured by gas explosion near Detroit, a Philadelphia gas main inferno that made national news, and two homes destroyed in a gas explosion in Fairfax, OK. The video also revisits the 2003 gas explosion that killed seven in Toronto. The son of one of the victims appears on camera to give his personal account of the accident and its aftermath.</p>	20:00	Utilities; Public Works

FALL PROTECTION / LADDER / SCAFFOLD SAFETY			
1800 Avail. in: DVD - CC 2nd lang. & VHS	"Personal Fall Protection: One Step Beyond" <p>Each year around 150 to 200 workers are killed and more than 100,000 are injured because of falls. When your workers are working at heights, you cannot let safety standards come crashing down. This training video, based on Subpart M of OSHA Standard 1926, highlights fall protection measures for general industry employees.</p> <p>It covers:</p> <ul style="list-style-type: none"> • Personal fall protection systems • Lifelines, snaphooks and harnesses • Rescue • Equipment care and inspection 	13:00	Employees working at heights
1801 DVD	"Ladder Safety (Refresher)" - DVD <p>This video is designed for step and straight ladders.</p> <p>Topics include:</p> <ul style="list-style-type: none"> • Defines safety requirements • Belt buckle rule • 4:1 ratio of straight ladders • How to reduce ladder injuries • Unsafe behavior 	7:00	Employees working at heights
1802 DVD	"Supported Scaffolding Safety" - DVD <p>Whenever a worker leaves the ground, the risk of an accident occurring increases dramatically. With more than 10,000 scaffold related injuries reported each year, OSHA has mandated that workers be trained on how to safely erect and use these work platforms. This video will help employers meet the training requirements of OSHA's Scaffolding regulation.</p> <p>This video helps employees understand the dangers of working with scaffolds, and how these risks can be minimized by knowing the correct ways to erect, maintain and use scaffolding equipment.</p> <p>Topics include: Responsibilities of a "scaffold expert", Creating a level and stable foundation, Platforms and planking, The danger of power lines, Ramps and walkways, Platform hazards, Personal fall arrest systems, Guarding against falling objects.</p>	23:00	Scaffold Workers
1803 DVD	"Surviving the Fall" - DVD <p>Falling just a short distance can generate huge forces and cause injury, even if you don't hit the ground. The proper use of fall protection equipment reduces these forces and prevents injuries. In this video, viewers will see fall protection equipment deployed in actual fall events and learn the proper selection and use of these devices. In addition to safe work practices, such as 100 percent tie-off techniques, emphasis is placed on having a rescue plan in place should a fall occur.</p> <p>Topics include: Selecting an anchor point, Inspecting the harness and lanyard, Proper calculation of fall distance, Specialized connection devices, The pros and cons of lanyards vs. retractable lifelines</p>	20:00	Employees working at heights

1808 DVD New 2018	<p>“About Personal Fall Arrest System (Concise)” - DVD</p> <p>Work above ground comes with increased risk because of the possibility of a fall. While your organization maintains railing on commonly-used elevated work areas, workers must sometimes venture beyond this protection. When this is the case, a personal fall arrest system is required. This video reviews the proper selection and use of fall arrest equipment.</p> <p>Topics include: The three components of a personal fall arrest system, calculating total fall distance, safe use of self-retracting lifelines, using fall arrest equipment 1% of the time, and survival & rescue after a fall event.</p>	12:00	Employees working at heights
1809 DVD New 2018	<p>“Walkways, Ladders & Elevations: Don’t Slip & Fall” - DVD</p> <p>Slips and falls were the major causes of injuries in the early days of safety. There were a wide range of accidents in the workplace from all kinds of causes.</p> <p>This video discusses the causes of trips, slips and falls and prevention.</p> <p>Topics Include: Causes, Falls, Slips, Trips, Prevention Techniques, Housekeeping, Footwear, Behaviors Leading to Falls, Falls from Vehicles and Equipment, Falls on Stairs, Ladders, Fall Protective Devices, Signs and Striping</p>	12:00	General Audience
1810 DVD New 2018	<p>“Scaffold Safety” - DVD</p> <p>Falls from scaffolds causing disabilities and fatal injuries is the most common hazard to constructions workers. According to OSHA, about 72% of scaffold accidents were due to one of the following causes: planking or support slipped or gave way, employee slipped or fell when struck by a falling object, and no guardrail installed. Each state has its own regulations and standards. It is important that work crews maintain and use scaffolds in a safe manner.</p> <p>This video is designed to review the basics of scaffolds with emphasis on safety procedures.</p> <p>Topics Include:</p> <ul style="list-style-type: none"> • Scaffold Overview • Injury Prevention • Electrical Safety, Ladders 	10:00	Employees working with Scaffolds
1811 DVD New 2018	<p>“Roof Top Safety” - DVD</p> <p>A roof top can be a very challenging and dangerous work environment. Working on roof tops requires specialized types of fall protection. This video outlines what types of fall protection are required and when, and the steps workers must take to comply with regulations and work in a safe manner.</p> <p>Topics Include: Guardrails/Parapet Walls, Fall Restraint System, Personal Fall Arrest System and Warning Line Systems. Procedures for safe work around Floor openings and Skylights is discussed as are Standard Operating Procedures for Controlled Descent Work.</p>	7:00	Employees working on roof’s
4204 DVD	<p>“Don’t Fall Down on the Job” - DVD</p> <p>This video presents the science behind falls and the factors that contribute to slips and falls. It covers multiple worksites with emphasis on walking, using stairs and step ladders as well reviewing specifics on scaffolds set up. It covers equipment inspection and best practices. A bonus is several suggestions to minimize injury should you fall. It is good for maintenance, janitorial people and office personnel.</p>	18:00	General Audience; Maintenance; Janitorial

FIRE DEPARTMENT SAFETY			
1900 <i>DVD</i>	<p>“Occupational Disease Prevention for Firefighters” - DVD</p> <p>During the course of their careers, firefighters may be exposed to a number of air contaminants and other environmental factors that can cause cardiovascular disease, cancer, and noise-induced hearing loss. This 25 minute video discusses some of the common exposures firefighters face in the field and in fire stations, and what they can do to reduce their risk of contracting occupational diseases. The need for occupational medical, fitness, and nutrition programs are highlighted. Also, the importance of personal protective equipment and on-scene incident management to reduce adverse exposures is reviewed. This video ends up with a discussion of the problems facing smaller fire departments to acquire the resources needed to implement needed programs, and offers solutions to solve this dilemma.</p>	25:00	Firefighters; Command Staff
1901 <i>DVD</i>	<p>“Tactical Perspectives: Command” - DVD</p> <p>In the Tactical Perspectives DVD series, Lt. Frank Ricci and other notable instructors look at command, search, ventilation, fire attack, Mayday, and Dispatch operations at residential structure fires.</p> <p><u>In DVD #1: Command</u>, Lt. Ricci and Deputy Chief Anthony Avillo, North Hudson (NJ) Regional Fire & Rescue, illustrate the perspective of command. They outline the need for planning to avoid issues, size-up to address problems on the fireground, and important tactical considerations during the execution of command. From the command tactical perspective, they then review the issues involved in a room-and-contents fire, an attic fire, ad a basement fire.</p>	41:00	Firefighters; Command Staff
1902 <i>DVD</i>	<p>“Tactical Perspectives: Fire Attack” - DVD</p> <p>In the Tactical Perspectives DVD series, Lt. Frank Ricci and other notable instructors look at command, search, ventilation, fire attack, Mayday, and Dispatch operations at residential structure fires.</p> <p><u>In DVD #2: Fire Attack</u>, Lt. Ricci and Chris Pepler, Deputy Fire Chief, Torrington (CT) Fire Department, illustrate the perspective of fire attack. They outline the importance of an engine company sizing up, choosing the correct hoseline, and selecting the proper water supply. These skills are crucial for providing a safe fireground. From the fire attack tactical perspective, they then review the issues involved in a room-and-contents fire, an attic fire, ad a basement fire.</p>	23:00	Firefighters; Command Staff
1903 <i>DVD</i>	<p>“Tactical Perspectives: Ventilation” - DVD</p> <p>In the Tactical Perspectives DVD series, Lt. Frank Ricci and other notable instructors look at command, search, ventilation, fire attack, Mayday, and Dispatch operations at residential structure fires.</p> <p><u>In DVD #3: Ventilation</u>, Lt. Ricci and P.J. Norwood, Deputy Chief of the East Haven (CT) Fire Department, illustrate the perspective of ventilation. They outline the importance of coordinating ventilation with the other disciplines on the fireground. Ricci and Norwood discuss the types of ventilation and when to vent for fire versus venting for life, as well as the timing issues involved with proper ventilation. Ricci and Norwood also discuss positive pressure ventilation. From the ventilation tactical perspective, they then review the issues involved in a room-and-contents fire, an attic fire, ad a basement fire.</p>	28:00	Firefighters; Command Staff

1904 DVD	<p>“Tactical Perspectives: Search” - DVD</p> <p>In the Tactical Perspectives DVD series, Lt. Frank Ricci and other notable instructors look at command, search, ventilation, fire attack, Mayday, and Dispatch operations at residential structure fires.</p> <p><u>In DVD #4: Search</u>, Lt. Ricci and Jim Duffy, Battalion Chief/Shift Commander, Wallingford (CT) Fire Department, illustrate the perspective of search. They outline the importance of a primary search and a secondary search, and look at hostile searches, VES, and other tactics that help ensure a positive outcome and keeping ourselves safe. From the search tactical perspective, they then review the issues involved in a room-and-contents fire, an attic fire, ad a basement fire.</p>	22:00	Firefighters; Command Staff
1905 DVD	<p>“Tactical Perspectives: Mayday” - DVD</p> <p>In the Tactical Perspectives DVD series, Lt. Frank Ricci and other notable instructors look at command, search, ventilation, fire attack, Mayday, and Dispatch operations at residential structure fires.</p> <p><u>In DVD #5: Mayday</u>, Lt. Frank Ricci and Chief P.J. Norwood illustrate Mayday operations. Using several actual Mayday calls, they show how to transmit the Mayday, underscoring the importance of the LUNAR acronym. They discuss potential tactical failures on the fireground and the significance of Mayday training on all levels of the fire department, from probie up to the chief, in order to properly mitigate a Mayday situation.</p>	37:00	Firefighters; Command Staff
1906 DVD	<p>“Tactical Perspectives: Dispatch” - DVD</p> <p>In the Tactical Perspectives DVD series, Lt. Frank Ricci and other notable instructors look at command, search, ventilation, fire attack, Mayday, and Dispatch operations at residential structure fires.</p> <p><u>In DVD #6: Dispatch</u>, Chief P.J. Norwood and Lt. Ricci illustrate dispatch's role in handling a Mayday situation. When a Mayday occurs, the dispatcher is often the critical link who facilitates the safe rescue of the trapped or missing firefighter.</p> <p>Chief Norwood and Lt. Ricci cover the LUNAR procedure from the dispatcher's perspective, discusses the various equipment that firefighters use, and illustrate the importance of the dispatcher in the recognition and successful mitigation of a Mayday. They talk with current dispatchers and firefighters to illustrate what can be done to help keep firefighters safe.</p>	35:00	Firefighters; Command Staff
1907 DVD	<p>“Bread & Butter Operations: Car Fires” - DVD</p> <p>The 2012 edition of the "Bread and Butter" Operations DVD Series expands on and illustrates many of the basic skills critical to successful fireground operations.</p> <p><u>In the Car Fires DVD</u>, Chief Doug Leihbacher covers properly responding to a vehicle fire and the hazards associated with this type of call, as well as how to properly extinguish the fire whether it is in the engine, trunk or passenger compartment.</p> <p>Chief Leihbacher discusses the safety systems and materials in vehicles that we must be cognizant of in order to stay safe on the fireground. These include magnesium, as well as air bags and struts.</p>	31:00	Firefighters; Command Staff

1908 DVD	<p>"Bread & Butter Operations: Fire Streams" - DVD</p> <p>The 2012 edition of the "Bread and Butter" Operations DVD Series expands on and illustrates many of the basic skills critical to successful fireground operations.</p> <p>In the <i>Fire Streams</i> DVD, Aaron Fields discusses the various fire stream options available to today's firefighters and how to properly use them to effectively, efficiently, and safely operate during fire attack.</p> <p>Firefighter Fields illustrates the variables that occur on the fireground such as water flow, air flow, temperature, and the changing pressure dynamic when water converts to steam.</p> <p>To safely and quickly mitigate a bread-and-butter fire, it is important that today's firefighters understand how to change the dynamic on the fireground. This dynamic is directly related to their selection and use of fire streams.</p>	31:00	Firefighters; Command Staff
1909 DVD	<p>"Bread & Butter Operations: Ground Ladders" - DVD</p> <p>The 2012 edition of the "Bread and Butter" Operations DVD Series expands on and illustrates many of the basic skills critical to successful fireground operations.</p> <p>In the <i>Ground Ladders</i> DVD, Lt. Mike Ciampo walks you through the proper use of ground ladders on the fireground.</p> <p>Lt. Ciampo illustrates commonsense approaches to quickly and safely place and adjust ground ladders, and various leg lock techniques to use while working on ground ladders.</p> <p>Ciampo highlights unconventional ways to use ground ladders to help rescue a firefighter as well as make the job safer, easier and more efficient.</p>	33:00	Firefighters; Command Staff
1910 DVD	<p>"Bread & Butter Operations: Initial Attack Lines" - DVD</p> <p>The 2012 edition of the "Bread and Butter" Operations DVD Series expands on and illustrates many of the basic skills critical to successful fireground operations.</p> <p>In the <i>Initial Attack Lines</i> DVD, Chief Jeff Shupe explains how to properly estimate the length of hose needed on the fireground, stretching that hose into place, and then advancing it into and through the structure. He covers properly estimating the stretch for various common structures and discusses how to effectively pre-plan and measure the stretch for unusual structures you may find in your response area.</p> <p>Chief Shupe discusses various ways to minimize the stretch and potentially shorten the time needed to get the line into operation, and discusses how to properly advance the line through the structure once it is stretched into place to effectively get water on the fire.</p>	26:00	Firefighters; Command Staff
1911 DVD	<p>"Bread & Butter Operations: SCBA" - DVD</p> <p>The 2012 edition of the "Bread and Butter" Operations DVD Series expands on and illustrates many of the basic skills critical to successful fireground operations.</p> <p>In the <i>SCBA</i> DVD, Chief Phil Jose covers the daily check (visual and operational) of the Self-Contained Breathing Apparatus (SCBA) as well as the proper way to don and doff the SCBA.</p> <p>Once donned, it is crucial to follow the rule of air management (ROAM). Chief Jose explains ROAM and how to use it on the fireground.</p> <p>Chief Jose walks you through properly addressing an SCBA emergency, such as a low air emergency or facepiece problem.</p>	28:00	Firefighters; Command Staff

2008 DVD	<p>“Fire Prevention Responsibilities” - DVD</p> <p>Good housekeeping is another basic safety tip. Check out those janitor closets and other storerooms to make sure there are no flammables or combustibles improperly stored. Keep the areas clean, neat, and organized.</p> <p>Topics include: storing oily rags, electrical motors, electrical equipment, octopus plugs, flexible cords, cords, extension cords, trash cans, exits, fire sprinkler system, telephone numbers of emergency agencies, call the fire department, types of fire extinguishers, and smoke detectors.</p>	11:00	General Audience
2009 DVD New 2018	<p>“Advanced Fire Extinguisher Training” - DVD</p> <p>Not everyone understands or knows how to use fire extinguishers. There are different extinguishers for each type of fire. The object of fire extinguisher training is to save lives.</p> <p>This video will provide information and help become familiar with extinguishers, fire prevention and understanding an emergency action in the event of a fire.</p> <p>Topics Include: Background, Fire Extinguishers, Classes of Fire Extinguishers, Fire Prevention, Fire Extinguisher Use</p>	19:00	General Audience
2010 DVD New 2018	<p>“Commercial Kitchen Fire Prevention” - DVD</p> <p>Fires are an ever-present danger in a commercial kitchen. But the danger can be controlled and contained by following sound fire prevention principles.</p> <p>This video outlines these principles and delivers information vital to preventing and containing fires in your establishment. Different types of fire suppression systems are discussed as well as how to operate and inspect them. The importance of keeping flues and appliances grease-free are examined as well as other common sense tips that will help your employees remain safe are also discussed.</p>	5:00	Employees working in Kitchens

FLAGGER / WORK ZONE SAFETY

2100 DVD	<p>“Flagger Safety” - DVD</p> <p>Training for anyone who is assigned the task of traffic control/flagger. Explains proper equipment, operating rules and professional attitude during this important assignment.</p>	15:00	Work Zone Personnel
2101 DVD	<p>“Road Crew Safety: Safe Practices for Road Construction & Paving Crews” - DVD</p> <p>Examines work zone dangers and offers advice on ways to lower the risks. Statistics show that high speed incursions into work zones by passing vehicles is not the primary cause of serious or fatal road work accidents. Working in close proximity to heavy equipment causes more accidents than most people realize.</p> <ul style="list-style-type: none"> • Emphasis on taking responsibility for personal actions • Strong emphasis on NIGHT TIME OPERATIONS • Prior-to-job-start work site inspection • Major accident causes based on insurance company and OSHA stats • Machine accident causes on job sites 	26:00	Work Zone Personnel

2204 DVD	“Safe Use, Handling, Storing, Charging & Jump Starting of Acid Batteries ” - DVD Batteries play a critical part in our consumer and business worlds. All too often, we take little notice of how batteries work and how dangerous they can be, if not used properly. This video is designed to explain the basics of batteries, how they work, and safety information that you need to know to prevent accidents and injuries when using, handling, storing, or disposing of batteries. <u>Topics include:</u> safety warnings, battery classifications, the battery and the vehicle, battery charging, using a hydrometer, battery maintenance, jump starting, battery storage, and battery maintenance.	20:00	Vehicle Maintenance Personnel
2205 DVD New 2018	“Jump Start Your Battery Safety” (Automotive) - DVD A car battery is a rechargeable cell in the starting-lighting-ignition variety of batteries. Lead acid batteries are the oldest style of rechargeable batteries. A high power output of a car battery is necessary to supply a high current draw needed for the engine starter. This video covers battery care, maintenance, jump-starting and much more with an emphasis on safety.	12:00	Vehicle Maintenance Personnel
2206 DVD New 2018	“Preventing Back Injuries” (Automotive) - DVD The vast majority of back injuries are preventable; however many back problems are the result of degeneration of the discs. Overtime the discs become worn and damaged. Think about all the times you have lifted improperly. This video explains how the back works and lifting safely. <u>Topics Include:</u> <ul style="list-style-type: none"> • Back Discs • Ligaments • Lifting 	8:00	Vehicle Maintenance Personnel
2207 DVD New 2018	“Hearing Conservation (Automotive)” - DVD Noise can damage your hearing permanently. It's important to protect your hearing at work and home. Awareness is the first step toward preventing hearing injury. This video will focus on protecting your hearing in the workplace and outside the workplace.	11:00	Vehicle Maintenance Personnel
2208 DVD New 2018	“Hand & Power Tool Safety (Automotive)” - DVD Hand and power tools cause thousands of injuries every year. A simple screwdriver causes over a hundred deaths each year. The injury rate tells us that safety awareness is important when using these tools. When working with hand and power tools, your safety attitude and common sense are an important part of your job. This video focuses on the how to use these tools safely.	13:00	Vehicle Maintenance Personnel
2209 DVD New 2018	“Passenger Light Truck Tire Installer” - DVD Professional tire installation is the foundation of the automotive retail industry. Each year millions of tires are installed properly and safely without any accidents. Tire installation can be safe if rules are followed. This video reviews the basic procedures for tire installation and equipment use with an emphasis on safety. <u>Topics Include:</u> Importance of Safety, PPE, Tire Guide, Lifting the Car, Tire Removal, Mounting the Tire, Wide Tires, Torquing	12:00	Vehicle Maintenance Personnel

2303 <i>Avail. in:</i> DVD - CC 2 nd lang. & VHS	"Indoor Cranes: Safety Lifting Operations" This video is specifically designed for non-licensed operators to give them the knowledge they need to safely operate several types of cranes. Topics Include: <ul style="list-style-type: none"> • Pre-operation safety inspection • Rigging techniques • Lifting and moving 	16:00	Non-Licensed Crane Operators; Utilities
2304 DVD	"Crane Safety" - DVD While there are many different types of cranes, they all have the ability to make many jobs much easier by lifting enormous weight. But they also share the potential for disaster when they are not operated safely. Crane-related accidents can often be deadly, due to the cumbersome and heavy loads that are lifted. A small miscalculation or a brief moment of inattention, and tragedy could strike. Once a load falls, not much can be done to stop it, and there is little time for people to move safely out of the way. A coworker could be injured or killed, and expensive equipment or materials could be damaged or destroyed... even the crane itself.	17:00	Crane Operators; Ground Crew

Tape #	Title/Description	Length	Audience
2305 DVD	<p>“Forklift Safety Lessons for the Safe Operator” - DVD</p> <p>Powered industrial trucks, commonly called forklifts, can be very dangerous as each year, nearly 1 workers are killed and another 2, seriously injured in forklift-related accidents. Forklift operators play a vital role in preventing these incidents. By using the training they have received, staying alert to the hazards around them and working safely with pedestrians, loads can moved securely, each and every time. That’s the purpose of this video—to show operators the safe work practices they must follow to avoid injuries and property damage.</p> <p>Topics include: training and qualification, pre-operational inspection, mounting and exiting forklifts safely, the stability triangle, preparing for hazards before traveling, traveling with a load and safe operation around pedestrians. Use of maintenance platforms, types and classes of forklifts and sloped surfaces are other issues addressed in the video.</p>	15:00	Forklift Operators; Those working around Forklifts
2306 DVD	<p>“Forklift Safety Lessons for the Safe Pedestrian” - DVD</p> <p>Forklifts can be very dangerous for both operators and employees out on the floor. In fact, 20 percent of all forklift incidents involve pedestrians being struck by a lift truck. In such an incident, it's the pedestrian that will suffer an injury or even death. These workers can avoid this by paying attention to the surroundings, staying a safe distance away from forklifts and following proper procedures. That's the purpose of this video--to show viewers the precautions they can take to prevent serious, often traumatic injuries that occur when forklifts come into contact with pedestrians.</p> <p>Topics include: The importance of forklift safety, Operating characteristics of forklifts, Walking safely around forklift traffic, Staying out of the path of a forklift, operator, Pedestrian awareness of one another, Following safe work practices and avoiding unsafe acts</p>	15:00	Forklift Operators; Those working around Forklifts
2307 DVD	<p>“Operating Forklifts Safely Refresher” - DVD</p> <p>This video gives viewers a solid overview of forklift characteristics and safe forklift operation. It's a fast paced video featuring several dramatic reenactments of typical forklift mishaps. The Larry character is also featured, and you can only imagine some of the mistakes he makes - mistakes that viewers can learn from.</p> <p>Topics Include: Forklift handling, stability and load limits, Understanding your forklift, forklift inspection, refueling & recharging, Picking up and placing loads, including elevated loads, General safe driving guidelines, operating around pedestrians and other forklifts</p>	10:00	Forklift Operators
2308 DVD	<p>“Lift Truck Characteristics Balance and Stability” - DVD</p> <p>This video is a collection of wisdom from experts. For those who already understand the basics, rigging & lifting techniques used by the PRO's have been captured from hours of interviews and discussions.</p>	10:00	Forklift Operators
2309 DVD	<p>“Scissor Lift Safety (Refresher)” - DVD</p> <p>While some fatality victims were struck by objects such as booms and baskets, a smaller percentage was crushed between either the carriage or the basket and some fixed structure. Falls from the elevated platform seem to be caused primarily by a worker’s unsafe acts such as leaving gate chains unattached, propping the gate open or climbing up on or leaning over the guardrail system. Some even fell from step and extension ladders that were set up inside the platform.</p> <p>Topics include: Scaffolding, Causes of most scaffolding (scissor lift) injuries, Basic operations, Scissor lift inspection, Electrocution hazard, Pre-starting safety checks, Start and operation</p>	10:00	Scissor Lift Operators

Tape #	Title/Description	Length	Audience
2310 DVD	<p>“Forklift Operator Training” (Refresher) - DVD</p> <p>Powered industrial trucks - they are rugged, powerful and indispensable. Because they work side by side with people in the plant, they present a constant potential hazard. As a forklift operator, it is your responsibility to always operate your vehicle in a safe manner that will protect you and your co-workers from accident and injury. The three forklift accidents reenacted in this video will show viewers the life-threatening consequences of incorrect and unsafe lift truck operation.</p> <p>Topics include: lift truck tip over, vehicle inspection, moving a load, driving safety and operation on and around trailers and loading docks.</p>	8:00	Forklift Operators
2311 DVD	<p>“Forklift Operator Safety” - DVD</p> <p>Anyone operating this equipment must be trained and authorized by your company. Your license means you have received training and are capable of safely operating this equipment. Once you're trained and authorized, the rest is up to you. You're expected to have the maturity and responsibility to operate this equipment efficiently and safely. Don't take this responsibility lightly. A forklift professional doesn't cause property damage or injuries. Everyone wants to move material efficiently and quickly and that's your job, but you don't have to speed or violate safety rules to do a good job. We realize equipment operators get in a hurry, especially if you're sitting on a forklift all day, but how much time and money do you save by spilling loads, running into doors, walls, sprinkler pipes, or other materials? The time you save by speeding and cutting corners isn't worth one minor accident. You're much more productive working safely and obeying the rules. All we ask is for you to perform your job professionally.</p> <p>Topics include: engineering principles, the fulcrum principle, load center, center of gravity, stability triangle, 3-point Suspension System, safe operating rules, riders, safety platforms, speeding, driving with a raised load, driving around blind corners, moving a load, parking the forklift, pedestrians, loading docks, stabilizing jacks, dock plates, and inspections.</p>	16:00	Forklift Operators
2312 DVD & VHS	<p>“Chains, Cranes, Hoists and Slings Safety”</p> <p>Safety around hoisting equipment is extremely important because one little mistake can be disastrous. Damaged or worn out parts also make your equipment unsafe to use.</p> <p>Topics include: inspect hoisting equipment, inspect metal chains for cuts or worn links, watch out for sharp edges on the material you're lifting, protect your chains and slings by padding the sharp edges or padding your sling, never use the crane hoist chain or wire rope as a sling, don't overload your equipment, jerking a load, tying knots in the chain or sling, kinks or twists, traveling with a load, lift the load as close to vertical, crane hooks, broken or damaged strands in your wire rope, never run the hoist or crane all the way up or all the way down, and manufacturer's guidelines.</p>	11:00	Crane Operators
2313 DVD New 2018	<p>“About the Safe Operation of Aerial Work Platforms” - DVD</p> <p>Unsafe operation of aerial work platforms, also known as elevated work platforms (including boom lifts and scissor lifts), often has devastating consequences. Making sure these mobile and elevating work platforms are operated in a safe manner must be the operator's top priority. This video discusses the safety precautions these workers must follow to prevent injuries and property damage.</p> <p>Topics include: operator training, pre-operational inspection, mounting and moving the lift, basic safe work practices, and lowering and dismounting the platform.</p>	12:00	Aerial Workers

Tape #	Title/Description	Length	Audience
2314 DVD New 2018	“Overhead Pendant Hoist Safety” - DVD The overhead pendant hoist is used to safely maneuver heavy loads around shops, treatment plants, pump stations and other locations. This program will focus on overhead rail mounted hoists. These hoist operating systems are electric, pneumatic and hand-operated chain hoists.	14:00	Employees working with Hoists
4400 DVD	“Tips from the Pros: Rigging and Lifting” - DVD This video is a collection of wisdom from experts. For those who already understand the basics, rigging & lifting techniques used by the PRO's have been captured from hours of interviews and discussions. <ul style="list-style-type: none"> • TIPS on rigging attachments • TIPS on estimating weights • TIPS on locating balance points • TIPS on selecting pick points 	28:00	Crane Operators; Ground Crew
4401 DVD	“Safe Rigging” - DVD How a load is attached can make the difference between a successful lift & a deadly accident. <u>Topics Include:</u> Physical & mental preparation; PPE, hand signals, Equipment & hazard inspection, Slings, hitches, load angles	19:00	Crane Operators; Ground Crew
4408 DVD New 2018	“Rigging Safety” – DVD We have all heard the phrase... "A chain is only as strong as its weakest link". When it comes to crane operations, rigging can often be that "weak link". How a load is attached to a crane can make the difference between a successful lift and an unfortunate accident. And rigging-related accidents can often be deadly, due to the large and heavy loads that are lifted. Once a load or a crane itself falls not much can be done to stop it, and there is little time for people to move safely out of the way.	20:47	Employees working in Warehouses

GENERAL JOB / SAFETY AWARENESS

2400 <u>Avail. in:</u> DVD & VHS	“I Choose to Look the Other Way-Refresher” When employees are willing to speak to co-workers about unsafe acts, injuries can be prevented. This video dramatically tells the story of an employee who failed to speak up when witnessing an unsafe act. By choosing to 'look the other way,' he allowed the needless death of a co-worker to occur. Based on the popular safety poem by Don Merrell, this video shows how speaking up about unsafe acts can save lives and help develop a positive safety culture. Verses from the poem are meshed with the video's action to deliver a stimulating safety message. Viewers will be motivated to speak up when they see a co-worker putting himself in an unsafe situation, even if they feel that person's response may be negative.	5:00	General Audience
2401 DVD	“Housekeeping and Accident Prevention” - DVD Train employees to keep their workplace clean and safe, and encourage good habits and practices <u>Topics include:</u> <ul style="list-style-type: none"> • Clean, accessible, well-lit exits, aisles & stairs • Using tools: choosing, inspecting, storing correctly, importance of lock-out/tag-out • Material storage and handling: best shelves, aisles and lighting for storage areas, care in lifting • Hazardous substances: labels and MSDS, PPE, safe storage/disposal 	13:00	General Audience

2403 DVD	<p>“Safety Orientation” - DVD</p> <p>Thinking about safety should be as natural as thinking about other aspects of the job. Employees should be able to anticipate the possibility of accidents before they happen. Yet workplace accidents cause millions of people to suffer painful injuries every year, and cost business almost \$90 billion per year in medical bills, lost wages and lost production time. This video addresses two of the most prominent safety issues confronting employers today - that of developing a good "safety attitude" in their employees, as well as providing "introductory safety training."</p> <p>Topics include: Developing "safety awareness", Basics of accident prevention, Hazard evaluation, Safety housekeeping, Tool use and maintenance, Fire prevention and safety, Use of personal protective equipment.</p>	15:00	New Personnel; Supervisors; Management
2404 DVD	<p>“Back to Work, Back to Safety” - DVD</p> <p>This video explains and illustrates each of these issues through a series of examples, testimonials and incident reenactments. Viewers will learn many valuable safety lessons about the pitfalls workers experience when they return from vacation, extended illness or other absence.</p> <p>Topics Include: Distractions, Falling out of routine, Reporting for work exhausted, Forgetting about common hazards, Not being aware of workplace changes, Frustration, Poor job planning and organization, Depression and mood swings</p>	10:00	General Audience; Supervisors; Management
2405 DVD	<p>“Employee Safety Orientation” - DVD</p> <p>This short video is an overview of your safety responsibilities to help you perform your job safely. Safety is a responsibility that's important to you, the company, and your fellow employees. Our basic safety policy is simply this: We don't have any job that can't be performed safely.</p> <p>Topics Include: basics of job safety, equipment safety, personal protective equipment, proper clothing, chemical safety, fire prevention, ladder safety, slips and falls, how to prevent back injuries, and safety awareness.</p>	15:00	New Personnel; Supervisors; Management
2406 DVD	<p>“Safety Orientation for Public Agency Employees” - DVD</p> <p>As employees working to serve the public in many capacities we have commitments to the organization, ourselves, and families to work safely. Unlike some occupations you have the risk of exposure to numerous potential sources of injuries and health hazards. Some examples can include but not be limited to:</p> <ul style="list-style-type: none"> -Working in traffic -Working with and around large construction equipment -Trenching and excavation risks -Confined space entry -Exposure to many potential toxins and chemicals -Hand and power tool hazards -Electrical hazards -Working at heights <p>Topics include: new hire orientation program, proper training required, organizations, Injury or Illness Prevention Program or IIPP, personal protective equipment (PPE), head protection, eye protection, hearing conservation, respiratory protection, foot protection, heat illness, HAZCOM, confined space, field safety, forklift, control of hazardous energy - lock out/tagout, electrical safety, unsafe condition reporting, accident reporting, and driving safety.</p>	24:00	New Personnel; Supervisors; Management

Tape #	Title/Description	Length	Audience
2407 DVD New 2018	“Job Safety Analysis” - DVD This video provides the steps to be taken when performing a JSA. It is simply a procedure used to review job methods and uncover hazards that may have been overlooked in the layout of the plant or building and in the design of the machinery, equipment, tools, workstations, and processes or that may have developed after production started or that resulted from changes in work procedures or personnel. It's one of the first steps in hazard and accident analysis and in safety training.	11:00	Safety Committee; Supervisors
2408 DVD New 2018	“Job Safety Analysis: Safety Awareness and You (Concise)” - DVD While there are countless methods used to protect workers from injury, each method shares a common root. The genesis of all injury prevention methods is an understanding and awareness of the hazards to which a worker may be exposed. In other words, the company and the worker must be aware of a hazard before that hazard can be controlled. This video discusses the important roles played by both management and employees in recognizing and controlling workplace hazards and how these shared duties of safety awareness and hazard recognition help prevent injury. Detailed in the video is the process of developing a successful job safety analysis, including the sequence of dividing a job into steps, analyzing those steps for hazards and creating control measures for each step.	10:00	Safety Committee; Supervisors' General Audience
2409 DVD New 2018	“Work Standards & Safety” (Sanitation) - DVD The growth of the waste management industry is testimony to the teamwork and professionalism of all employees. Training and education provide the information needed to perform your job. This video will review company rules with an emphasis on safety. Topics Include: Work Standards, Safety Rules, Personal Protective Equipment (PPE), Summary	12:00	Sanitation; Supervisors
2410 DVD New 2018	“Leading Indicators: It is the Little Things (Refresher)” - DVD Jeff “Odie” Espenship is a United States Air Force A-1 Warthog fighter pilot and also an international airline pilot. As a flight leader, he knows what it takes to operate safely in a high-risk and sometimes dangerous work environment. In this dynamic presentation, Odie discusses his experiences involving shortcuts and complacency as a pilot and how they relate to common workplace situations. Because these leading indicators tend to snowball and contribute to accidents, he stresses that employees must always be aware of the “little things” and take action when they tempt us or our co-workers to perform unsafe acts.	13:00	General Audience; Supervisors
2411 DVD New 2018	“Administrative Employee Safety Orientation” (Schools) - DVD Administrative employees in the school environment have demanding responsibilities. Educating students is a big job in addition to having paperwork, supervisory responsibilities, and budgets. This video won't add to your workload; it might make your job easier - it's called safety. This video is a review of accident prevention techniques and safety awareness.	15:00	Schools Admin Staff
2412 DVD New 2018	“Teacher Safety Orientation” - DVD Schoolteachers have demanding responsibilities. Educating students is a big job in addition to having paperwork, supervisory responsibilities, and budgets. This video won't add to your workload; it might make your job easier - it's called safety. This video is a review of accident prevention techniques and safety awareness.	19:00	School Teachers

2413 DVD New 2018	<p>“Safety Orientation & Accident Prevention” (Custodians & Maintenance) - DVD</p> <p>You are a vital part of the educational system. A clean, safe, efficient, and comfortable facility can enhance the learning process. Parents and students judge the appearance of a school building. Along with maintaining the facility, your job makes you the most qualified person to improve safety and health conditions. The video reviews some written and unwritten responsibilities you have as a custodian and maintenance person, particularly relating to safety.</p> <p>Topics Include: proper clothing, rings and jewelry, proper footwear, training, personal protective equipment (PPE), dust masks, material safety data sheets (MSDS), chemicals, labels, electricity, double insulated, fire awareness, fire extinguishers, stepladders, exercise, fluorescent light tubes, asbestos, and injury reporting.</p>	12:00	Custodians & Maintenance Personnel
2414 DVD New 2018	<p>“Employee Safety Orientation” (Sanitation) - DVD</p> <p>Accidents are caused by unsafe acts of people. It is important that you take an active part in protecting yourself and everyone around you. Safety is everyone's responsibility and we must depend on one another.</p> <p>This video is to teach you safe working practices that will protect your safety and health and your co-workers.</p> <p>Topics include: Accident Prevention, Personal Protective Equipment (PPE), complete pre-trip and post-trip inspections of your vehicle, paperwork, residential-manual pickup, residential-automated pickup, commercial front-end loaders, commercial roll off, transfer station, landfills, shop safety, office safety, and safety and health policies.</p>	11:00	Sanitation Personnel
2415 DVD New 2018	<p>“Employee Safety Orientation for Automotive Personnel” - DVD</p> <p>Statistics compiled over the last 50 years reveal the majority of all accidents and injuries are caused by unsafe acts by employees who take short cuts, violate safety rules and job procedures. Safety is an important responsibility for you, the company and fellow employees. This video is an overview of your safety responsibilities to help perform your job safely.</p> <p>Topics Include: Job Safety Basics, Employee Safety, Electrical Safety, Personal Protective Equipment (PPE), Fire Prevention, Ladders, Slips and Falls, Preventing back Injuries, Safety Awareness</p>	11:00	Automotive Personnel
108 DVD	<p>“Making Safety Work: An Overview of Workplace Safety & Employee Responsibilities” - DVD</p> <p>In just an instant, a workplace injury can transform a productive worker into one who is unable to work. This is why workplace injuries must be prevented and why all employees are needed to make your safety program work.</p> <p>This video provides an overview of common workplace hazards and how they are to be controlled while also demonstrating the importance of each employee's commitment and participation in the safety effort. Viewers will also see how easily injuries can occur when employees decide not to take responsibility for their safety.</p> <p>Topics Include: Lockout/Tagout, PPE, Bloodborne pathogens, Confined space entry, Hazard communication, Good housekeeping, Pedestrian safety</p>	10:00	General Audience

111 Avail. in: DVD & VHS	<p>“What is Carelessness?”</p> <p>Carelessness should never be used as the cause of any accident. You need to determine the cause of all accidents and that means investigating the accident. There are always definable causes to accidents. The misuse of the word "careless" indicates a human factor that contributed to an accident. What does "careless" mean? Care-less...if that's the meaning, careless about what: accidents, injuries, other employees? No, caring less was not the cause. What we're leading up to is trying to redefine the many things supervisors and employees label as carelessness.</p> <p>Topics include: examples of unsafe behavior, unsafe acts, or failure to do something that causes accidents.</p>	5:00	General Audience
4404 DVD	<p>“Cell Phones in the Workplace: A Dangerous Distraction” (Refresher) – DVD</p> <p>Our cell phones are powerful tools that allow us to have instant access to information and communication. When used appropriately, these devices can make our lives easier and more enjoyable, but when used at the wrong time and in the wrong manner, these same devices can get us in trouble at work and cause serious injury. This video discusses how sending and receiving text messages can cause us to lose focus on doing our jobs safely and efficiently as well as the importance of always following your company's policy regarding cell phone use. Also featured are workplace scenarios that illustrate the tragic consequences of ignoring these policies in order to text when it is unsafe or prohibited.</p>	8:00	General Audience
4706 DVD CC 2nd lang.	<p>“Why Don't We Do It In Our Sleeves? - DVD</p> <p>This short video was designed to encourage people to cough and sneeze according to the infection control guidelines put forth by the Centers for Disease Control and Prevention. It is aimed at the common citizen. Its message is serious, but it is presented with humor in such a way that it engages the viewer's attention while the message is repeated in interesting new ways. It can be enjoyed by individuals, but it is even more fun to watch in groups, resulting in community reinforcement. It has been used in hospitals and schools with great success. It actually makes people change the way they cough and sneeze.</p>	5:00	General Audience
4707 (2 disks) DVD Multiple Language	<p>“Duet for Clean Hands” - DVD (Two disk set)</p> <p>Ask most public health practitioners which simple behaviors could do the most to limit the spread of disease, and they would answer: wash your hands and cover your cough with your clothes, not your hands. This 2 DVD set gives you the tools you need to teach those lessons, and have fun while teaching.</p> <p>Disc 1: Why Don't We Do It in Our Sleeves? This is the hilarious hit video on coughing and sneezing hygienically, featuring the Olympics of Sneezing.</p> <p>Disc 2: Soap in the City These four short features demonstrate the why's and the how-to's of hand washing.</p> <p>*Soap in the City: a comedic riff on the story of Typhoid Mary *Last Clean Chance: a science fiction clip on the technique of hand washing with soap and water *Clay and Rebecca: a demonstration of hand sanitizing techniques with foam and gel *We're Dirty: a children's hand washing song with singing hands</p>	12:00	General Audience

HAZARD COMMUNICATIONS (RTK)			
2600 <i>DVD</i>	<p>“MSDS Read It Before You Need It!” - DVD</p> <p>The MSDS is a complex document, an essential tool to monitor chemical use and avoid accidents. With this award-winning video, be confident that your employees understand the ins and outs of the MSDS.</p> <p>Topic Include: Exposure situations, Toxicology, Ecology, Disposal</p>	20:00	General Audience
2601 <i>DVD</i>	<p>“Hazard Communication: It’s Your Right To Know” - DVD</p> <p>Topics Include: The required OSHA introductions to hazardous substances, proper labeling and storage procedures, OSHA hazard communication standards, OSHA labeling requirements and what is "your right to know" as an employee.</p>	22:00	Employees who handle & work with chemicals; Safety Committee
2602 <i>DVD</i> <i>CC</i>	<p>“Hazard Communication: Real Accidents, Real Stories” - DVD</p> <p>Three compelling stories follow the victims, coworkers and families affected by dangerous hazardous substance incidents and how to prevent these incidents from occurring using OSHA hazard communication standards.</p>	12:00	Employees who handle & work with chemicals
2603 <i>DVD</i>	<p>“Global Harmonization-Worldwide Hazard Communication - DVD</p> <p>As we move into a global economy, clear communication becomes a necessity. Give your employees the basic information about the Globally Harmonized System (GHS) for Classification and Labeling of Chemicals. Teach them how GHS differs from the Hazard Communication Standard.</p> <p>Topics Include: The new labeling requirements; the GHS label elements and the different sections of the Safety Data Sheets, What the GHS does, Why the GHS was created, Six elements of the GHS label, Four parts and 10 annexes of the GHS</p>	15:00	Employees who handle & work with chemicals
2604 <i>DVD</i>	<p>“Hazard Communication - For Public Employees” - DVD</p> <p>It's safe to be informed, especially on dangerous chemicals. This important training video will provide your employees with elementary knowledge of these substances: what they are and how to work with them safely. With this resource, you can comply with OSHA standard 1910.1200 and keep all your workers safe.</p> <p>Topics Include: Physical and health hazards, How exposure occurs, PPE, MSDS , Chemical containers warnings and labels</p>	18:30	General Audience; Supervisors; Safety Committee
2605 <i>DVD</i>	<p>“Material Safety Data Sheets” - DVD</p> <p>This video describes the importance of the information provided in each of the various MSDS sections. While it starts from the premise of a laboratory user of chemicals, it can be of value to anyone who participates in or administers the HazCom program. It describes the value of signs and container labels and highlights the ANSI standard on the format used by most manufactures in developing their product’s MSDS. It emphasizes the importance of reviewing the information on labels and in MSDS’s before working with any new chemical. It defines key terms like “Flashpoint” and “Routes of Entry” as they are applied to chemical safety.</p> <p>The second portion of the video goes section by section describing the type of information listed and the value it has for users in preparing for use and understanding the hazardous properties.</p> <p>This video is detailed enough to meet the information needs of any user and provides supervisors, managers and safety committee members with the explanatory information they need to explain MSDS’s or administer the program.</p>	14:00	Those working with MSDS’s

2710 <i>DVD</i>	“Flammable Liquid Safety” - DVD Instruction for employees working with flammable liquids. Defines LEL, UEL, flash points, and other related information. Provides the basics of bonding and grounding.	8:00	Employees working with Flammable Liquids
2711 <i>DVD</i>	“Dealing with Hazardous Spills” - DVD Hazardous materials are a part of many work situations. They can be found in many different types of facilities and on many job sites... from manufacturing and construction to retail and office environments. Some organizations have to deal with hazardous materials as part of their daily business, and have detailed plans and highly trained workers to handle a sudden spill. But other facilities only have to handle these materials infrequently, and may not have given much thought to what must be done in case of a spill. This video designed to help employees who seldom have to face the dangers of a hazardous spill deal with a cleanup situation. <u>Topics include:</u> The Hazard Communication Plan, The Emergency Response Plan, Five levels of OSHA's HAZMAT training, Initial spill response, Spill containment, Instruments used to identify chemicals involved in a spill, Additional hazards of a spill site, and more.	23:00	Employees working with Hazardous Materials
2712 <i>DVD</i> <i>New 2018</i>	“Carbon Monoxide Poisoning” - DVD Carbon Monoxide (CO) is an odorless gas. CO is one of the most common chemical killers in industry and home. All industries include carbon monoxide among their potential hazards. The most common hazard of CO is poisoning. In 1970, the National Safety Council estimated that 1,600 people died from CO poisoning; 10,000 each year suffer from exposure the debilitating effects of CO. This video focuses on the danger of CO poisoning and the precautions to take in avoiding exposure.	10:00	General Audience
2713 <i>DVD</i> <i>New 2018</i>	“Handling Compressed Gas Safely” - DVD The video covers the various types of gas that are contained in gas cylinders. Safe handling procedures and use of compressed gas are discussed. Gas cylinder sizes can range from a small table top cylinder to one ton cylinders. Anyone working with or handling compressed gas containers must be properly trained. This video focuses on the safe procedures in handling of compressed gas cylinders. <u>Topics Include:</u> Compressed Gas Safety Plan, Basic Safety, Hazards to Consider, Identification, Personal Protective Equipment (PPE), Gas Cylinder Storage, Cylinder Inspection and Transportation, Working With Gas Cylinders, Gas Cylinder Piping and Manifold Safety, Compressed Gas Emergency Procedures	21:00	Utilities; Welders
2714 <i>DVD</i> <i>New 2018</i>	“Bonding & Grounding of Flammable Liquids” - DVD Illustrates static electricity, bonding and grounding of flammable liquids, how to reduce the effects of potential explosions by reducing static electricity when transferring flammables.	9:00	Employees working with Flammable Liquids

2715 DVD New 2018	<p>“Indoor Air Quality” - DVD</p> <p>It is all around us, and we breathe it every day to stay alive. But how “clean” is the air that we breathe? While we know that it contains oxygen, hydrogen and nitrogen, there may be other substances in the air around us that we do not know about... such as dust, mites, spores, bacteria and hazardous fumes. Air pollution is not just an outdoor problem. Contaminated air inside a workplace can lead to major health problems... long-term exposure to contaminants can cause asthma and even emphysema. In fact, indoor air quality is enough of a concern that the Environmental Protection Agency (EPA) and the National Institute for Occupational Safety and Health (NIOSH) have created an Indoor Air Quality Guide.</p> <p>This video shows employees the potentially harmful effects of poor air quality, and will help them prevent, identify and correct air quality problems.</p> <p>Topics include: The sources of air contamination, Adhesives, solvents and vehicle exhaust, How a building’s occupants affect indoor air quality, Smoking and second-hand smoke, The use of humidifiers and dehumidifiers, Pollutant pathways, including air ducts and crawlspaces, Heating and air-conditioning systems. The symptoms and signs of poor air quality.</p>	13:00	General Audience
2768 VHS (2 part series)	<p>“Safety in the Research Laboratory” - VHS <i>(Two Part Series)</i></p> <p>Safe techniques can help researchers protect themselves from common hazards in the modern biology lab. Three concise presentations discuss safety principles for chemical hazards, emergency response, and radionuclide hazards. Introduces new staff to good laboratory practices and provides a technical review in safety for the more experienced laboratory worker.</p> <p>Part One - 34 Minutes</p> <ul style="list-style-type: none"> • Radionuclide Hazards – 12 Minutes • Chemical Hazards – 10 Minutes • Emergency Response – 12 Minutes <p>Part Two - 30 Minutes</p> <ul style="list-style-type: none"> • Centrifugation Hazards – 9 Minutes • Chemical Storage Hazards – 11 Minutes • Glassware Washing Hazards – 10 Minutes 	64:00	Schools; Labs; Utilities
1701 DVD	<p>“Safety Showers & Eye Washes”- DVD</p> <p>No matter how many precautions employees take, accidents sometimes happen. In these situations quick action is essential, and if the incident involves a hazardous material, using a safety shower or eye wash can be extremely important.</p> <p>This video reviews situations where safety showers and eye washes should be used, as well as how to properly use them.</p> <p>Topics include:</p> <ul style="list-style-type: none"> • Types of showers and eye washes. • How to operate showers and eye washes correctly. • Chemical splashes. • Appropriate shower and eye wash techniques. • Helping an accident victim use a shower/eye wash. • First aid. • Maintenance and testing of showers and eye washes. 	13:00	Utilities; Public Works; Shop Personnel; Parks & Rec.; Employees working with chemicals

Lead poisoning is as well, which can be as lethal as the deadliest of ammo.</p> <ul style="list-style-type: none"> • How lead can enter and harm the body • Symptoms of lead poisoning • Dangers of lead contamination in both indoor and outdoor ranges • Clean-up methods 	14:00	Law Enforcement
4501 <i>DVD</i>	<p>“Sodium and Calcium Hypochlorite” - DVD</p> <p>Sodium and Calcium Hypochlorite are products widely used throughout industry as well as in water and waste water agencies. You may also see these products used most commonly as pool and spa disinfection products. In our industry, Sodium and Calcium Hypochlorite is heavily relied on as a disinfectant in water and wastewater treatment. These are powerful agents, which are used to disinfect water due to their ability to kill bacteria and other pathogens such as viruses, parasites, and fungus that may lurk in the water supply.</p> <p>Topics include in this safety video are: storage, using sodium hypochlorite, safety, health effects, first aid, personal protective equipment (PPE), disposal, and emergency response.</p>	19:00	Utilities

HEARING CONSERVATION

2800 <i>DVD</i>	<p>“Hearing Conservation For Employees” - DVD</p> <p>Because hearing loss can be gradual, happening over a long period of time, we often don't recognize it's happening until it's too late. This is why we must make sound decisions when it comes to protecting our hearing by following our organization's hearing loss prevention plan, always wearing hearing protection when required and taking steps to reduce off-job noise hazards. This video explains how your facility's hearing conservation program protects employees from the harmful effects of noise exposure.</p>	20:00	Personnel in noisy environments
2801 <i>DVD</i>	<p>“Hearing Conservation and Safety” - DVD</p> <p>Many industries have work areas where employees are exposed to harmful noise levels. Nearly 10 million people in the U.S. suffer from some sort of hearing loss caused by loud noise. To protect workers from high levels of noise, OSHA created the Occupational Noise Exposure Standard. The regulation requires employees to be trained on how to protect their hearing while working in areas with harmful noise levels.</p> <p>Topics include: Dangerous characteristics of noise, How the ear works, How hearing is damaged, Types of hearing protection, Hearing tests</p>	25:00	Personnel in noisy environments Those at Police Range
2802 <i>Avail. In DVD & VHS</i>	<p>“Hearing Conservation”</p> <p>This video will focus on protecting your hearing in the workplace and outside the workplace. Noise can damage your hearing permanently, that's why it's important to protect your hearing at work, home, and everywhere else. Awareness of the hazard is the first step toward preventing an injury and an injury to your hearing is serious business.</p> <p>Topics Include: three-part hearing conservation program (Testing, Training, Protection), baseline, sound level meter or with a clip-on decimeter that records the noise levels, sound booth, medical personnel or audiologists, outer ear, eardrum, middle ear, hair cells, canal caps, custom plugs, earmuffs, soft plugs, reusable plugs, and radio headphones.</p>	11:00	Personnel in noisy environments

Awareness is the first step toward preventing hearing injury. This video will focus on protecting your hearing in the workplace and outside the workplace.	11:00	Vehicle Maintenance Personnel

HEAVY EQUIPMENT / SNOW PLOW

2900 <i>DVD</i>	“Transporting Construction Equipment” - DVD Visually illustrates Department of Transportation, federal Motor Carrier Safety Administration regulation 49 CFR, Part 393 as published on June 5, 2006. Numerous visual examples and easily understood graphics enhance understanding of complicated regulations. Most importantly, the Aggregate Working Load Limit (AWLL) concept is explained using clear, easy-to-understand graphics and real-world examples. This law requires that all equipment haulers understand AWLL and the North American Cargo Securement Standard – whether you transport a skid steer, an excavator or any other type of construction equipment you need to be familiar with current regulations. Are you ready? <ul style="list-style-type: none"> • Introduction (Federal regulations and North American Cargo Securement Standard) • The Trailer (rating, inspection, loading dangers, limitations) • Loading (dangers, cautions, cleanliness, loading situations) • Equipment Securement Points (includes tips and potential problems) • Understanding Tie-Down Equipment (chains, binders, straps, ratings and inspection) • Tie-Down Procedures (direct and indirect tie-down, calculating AWLL) • On The Road (load checks, driving cautions) • Conclusion (wrap-up and brief reminders) 	34:00	Heavy Equipment Operators
2901 <i>DVD</i>	“Rigging & Lifting: Mobile Construction Equipment” - DVD Hydraulic excavators, wheel loaders and rubber-tired backhoes were not designed to sling load materials. However, they frequently do material handling work out of necessity. Now at last, a video designed to provide easy-to-follow practical advice on correct rigging and handling of unusual loads with mobile construction equipment. With expert help from The Crosby Group, the leading manufacturer of all types of rigging hardware, professional operators from Deere & Company and real-world practical advice from the National Utility Contractors Association (NUCA), this video was specifically designed to help contractors rig & lift loads safely.	29:00	Backhoe Operators

Tape #	Title/Description	Length	Audience
2915 DVD	“Basic Snowplowing Techniques” - DVD This video is designed to introduce snowplow operators to basic snowplowing principles and general techniques.	32:00	Snow Plow Operators
2916 DVD	“Skid Steer Loaders in the Snow and Ice Industry” - DVD This video will appeal to supervisors, operators and estimators covering a wide range of topics which include: <ul style="list-style-type: none"> • Site Application • Attachments • Techniques • Safety • Training • Preventive Maintenance 	23:00	Snow Plow Operators
2917 <u>Avail In:</u> DVD & VHS	“Dump Truck Safety” The dump truck: it seems that they are everywhere and with good reason. Of all the vehicles found on construction, maintenance, and public works, the dump truck is without question the most versatile. In addition to the all familiar carrying, dumping, and spreading of loads, this highly versatile equipment can be outfitted with a wide array of attachments to make it, without question, the workhorse of the job site. Topics include: other tasks dump trucks can perform (spread salt, sand, and cinders on icy roads), a snow plow attachment, accurately apply asphalt, front scoops to pick up material and deposit in their beds, tow heavy loads such as backhoes and other trailer mounted equipment, equipment, controls, and operations.	11:00	Dump Truck Operators
2918 DVD New 2018	“Backhoe Operations for Public Works” - DVD Backhoes perform tasks such as digging, scraping, compact soil, load material, break pavement and lifting. Wheeled backhoes are the standard in construction and maintenance. Most backhoe accidents are the due to tip-overs. Roll over protection are comprised of a two or four post steel cage or built in as an integral part of the operator cabin. The video focuses on the safe operation of backhoes. Topics Include: Operation, Ten Commandments of Backhoe Safety, Maintenance, Job Planning, Driving and Operation, Transportation	15:00	Backhoe Operators
2919 DVD New 2018	“Backhoe Loader: Safe Operating Techniques” - DVD A wide variety of working applications provides a broad appeal to this video. Any operator who watches this lesson in safe operating techniques and fails to learn something new has just slept through the entire video. Topics Include: Accident causes, Trenching considerations in various types of soil, Underground and overhead utility dangers, Effects of ground loading and machine positioning, Machine stability in various terrain conditions.	16:00	Backhoe Operators
2920 DVD New 2018	“Backhoe Loader: Pre-Start Inspection” - DVD This video was created to help both new and experienced operators understand what to look for in a daily pre-start inspection. The video also emphasizes looking beyond the ordinary to help avoid equipment failures, and the importance of knowing all the controls and their function. Topics Include: The need for daily lubrication, checking and replacing ground engaging wear components, reporting problems and potential trouble spots, and checking machine controls and warning systems for correct operation	12:00	Backhoe Operators

MEL MEDIA LIBRARY CATALOG

Tape #	Title/Description	Length	Audience
2921 DVD New 2018	<p>“Wheel Loader Operating Techniques” - DVD</p> <p>Because wheel loaders (front end loaders) operate in so many different applications it is nearly impossible for operators to have experience in all of them. This video brings together real-world front-end loader techniques learned in many types of operating situations.</p> <p>Topics Include: Wide variety of machine brands and working scenes, Correct operation on hills and rough terrain, Side hill work dangers and slip or tip recovery, The dynamics of rollover accidents, Night operations.</p>	21:00	Wheel Loader Operators
2922 DVD New 2018	<p>“Dump Truck Operation & Safety” - DVD</p> <p>Safe operation practices for semi-trailer and single body trucks are covered by this dump truck safety training video. Department of Labor accidents are used to provide examples of the dangers of backing, uneven terrain and tip-overs. A paper mill hauling operation is the backdrop for a complete view of the dangers of anyone operating a dump truck.</p> <p>Topics Include: pre-operation inspection, causes of accidents, load distribution and surging.</p>	13:00	Dump Truck Operators
2923 DVD New 2018	<p>“Crawler Excavator: Maintenance & Transport” - DVD</p> <p>Every owner of this type of equipment does some maintenance or repair work on their machine. They are faced with the same safety hazards as the full-time mechanics at the dealership. And all machines are transported from job to job.</p> <p>This video is designed to address the safety hazards inherent in these specialized areas: Relieving static pressure in systems, Dangers of high pressure leaks, Dangers of replacing wear components, Correct component positioning on the trailer, Knowing the condition and rating of tie-down equipment.</p>	15:00	Crawler Excavator Operators
2924 DVD New 2018	<p>“Skid Steer: Pre-Operation Inspection” - DVD</p> <p>It’s easy to classify the skid steer as a simple machine to operate. But when you’re talking safety, its simplicity is its downfall. Anyone can quickly create a dangerous situation for the operator or nearby people. Applies to most work locations – indoor and outside.</p> <p>Topics Include: How to complete an inspection, What to inspect, Skid Steer Capacities, Work situations and other workers.</p>	12:00	Skid Steer Operators
2304 DVD	<p>“Crane Safety - DVD</p> <p>While there are many different types of cranes, they all have the ability to make many jobs much easier by lifting enormous weight. But they also share the potential for disaster when they are not operated safely. Crane-related accidents can often be deadly, due to the cumbersome and heavy loads that are lifted. A small miscalculation or a brief moment of inattention, and tragedy could strike. Once a load falls, not much can be done to stop it, and there is little time for people to move safely out of the way. A coworker could be injured or killed, and expensive equipment or materials could be damaged or destroyed... even the crane itself.</p>	17:00	Crane Operators; Ground Crew
3903 <u>Avail. in</u> DVD & VHS	<p>“Vehicle Backing Accident Prevention”</p> <p>100% of backing accidents can be prevented. You’re a professional and you shouldn’t be backing into anything for any reason. This video explains the common causes and solutions to vehicle backing accidents.</p> <p>Topics include: Daily inspection, Backing, Cone of invisibility, Children and Pedestrians, Landfills, Transfer Stations</p>	10:00	Sanitation Operators

3010 DVD Spanish Version Include	“Pesticide Safety: Worker Protection” - DVD EPA accepted and professionally produced this bilingual training DVD was designed to meet the criteria for content and quality of materials used in basic safety training for agricultural workers and pesticide handlers as required by the WPS. The WPS Bilingual training DVD contains two, 16-minute sections; one for workers and the other for handlers. <u>Topics Include:</u> <ul style="list-style-type: none"> • Agricultural Worker • Pesticide Handler 	32:00	Pesticide Workers & Handlers
3011 DVD	“Commercial Lawnmower Safety” - DVD Explains basic safety rules vital to safe operation of commercial lawnmowers. Addresses inspection, safe operation, maintenance and safe fueling procedures. Great for training new hires or experienced personnel.	12:00	Landscape Equipment Operators
3012 Avail In: DVD & VHS	“Tree Trimming Safety” Demonstrates safety and maintenance methods for working with: <ul style="list-style-type: none"> • chain saws • chippers • high lift trucks • and general tree trimming safety 	20:00	Landscape Equipment Operators
3013 DVD New 2018	“Landscape Maintenance Safety” (Digital) - DVD Landscape workers have a lot of responsibility maintaining parks, highways and other areas that provide enjoyment for a large number of people. They are also responsible for fire safety in these areas. The equipment, chemicals and techniques used can be hazardous. This video focuses on safety awareness in landscape maintenance. <u>Topics Include:</u> <ul style="list-style-type: none"> • Proper Work Clothing • Equipment 	15:00	Landscape Equipment Operators
3014 DVD New 2018	“Commercial Mower Safety”- DVD The same caution should be exercised in driving a commercial mower as an automobile. Mowers are a great labor-saving device and are safe to use. Most safe operating rules and instructions apply to a riding mower or a walk-behind mower. Always follow the “Operator’s Manual” for safe operation. This video focuses on the safety features of this equipment, maintenance and accident prevention tips. <u>Topics Include:</u> Operator's Manual, Safety Features, Mowing Areas, Protective Clothing, Pay Attention, Refueling the Mower, Accident Prevention Tips, Slope Operation, Maintenance	12:00	Landscape Equipment Operators
3015 DVD New 2018 2nd lang.	“Grounds Keeping Safety: Dealing with Bugs & Critters” - DVD Insects may be small critters, but they can cause serious illness and even fatal consequences. This video, designed especially for public works, utility, government employees, grounds maintenance personnel or other outdoor employees, is essential for insect protection and general safety in a work environment. <u>Topics Include:</u> <ul style="list-style-type: none"> • Preventing risks such as West Nile Virus • Basic PPE • Snakes, wasps, bees, fire ants • First aid 	16:00	Employees working outdoors

Tape #	Title/Description	Length	Audience
3016 DVD New 2018	"Chain Saw Safety (Aurora)" - DVD Public works and other occupations often use chain saws in tree trimming, landscaping maintenance, brush control, and home use. There are many risks involved requiring proper instructions on safe procedures.	13:00	Chain Saw Operators
3017 DVD New 2018	"Elements of Pruning" - DVD Pruning enhances the beauty, directs the shape, promotes health and encourages new growth and better flowers and fruit. Learn how to use apical dominance, direction of bud growth and desired outcome to help make the following pruning cuts: pinching, heading back, thinning out, shearing, and limb removal. Then, see how to prune ornamental trees, hedges, bush roses, conifers and flowering shrubs. Also, learn about types, uses and maintenance of common pruning tools. <u>Topics include:</u> Pruning techniques, Understand apical dominance from pruning plants, Understand the direction of bud growth for pruning plants, Types of pruning tools, Maintenance of pruning tools, Uses of pruning tools and many more!	26:00	Landscape Personnel; Arborists
3018 DVD New 2018	"Landscape Tools: Use & Safety" - DVD Choosing the right tool for the job not only makes the job easier but safer! Learn what you need to know about tool selection, personal protection equipment to wear while using the tools, tool care and storage. Tools demonstrated include shovels (i.e., round point, square point, scoop), rakes, forks, cultivators, hoes, railroad picks and mattocks. <u>Topics include:</u> Landscape tool selection, Landscape tool safety, Landscape tool maintenance, Landscape tool storage, Uses of landscape tools	30:00	Landscape Personnel
3019 DVD New 2018	"Pesticide Safety: Minimal Risk to the Applicator" - DVD Explains the uses of insecticides, herbicides and fungicides in integrated pest management (IPM) programs. The featured expert addresses eight major areas that reduce risk to the applicator: management/employee responsibilities; label information; protective clothing; pesticide storage; mixing and load; application; disposal; and accident response procedures. Through a dramatization, viewers are able to "take part" in all eight areas. <u>Topics include:</u> Integrated pest management, Types of pesticides, Using the proper pesticide for certain jobs, Methods of protecting the applicator from harm when applying pesticides	38:00	Pesticide Workers & Handlers
3020 DVD New 2018	"Power Blower" - DVD Presents procedures for maintenance, safety and operation of power blowers. You will learn about the proper equipment to wear, pre-operation safety check and proper starting procedures. The right way to use the blower, cool-down procedures, and fueling procedures for 2-cycle engines are covered. In addition, you will see how to clean the equipment, wash the foam air filter and check the spark plug. <u>Topics include:</u> Maintenance of power blowers, Safety of power blowers, Operation of power blowers, How to correctly use a power blower, Fueling procedures for a 2-cycle engine, Properly cleaning a power blower, and many more!	11:00	Landscape Personnel

Tape #	Title/Description	Length	Audience
3021 DVD New 2018	<p>“Tractor Accidents: It’s Not Gonna Happen to Me” - DVD</p> <p>Sections include pre-operation check (examining the spinner shield, shaft, tires, oil, and fuel shut-off cable), transporting tractors (toe-in, wheel spacing adjustment, locking and adjusting steering brakes, danger of cargo movement), operation check (removing hazards, backing up hills and loading ramps, avoiding sideways driving), tractor behavior and accident prevention (common mishaps to avoid) and emergency response procedures (first aid treatment and training).</p> <p>Topics include:</p> <ul style="list-style-type: none"> • Pre-operation check • Transportation • Operation check • Accident prevention, • Emergency response procedures 	25:00	Tractor Operators
3071 VHS	<p>“Electrical Hazards & Trees” - VHS</p> <p>Can your crew recognize an electrical hazard before it's too late? Electricity is the most unforgiving and often the most unfamiliar hazard facing any tree worker! Unsafe acts cause 95% of all tree and wire-related accidents! This video demonstrates the proper safety precautions your employees should be using according to ANSI Z133.1.</p>	23:02	Landscape Equipment Operators
3073 VHS	<p>“Rigging for Removal - Basic Rigging” - VHS</p> <p>This video is for the arborist who wants to learn how to use rigging to make tree removal operations safer, more efficient and more profitable. The video focuses on the simple techniques and equipment that tree workers can apply in the field while lowering cut limbs.</p>	21:00	Tree Removal Personnel; Arborists
3074 VHS	<p>“Rigging for Removal - Technical Rigging” - VHS</p> <p>The principle behind rigging in tree care work is to remove a tree or tree part in sections with the use of ropes, pulleys and other components. This makes the job easier, which makes it safer for the crew. This training session discusses some more advanced methods and designs of the rigging principle.</p>	35:00	Tree Removal Personnel; Arborists
3075 VHS (5 Tape Series)	<p>“Basic Training for Ground Operations for Tree Care” - VHS (Five Tape Series)</p> <p>Here is a video to make the job of new employee orientation and training in the fundamentals of safety a whole lot easier. This video was jointly produced by the International Society of Arboriculture and Tree Care Industry Association, organizations with solid reputations for producing high-quality educational and training tools for arborists.</p>	60:00	Tree Removal Personnel; Arborists
560 VHS CC	<p>“Back Safety-For Landscape, Maint. & Custodial Workers” - VHS</p> <p>Most back injuries are the result of workers not following safe lifting and carrying procedures.</p> <p>This video is a guide to the basic steps that landscape, maintenance, warehouse and custodial workers should follow to avoid back injuries.</p>	20:00	Landscape; Maintenance; Custodial Workers; Schools
2912 DVD	<p>“Tractor Safety Basics” - DVD</p> <p>Topics include: personal protective equipment, safe operation of tractors, safety checks, the personal safety checklist, tractor operation checklist, the manual, check shields and guards, handrails, control lights and gauges, starting the tractor indoors, before using the tractor in a field or other area, if an area has been treated with pesticides, implements, riders, rough ground, ditches, nighttime operations, stopping the tractor, powered take off, personal protective equipment.</p>	16:00	Tractor Operators

Tape #	Title/Description	Length	Audience
3303 DVD	<p>“Insect Safety: Killer Bees, Wasps and Spiders” - DVD</p> <p>Knowing how to react to a spider bite or a bee sting can save you hours of pain and possibly your life. This video is so comprehensive that it covers everything from bee stinger removal (use your fingernail not your fingers) to spider bite prevention (such as checking your shoes before putting them on). Everything that you will need to protect yourself as much as possible from stings and bites is on this film.</p>	36:00	Employees Working Outdoors
3304 DVD	<p>“Poisonous Plant Safety” - DVD</p> <p>This video covers the different types of plants and what to do if you are exposed. Poisonous plants in one form or another can be found throughout the United States. The prime hazard is the allergic reaction resulting from contact with the resin produced by the plants. These resins are so toxic that in the case of poison ivy and oak only one billionth of a gram is all it takes for a rash, and only one quarter of an ounce is enough to cause a rash on every person on earth.</p> <p>Many outdoor occupations such as tree trimmers, landscapers, surveyors, park and highway maintenance, meter readers, and fire fighters face frequent exposure concerns. The best way to avoid exposure is your ability to identify the plants in your region and avoid contact.</p>	36:00	Employees Working Outdoors
3308 DVD	<p>“The Mosquito – What You Need to Know” - DVD</p> <p>This video has been developed to give you the information you need to protect yourself from being bitten by the mosquito and how to identify and eliminate the area where they breed and multiply.</p>	11:00	Employees working outdoors
3309 DVD	<p>“Hidden In The Leaves” - DVD</p> <p>What do you see in your backyard? Beyond the green lawn...flowers and shrubs...children playing...Look harder! Still, you don't see them. They're there...in the tens, hundreds, maybe even thousands. But it only takes one. One infected tick can change your life. They're there, hidden in the leaves, waiting to latch on.</p> <p>Directed by award-winning filmmaker Mary Healey Jamiel, is the story of University of Rhode Island entomologist Thomas Mather and his team's efforts to help people see the risks for serious tick-transmitted disease lurking in an increasing number of rural, suburban and even semi-urban landscapes in the eastern United States.</p> <p>This documentary exposes the hidden dangers that ticks represent and spotlights strategies to avoid ticks and their diseases.</p>	24:00	Employees working outdoors
3315 DVD	<p>“Tick Bite Prevention & Response- DVD</p> <p>If you spend time in the outdoors in North America, you stand a good chance of having a tick attaching itself to your body and feeding on you. The result of this tick bite could be a serious disease such as Lyme Disease or Rocky Mountain Spotted Fever.</p> <p>In this video, EMT/Firefighter/Best-Selling Author Martin Lesperance stresses the importance of early treatment of tick bites and precautions for preventing them in the first place. It's important to note that throughout Canada and the U.S., areas that were once low risk for tick bites have become high risk, so everyone in North America can benefit from the information presented in this program.</p> <p>Topics include: Various types of ticks and where they live, How ticks spread diseases, Lyme Disease, Rocky Mountain Spotted Fever, Preventing tick bites, Tick removal</p>	16:00	Employees working Outdoors

4101 <i>Avail. in: DVD & VHS</i>	<p>“Hand Held Cutoff Saws: Safe & Efficient Operation”</p> <p>One of the most common job-site tools is the gas powered cut-off saw. Few saw users have had any training in correct use of gas powered saws.</p> <p>Areas covered:</p> <ul style="list-style-type: none"> • Primary focus on gasoline powered saws • Discusses saw adjustments, safety devices • Correct blade type and application • Correct saw starting techniques • Care and cleaning of the saw 	18:00	Public Works; Firefighters; Landscape Equipment Operators
4402 <i>DVD</i>	<p>“Basic Sidewalk Clearing with Snow Blowers” - DVD</p> <p>This video is designed to give your employees the basic tips for clearing sidewalks with snow blowers; it also gives experienced skid steer operators a few tips of their own.</p>	34:00	Employees using Snow Blowers

LIFEGUARD OPERATIONS

3100 <i>DVD</i>	<p>“Beach Safety: A Guide To Staying Safe On The Coast”- DVD</p> <p><i>This video focuses on West Coast but some information valid to all beaches.</i> This contains footage of beachgoers in distress, rescues, interviews with subject matter experts and valuable information about many are often overlooked hazards that exist on the beach.</p> <p>Topics Covered:</p> <ul style="list-style-type: none"> • Rip currents • Sneaker waves • Tidal activity • Rock climbing • Airborne driftwood 	10:00	Lifeguards
3101 <i>DVD</i>	<p>“Disappearing Dummies: Why Lifeguards Can’t See” - DVD</p> <p>Aquatic safety expert Dr. Tom Griffiths now explains <i>how</i> and <i>why</i> lifeguards have such great difficulty detecting bodies on the bottom of “crystal clear” swimming pools. A must see for all lifeguards, managers, supervisors and parents in water safety. Hundreds of hours of filming in a variety of indoor and outdoor pools were condensed into this lifeguard training DVD with evidence not found in lifeguard training texts. It clearly and effectively illustrates the phenomenon of Visual Body Blindness and exemplifies how difficult it is for lifeguards to detect victims once they submerge beneath the surface of the water. It illustrates and emphasizes how under even the best of water conditions mannequins quickly disappear from sight as soon as the surface becomes disturbed by wind, waves or other swimmers.</p>	10:30	Lifeguards; Parks & Rec.
3102 <i>DVD</i>	<p>“Five Minute Scanning Strategy” - DVD</p> <p>Based on years of scientific research and studies done with thousands of lifeguards across the world, Tom Griffiths, EdD of Penn State University, has developed a systematic approach to lifeguard surveillance called the Five Minute Scanning Strategy®.</p> <p>The Five Minute Scanning Strategy® helps lifeguards improve concentration and attention while reducing boredom by changing the mental process every five minutes. The video makes the difficult task of teaching and learning the scanning process much easier and enjoyable.</p>	10:30	Lifeguards; Parks & Rec.

Tape #	Title/Description	Length	Audience
3103 DVD	<p>“Shallow Water Blackout/Genetic Drowning Triggers” - DVD</p> <p>Why is it that good swimmers drown in guarded pools? How is it possible that triathletes, swim team members, lifeguards and even Navy Seals drown, particularly in traditional competitive swimming pools? The answer is easy, yet difficult to understand and comprehend. After years of reviewing medical and scientific research, and interviewing hosts of medical experts to find the answers to the questions above, renowned author and educator, Dr. Tom Griffiths, EdD, discovered that good swimmers don't drown, but die instead of other medical causes that often do not show up at autopsy.</p> <p>This video can help prevent unnecessary deaths in pools, lower liability and better equip lifeguards in responding to sudden deaths. Remember to call a death in your pool, just a death, rather than a drowning, until proved otherwise.</p> <p>This is a comprehensive presentation divided into four categories: (1) Introduction and definitions, (2) Shallow Water Blackout, (3) Genetic "Drowning" triggers, and (4) Summary and quiz.</p>	30:00	Lifeguards; Parks & Rec.
3104 VHS	<p>“Swimming Pool Operations: A Framework For Action” - VHS</p> <p>Addresses key chemical, physical and biological issues of the pool environment, including many day-to-day problems encountered by pool professionals. Illustrates specific examples that are difficult to explain verbally or in print.</p> <p>Topics include:</p> <ul style="list-style-type: none"> • Introduction - Begins with water appreciation, introduces the concept of a pool environment, and finishes with a discussion on water contaminants. • Physical Treatment: Circulation – Analyzing the circulation system and how to optimize it. • Physical Treatment: Filtration – Understanding filtration systems with details on sand, diatomaceous earth and cartridge filters. • Chemical Treatment – Balancing pool water through control of pH, alkalinity, hardness and total dissolved solids. • Biological Treatment – The origin of biological contaminants. How to disinfect pool water using chlorine and other oxidizing agents. • Water Testing – Guidelines for sampling and testing. 	56:00	Lifeguards; Parks & Rec.; Supervisors
3105 DVD	<p>“The Supervision Myth” - DVD</p> <p>After preaching "constant, vigilant supervision" as the number one drowning prevention strategy, the available evidence on the subject suggests that such an objective is nearly impossible to achieve. <i>The Supervision Myth</i> examines the false premise that underlies such a strategy. Although supervision is needed, the DVD details practical and affordable ways to prevent drowning, including supplementing supervision with technology, developing a better design, and ensuring better engineering of aquatic facilities.</p> <p>Topics Include:</p> <ul style="list-style-type: none"> • Constant, vigilant supervision • Changing the culture to supplement supervision • Body blindness • The instinctive drowning response • Root cause analysis • Effective safety signage • Drowning detection/prevention technologies 	88:00	Lifeguards; Parks & Rec.; Supervisor, Management

3106 DVD	<p>"Beach Safety Basics" - DVD</p> <p><i>This video focuses on Pacific but some information valid to all beaches.</i></p> <p>Two short videos on this DVD address very common safety issues on Pacific Northwest coasts: The dangers associated with:</p> <ul style="list-style-type: none"> • Rolling logs • Rip currents <p>All too often, visitors to our beaches are unfamiliar with the hazards of playing on dangerous large logs that may roll in the surf or with the frightening force of a rip current, which can pull swimmers out to sea. The separate videos explain these hazards and how to avoid or respond safely to them, using interviews with experts to emphasize key insights.</p> <p>The videos are intended for use in settings where coastal visitors congregate, to provide critical safety information at point of use. Users may include coastal museums, science centers, hotels, motels, campgrounds, and local cable television.</p>	13:00	Lifeguards
3107 DVD	<p>"Beach Vehicle Operations" - DVD</p> <p>In many areas, lifeguards use four wheel drive vehicles to patrol and respond to emergencies.</p> <p>This video introduces basic concepts aimed at helping beach drivers consider some key aspects of safe operating principles. It is intended to assist in training in accordance with local agency protocols.</p>	27:00	Lifeguards
3108 DVD	<p>"Code X (Search and Recovery)" - DVD</p> <p>One of the most stressful, critical, and least frequently employed procedures, is a missing person search, known as a Code X incident. The greatest determining factors of a successful Code X search and recovery are training and careful preplanning.</p> <p>This training video, which involves footage from an actual Code X incident, will help you understand the basics of a Code X search and the Incident Command System.</p>	16:00	Lifeguards
3109 DVD	<p>"Components of a Rescue" - DVD</p> <p>A successful water rescue requires a lifeguard to make many decisions and to properly execute a series of actions.</p> <p>This training video breaks down the components of a rescue from start to finish to help lifeguards perform water rescues safely and efficiently.</p>	8:00	Lifeguards
3110 DVD	<p>"Water Observation" - DVD</p> <p>Although a lifeguard's role isn't limited to water safety, water observation may be the most critical aspect of a lifeguard's duties.</p> <p>This video offers some skills and approaches which may enhance the quality of water surveillance.</p>	11:00	Lifeguards
3111 DVD	<p>"Safe Chemical Handling for Lifeguards & Pool Operators" - DVD</p> <p>With its realistic and relevant presentation, this video will educate and prepare your staff to implement safe chemical handling practices at your aquatic facility. The only chemical safety training video specific to the aquatic industry, Safe Chemical Handling for Lifeguards and Pool Operators gives your staff the information they require regarding the hazards of chemical exposure, detecting the presence of harmful chemicals, and protecting themselves from harm.</p> <p>Topics Include: Storage and labeling of chemicals, How to read material safety data sheets, Action steps for safe cleanup of small spills, Procedures to follow during a large spill emergency</p>	12:00	Lifeguards; Pool Operators
3162 VHS	<p>"Hidden Enemy: Bloodborne Pathogens in Lifeguarding" - VHS</p> <p>The importance of recognizing the dangers of bloodborne pathogens in water rescue and ways of prevention are discussed.</p>	12:00	Lifeguards

OFFICE AND ERGONOMIC SAFETY			
3200 <i>DVD</i>	<p>“Computer Workstation Safety” - DVD</p> <p>This video reviews the safe use of computers, and offers practical solutions to many potential problems. Reminds employees to work safely and avoid injuries when using computers.</p> <p>Topics Include: Organization of Work Materials, Maintaining Neutral Positions, Positioning the Back and Torso, Avoiding and Relieving Eyestrain, Avoiding and Relieving Muscle Strain, Tension and Stress Reducing Exercises</p>	17:00	General Audience
3201 <i>DVD</i>	<p>“Working Ergonomically in the Office” - DVD</p> <p>This video shows employees how to recognize ergonomic problems in an office environment, potential adverse effects "bad ergonomics" can have and practical solutions they themselves can use to help deal with ergonomic problems in the office.</p> <p>Topics Include: Physiology of the Body, Parts of the Body Most Effected, Eyestrain, Pragmatic Preventative Measures, Correct Use of Office Equipment, Exercises and Stress Release</p>	21:00	General Audience
3202 <i>DVD</i>	<p>“Safe Lifting for Office Workers” - DVD</p> <p>This lifting safety training video was developed for office workers who need to be trained in safe lifting techniques. The back safety video educates on how the back functions, and using safe lifting techniques. Help your employees learn the OSHA lifting techniques and make sure that they are lifting safely from now on.</p>	8:00	Office Personnel
3203 <i>DVD</i>	<p>“Ergonomics Awareness” - DVD</p> <p>This video describes the basic of repetitive motion or cumulative trauma injuries. It demonstrates at-risk behaviors and lists longer term health risks. It describes the various contributing factors that may influence an injury. It stresses prompt reporting, task analysis and introduces common preventative measures.</p>	12:00	General Audience
3204 <i>DVD</i>	<p>“Office Ergonomics: If Only Your Computer Could Talk” - DVD</p> <p>This video uses a humorous approach of a talking monitor to focus on how humans interact with office machines, namely the computer. It describes workplace risk factors, signs, symptoms and health effects and steps to control risk factors. The majority of the suggestions focus on the proper set up of the work space and the adjustment of chairs and placement of peripherals. It also discusses other ergonomic concerns in the office such as lifting and carrying. It shows lots of examples of simple fixes.</p>	17:00	Office Personnel
3205 <i>DVD</i>	<p>“Office Safety (Marcom)” - DVD</p> <p>Office employees frequently have the feeling that since they don't work "out on a plant floor" safety isn't important in their jobs. Yet accidents and injuries in the office account for thousands of hours of lost time, and millions of dollars in Workers' Compensation and medical costs.</p> <p>This video show employees what hazards exist in office environments, and how important it is to use good safety practices as they go about their work.</p> <p>Topics include:</p> <ul style="list-style-type: none"> • Safety awareness • Safety housekeeping • Slips, trips & falls • Electrical safety 	22:00	Office Personnel

Tape #	Title/Description	Length	Audience
3206 DVD	<p>“Cyber Security” - DVD</p> <p>Cyber Crime now poses a constant and serious threat to the security of government, corporations and individuals. The highly sophisticated, deceptive methods of cyber criminals put our confidential information, finances, and very ability to function at risk. Following the five simple steps presented in this video will go a long way to protecting you and the organizations so essential to our safety, financial security, and way of life.</p> <p><u>Video Produced by the Municipal Excess Liability Fund (MEL).</u> <u>Available as on-line course</u></p>	14:00	General Audience
3207 DVD	<p>“Office Injury Prevention” (Refresher) - DVD</p> <p>In the fast-paced and sometimes high-stress environment of a busy office, workers sometimes forget about their most important workplace responsibility: their safety. They overlook safety issues because they just don't believe an office has any hazards; yet, nearly 40,000 office workers suffer disabling injuries each year. This video stresses the importance of office safety and how a good safety attitude and using good judgment are the real keys to injury prevention. Many common office safety issues are discussed, including the safe work practices employees must follow to avoid office injuries.</p>	10:00	Office Personnel
3208 <u>Avail In:</u> DVD & VHS	<p>“Employee Involvement in Ergonomics”</p> <p>While CTDs or Cumulative Trauma Disorders are a medical disorder and treated as such, ergonomics, the fit between people and their tools and workplaces, represents an important ingredient in treatment and prevention. The bottom line is that ergonomic approaches to CTDs can be viewed simply as good management. Documented evidence supports claims that ergonomic solutions are clearly cost effective because of increased productivity and work output.</p> <p><u>Topics include:</u> repetitive strain injury or RSI, check your posture, stretching, rotating, shaking, reaching, rolling, shifting, vision discomfort, veiling glare, and back disorders.</p>	16:00	General Audience
3209 DVD New 2018	<p>“Dealing with the Irate Customer” – DVD</p> <p>It's hard to keep your cool when dealing with difficult or angry customers. After all, it's only human to get defensive and fight back—or cave in and give them whatever they demand.</p> <p>Your employees will learn to stay professional and not take it personally when they have to deal with a difficult customer, whether in retail, health care, government, or wherever. They'll learn that their basic customer service skills are a first line of defense—it's hard for customers to be mean to someone who's being nice to them. And they'll learn three powerful "breakthrough techniques" that can be used if the situation escalates and threatens to get out of hand.</p> <p><u>Topics Include:</u> Connecting with the angry customer, Showing empathy or apologizing if appropriate, Guiding the customer's attention toward solving the problem, Using positive language, Having the customer make small decisions, Taking a timeout or drawing the line, Knowing what you can offer.</p>	21:00	General Audience

1409 DVD	<p>“First Aid” - DVD</p> <p>In most facilities, not a day goes by without some type of injury occurring. It can be as serious as a chemical burn, or as minor as a small cut. But any injury can be painful and affect an employee's work performance... as well as their life off the job.</p> <p>This video will show employees that knowing basic first aid can often limit the severity of any type of injury, or even prevent a death.</p> <p>Topics include: Cuts and bleeding, Muscle pulls and sprains, Burns, Broken bones, Shock, Artificial respiration and CPR, and more</p>	13:00	General Audience
1410 DVD	<p>“First Aid: Until Help Arrives” - DVD</p> <p>Your employees never know when they'll have to respond to an injured co-worker, so it is crucial that they know what to do until help arrives. First aid, as well as knowing what to do and knowing what not to do in an emergency, can greatly reduce the extent of a person's injuries and can even save his or her life.</p> <p>In this video, best-selling author/EMT Martin Lesperance shares experiences and tips he's learned from 25 years of working in emergency services while showing viewers how to respond in a variety of emergency situations.</p>	10:00	General Audience
1411 DVD	<p>“CPR AED Awareness Training” - DVD</p> <p>Include in this video is a step by step approach on what to do for an adult cardiac emergency, calling 911, and a comprehensive description and demonstration section on how to perform CPR for the adult age group. A brief introduction to the AED (Automated External Defibrillator), the importance of this life-saving device and how to operate one.</p>	31:00	General Audience
1417 DVD New 2018	<p>“What to do in Case of an Emergency” - DVD</p> <p>No matter what job you have or in what industry, safety is your responsibility. It is management's responsibility to provide safety training and information about your job, machines, and equipment and potential hazards. Training is an ongoing process. The company must have written policies, procedures and personnel trained to respond to emergencies. Everyone in the organization should be familiar with emergency procedures.</p> <p>This video is about emergency actions to help you and fellow workers in the event of a major emergency.</p> <p>Topics Include: Emergency Actions, Chemicals, Fire, Fire Extinguishers, Alarms, Elevators and Stairwells, Manmade Emergencies, Earthquake, Violence in the Workplace</p>	16:00	General Audience; Safety Committee
1418 DVD New 2018	<p>“AED: Automated External Defibrillators” - DVD</p> <p>Most people who go into sudden cardiac arrest will still have some electrical activity of the heart. The sooner an AED is attached, the greater chance of survival. An arrhythmia is any change from the normal sequence of electrical impulses. When the heart is in ventricular fibrillation, it is fluttering and will not allow the blood to reach the brain. Irreversible brain damage can occur within 4 to 6 minutes. The national average EMS response time is about 10 to 12 minutes.</p> <p>This video focuses on the laws pertaining to AED and proper procedures when assisting a person in need.</p>	12:00	General Audience

1419 DVD New 2018	<p>“Emergency First Aid” - DVD</p> <p>This video is designed to provide basic information on how to properly apply first aid in emergency situations. First Aid is the immediate care given to the injured or suddenly ill person. It's temporary assistance that is rendered until competent medical care, if required, arrives and takes over. Emergency First Aid means dealing with urgent conditions.</p> <p>This video has been designed to help provide basic information that will help you properly apply first aid that can save lives, reduce recovery time, and can possibly be the difference between temporary disability or lifelong disability for the victim.</p>	19:00	General Audience
1501 DVD	<p>“Conflict Resolution in the Office” - DVD</p> <p>Conflict in the workplace is inevitable. Anytime two or more people come together, they will eventually disagree about something. While some conflict can be healthy, it is often an indication that there is something wrong. Conflict is frequently a "call to action"... a problem crying out for a solution.</p> <p>The good news about conflict is that it is usually based on "caring". The more someone defends their point of view in an argument, the more they care. But if conflict is allowed to fester and grow without a resolution, it can lead to serious problems such as threats and even physical violence. The effectiveness of an entire organization can be harmed if conflict is allowed to escalate.</p>	17:00	Office Personnel; Supervisors; Management
2002 DVD	<p>“Fire Prevention in the Office” - DVD</p> <p>Among all the safety problems an employee can encounter, fire can be the most frightening. Every year office fires cause millions of dollars in damage and result in hundreds of employee injuries. Yet many employees do not realize how their own actions can contribute to the risk of fire.</p> <p>The training video looks at what causes fires in office environments, reviews steps that can be taken to help prevent fires and discusses what employees should do in case of a fire emergency.</p> <p>Topics include: Common causes of workplace fires, The concept of "flashpoint", "Classes" of fires, Importance of good "housekeeping", Preventing office fires, Fire extinguishers, Evacuation and other employee responsibilities, First aid.</p>	16:00	Office Personnel
2006 DVD	<p>“Fire Safety for Office Workers” (Refresher) - DVD</p> <p>While office workers often don't think much about the potential for fire while performing their jobs, there are more than 1,000 fires in office environments each year. This video discusses how to eliminate the factors that contribute to the ignition of fires and how to respond if a fire were to break out.</p> <p>Topics include: good housekeeping, controlling electrical fire hazards, emergency action plans, evacuation procedures, classes of fire and their extinguishing agents, the importance of using the appropriate fire extinguisher, using the PASS system to extinguish a fire and treating fire-related injuries</p>	11:00	Office Personnel

4706 DVD CC 2 nd lang.	<p>“Why Don’t We Do It In Our Sleeves?” - DVD</p> <p>This short video was designed to encourage people to cough and sneeze according to the infection control guidelines put forth by the Centers for Disease Control and Prevention. It is aimed at the common citizen. Its message is serious, but it is presented with humor in such a way that it engages the viewer's attention while the message is repeated in interesting new ways. It can be enjoyed by individuals, but it is even more fun to watch in groups, resulting in community reinforcement. It has been used in hospitals and schools with great success. It actually makes people change the way they cough and sneeze.</p>	5:00	General Audience
4707 (2 disks) DVD Multiple Language	<p>“Duet for Clean Hands” - DVD (Two disk set)</p> <p>Ask most public health practitioners which simple behaviors could do the most to limit the spread of disease, and they would answer: wash your hands and cover your cough with your clothes, not your hands. This 2 DVD set gives you the tools you need to teach those lessons, and have fun while teaching.</p> <p>Disc 1: Why Don’t We Do It in Our Sleeves?</p> <p>This is the hilarious hit video on coughing and sneezing hygienically, featuring the Olympics of Sneezing.</p> <p>Disc 2: Soap in the City</p> <p>These four short features demonstrate the why’s and the how-to’s of hand washing.</p> <p>*Soap in the City: a comedic riff on the story of Typhoid Mary</p> <p>*Last Clean Chance: a science fiction clip on the technique of hand washing with soap and water</p> <p>*Clay and Rebecca: a demonstration of hand sanitizing techniques with foam and gel</p> <p>*We’re Dirty: a children’s hand washing song with singing hands</p>	12:00	General Audience

OUTDOOR EXPOSURE

3300 DVD	<p>“Poison Oak and Ivy Training” - DVD</p> <p>For over three decades Tec Labs has lead the way in preventing poison oak, ivy and sumac and has helped hundreds of thousands of utility workers, firefighting crews, vegetation management teams and other outdoor professionals avoid the misery of a brush with poison plants. This video makes plant identification, prevention and treatment of poison oak and ivy easy to understand and simple to put into action. The suggestions for preventing a rash, early identification and treatment of symptoms will help reduce worker lost time and misery.</p>	11:00	Employees working outdoors
3301 <u>Avail. in:</u> DVD & VHS	<p>“Cold Stress”</p> <p>Protect your workers from such chilling hazards like frostbite and hypothermia and prevent costly accidents by training with Summit’s Cold Stress course. This video educates viewers about hypothermia and frostbite, their warning signs, safety measures to take before working and warning signs during work. These hazards can happen any time of year. Do not become a statistic; educate your workforce with this prevention video.</p> <p>Topics Include:</p> <ul style="list-style-type: none"> • Frostbite • Hypothermia • Protecting Yourself • Best Practices 	16:38	Those Working Outdoors; General Audience

3302 DVD	<p>“Heat Stress” (Aurora) - DVD</p> <p>Working in hot environments with strenuous physical activity causes heat reactions in the body.</p> <p>Topics Include:</p> <ul style="list-style-type: none"> • Heat stress and its dangers • Heat regulation in the body • Eating, drinking & dressing to manage heat 	12:00	Employees Working Outdoors
3303 DVD	<p>“Insect Safety: Killer Bees, Wasps and Spiders” - DVD</p> <p>Knowing how to react to a spider bite or a bee sting can save you hours of pain and possibly your life. This video is so comprehensive that it covers everything from bee stinger removal (use your fingernail not your fingers) to spider bite prevention (such as checking your shoes before putting them on). Everything that you will need to protect yourself as much as possible from stings and bites is on this film.</p>	36:00	Employees Working Outdoors
3304 DVD	<p>“Poisonous Plant Safety” - DVD</p> <p>This video covers the different types of plants and what to do if you are exposed. Poisonous plants in one form or another can be found throughout the United States. The prime hazard is the allergic reaction resulting from contact with the resin produced by the plants. These resins are so toxic that in the case of poison ivy and oak only one billionth of a gram is all it takes for a rash, and only one quarter of an ounce is enough to cause a rash on every person on earth.</p> <p>Many outdoor occupations such as tree trimmers, landscapers, surveyors, park and highway maintenance, meter readers, and fire fighters face frequent exposure concerns. The best way to avoid exposure is your ability to identify the plants in your region and avoid contact.</p>	36:00	Employees Working Outdoors
3305 DVD	<p>“Hypothermia and Frostbite” - DVD</p> <p>If you or your employees work outside in cold weather, this video is for you!</p> <p>This informative video thoroughly covers everything employees need to know about the dangers of hypothermia and frostbite—and how to avoid them.</p> <p>Training Points:</p> <ul style="list-style-type: none"> • How to recognize the signs and symptoms of hypothermia and frostbite • How to avoid hypothermia and frostbite through proper planning and preparation • How to react if you or someone you work with displays symptoms of hypothermia or frostbite 	12:00	Employees Working Outdoors

Tape #	Title/Description	Length	Audience
3311 Avail In: DVD & VHS	“Wasps & Spiders” <p>Wasps, hornets, and yellow jackets should be treated just like bees. Wasps are enemies of bees, and are found near bees because they steal their honey. Wasps live in a variety of places; such as mud type hives on walls and ceilings or in small hives. The same basic first aid treatment is advised for wasp stings as bee stings, although wasps don't leave their stingers in your skin. Harmful reaction to a wasp sting can take place in persons who are allergic to these types of stings and venom. As described for bee allergic reaction, the same emergency treatment can be used, as well as routine treatment of a wasp sting. Wasps don't leave their stingers in the skin, so routine first aid treatment is generally the same as bee stings, without having to remove the stinger. Let's now take a look at spiders, specifically the black widow and the violin or brown recluse spider.</p> <p>Topics include: first aid, black widow spider, brown recluse or violin spider, bees, wasps, and spiders.</p>	10:00	Employees working outdoors
3312 DVD	“Heat Stress Awareness” - DVD <p>Every year, too many workers are hospitalized or die from heat-related illness. Our body is covered with 22 square feet of skin. The skin protects our bodies from infections and injuries and cools our body's internal engine - something like a giant radiator with 2.6 million sweat glands. At the underside of our brain is the hypothalamus which regulates body temperature and the release of hormones.</p> <p>Should we become dehydrated and overheated; the hypothalamus may malfunction making us unable to control our core body temperature. The result is often death if not recognized and treated immediately.</p> <p>Topics include: sweating, relative humidity of the air, personal risk factors types of heat illness including heat cramps, treatment for heat cramps symptoms, heat exhaustion, treatment for heat exhaustion symptoms, heat stroke, preventing heat illness, acclimatization, training, supervisory responsibilities including weather, shade, fluids, and emergency procedures.</p>	17:00	Employees working outdoors
3313 DVD	“101 Days of Summer” - DVD <p><u>Video Produced by the MEL & JA Montgomery Risk Control</u></p> <p>This 11-minute video presents a broad discussion appropriate for multiple summer employment positions. The video is built around the three basic workplace tenets of safety, accountability, and pride.</p> <p>Topics include: personal protective equipment, an emotionally-safe workplace, and properly representing the employer in dealings with others.</p> <p><i>This program is also available on the MEL Website as an on-line resource</i></p>	11:00	Summer Employees

Tape #	Title/Description	Length	Audience
3315 DVD New 2018	“Tick Bite Prevention & Response” - DVD If you spend time in the outdoors in North America, you stand a good chance of having a tick attaching itself to your body and feeding on you. The result of this tick bite could be a serious disease such as Lyme Disease or Rocky Mountain Spotted Fever. In this video, EMT/Firefighter/Best-Selling Author Martin Lesperance stresses the importance of early treatment of tick bites and precautions for preventing them in the first place. It’s important to note that throughout Canada and the U.S., areas that were once low risk for tick bites have become high risk, so everyone in North America can benefit from the information presented in this program. Topics include: Various types of ticks and where they live, How ticks spread diseases, Lyme Disease, Rocky Mountain Spotted Fever, Preventing tick bites, Tick removal	16:00	Employees working outdoors
3362 VHS	“Hypothermia” - VHS Contrary to popular belief, most cases of hypothermia occur at temperatures between 30 and 50 degrees Fahrenheit. Recognize the early warning signs of hypothermia and prevent it from happening.	6:50	Employees working outdoors
3363 VHS	“Poisonous Plants” - VHS The dangers of familiar plants are identified in this informative film. The potential for harm caused by touching or eating the leaves, fruit, seeds, or stalks of houseplants, yard plants, and even parts of certain food plants is examined.	12:00	Employees working outdoors
3366 VHS CC	“Working Outdoors Mosquitoes and Ticks” - VHS Make sure your employees can protect themselves from mosquito and tick bites that may cause Lyme Disease, Encephalitis, and West Nile Virus. This video will teach outdoor workers proven methods for avoiding the dangerous bites and the early warning signs of these, potentially, debilitating diseases.	15:00	Employees working outdoors
3015 DVD New 2018 2nd lang.	“Grounds Keeping Safety: Dealing with Bugs & Critters” - DVD Insects may be small critters, but they can cause serious illness and even fatal consequences. This video, designed especially for public works, utility, government employees, grounds maintenance personnel or other outdoor employees, is essential for insect protection and general safety in a work environment. Topics Include: <ul style="list-style-type: none"> • Preventing risks such as West Nile Virus • Basic PPE • Snakes, wasps, bees, fire ants • First aid 	16:00	Employees working outdoors
4205 DVD	“Winter Walking” - DVD The fact that your employees walk while performing their job duties means that during snowy, icy weather, they must take the time to concentrate on each step, anticipate dangerous locations, adapt to the unusual, and use techniques for safe winter walking at all times. Winter Walking will help your employees identify potential hazards and use techniques to avoid injury when entering or exiting a vehicle and while traversing steps, sidewalks and turns. <ul style="list-style-type: none"> • How to be aware of potential hazards and danger zones • How to enter and exit a vehicle safely • How to safely navigate sidewalks, steps and turns • How to avoid serious injury if you do fall 	7:00	General Audience

4206 DVD	<p>"Winter Walking: Staying on Your Feet" - DVD</p> <p>By its very nature, winter walking is a seasonal safety issue, usually limited to several months. Yet thousands of serious injuries happen every winter. And the personal and financial impacts of a wintertime injury can last throughout the year for the individual and for the employer.</p> <p>This safety video helps the viewer understand the need to adjust our walking behavior and techniques when the snow begins to fall.</p> <p>Topics Include: Why we need to adjust our walking techniques in winter, Winter hazards to be alert for, Walking techniques for winter conditions, Procedures for Staying on your feet, Techniques to minimize the effects of a fall</p>	10:00	General Audience
4710 DVD CC	<p>"Exercise: Getting Active, Staying Active" - DVD</p> <p>Stressing that the key to developing a safe and active lifestyle is to take small steps, this video helps viewers discover how they can fit activity into their schedules. It explains that there are three types of exercise (aerobic, strength training, and flexibility conditioning), but also tells viewers that increasing activity level in everyday chores can benefit them as well. It discusses barriers to exercising and exercise tips about clothing, hydration, and pacing.</p>	12:54	General Audience

PERSONAL PROTECTIVE EQUIPMENT (PPE)

3400 DVD	<p>"PPE: Your Last Line of Defense!" - DVD</p> <p>Get great advice on PPE from the employees themselves in this essential PPE training video. Hear different workers in different environments talk about the importance of PPE, typical (bogus) excuses for not wearing it, and how no matter the circumstances they won't stand for a workplace with unsafe employees. Also heavily covered is proper donning and fitting of Personal Protective Equipment from your head to your toes.</p>	19:00	Employees wearing PPE
3401 DVD	<p>"PPE: Head to Toe" - DVD</p> <p>This video provides an easy to understand overview of the variety of PPE available to help make our work safe.</p> <p>It emphasizes the importance of wearing the proper PPE by showing an re-enactment of an arc flash incident that could have been tragic had the person not been wearing the proper PPE. The worker involved describes the incident and how his PPE saved him from injury. Other interviews with workers who avoided eye and foot injuries reinforce the safety message. Great for new employees or for refresher training.</p>	15:00	Employees wearing PPE
3402 DVD	<p>"Safely on Your Feet" - DVD</p> <p>Foot injuries and slips and falls are a major source of lost-time injuries. This video is concerned with keeping our feet safe - and keeping us safely on our feet.</p> <p>The video stresses the importance of matching your footwear to the potential hazards of the job. It clearly illustrates the importance of safety features such as toe protection, traction, and support. Many work environments and potential hazards are illustrated.</p>	12:00	General Audience
3403 DVD	<p>"PPE Wear it for You" - DVD</p> <p>David Dyck's powerful, true story of surviving a violent explosion during a routine maintenance procedure. Because of the PPE he was wearing, he is here today to share his moving story. Not only does David remind us of the importance of PPE, his story illustrates how an injury affects family, friends and co-workers. It's a message you won't forget.</p>	12:00	General Audience

3603 DVD	<p>“Understanding the Threat: Racist Skinheads” - DVD</p> <p>Racist skinheads are among the most dangerous radical-right threats facing law enforcement today. The products of a frequently violent and criminal subculture, these men and women, typically imbued with neo-Nazi beliefs about Jews, blacks, homosexuals and others, are also notoriously difficult to track. Organized into small, mobile “crews” or acting individually, skinheads tend to move around frequently and often without warning, even as they network and organize across regions. For law enforcement, this poses a particular problem in responding to crimes and conspiracies crossing multiple jurisdictions. As these extremists extend their reach across the country, it is vital that law enforcement officers who deal with them become familiar with the activities of skinheads nationwide.</p> <p>Learn the warning signs that will help you identify these racist extremists in this eye-opening, 12-minute roll call video. It will help you protect your community and could save your life.</p> <p>Produced by SPLC: www.splcenter.org/law-enforcement</p>	12:00	Law Enforcement
3660 VHS	<p>“Emotional Survival to Law Enforcement Officers” - VHS</p> <p>This video course provides law enforcement officers and their families the opportunity to review the dynamics that can transform, within a few years, motivated law enforcement officers into negative, cynical and angry individuals who begin having significant difficulties in both the professional and personal aspects of their lives.</p> <p>This course deals with the issues that create law enforcement officers that see themselves as “victims” and begin rationalizing behavior that they previously would have considered inappropriate. The course also deals with the communication challenges that doom many law enforcement relationships and marriages to failure.</p>	120:00	Law Enforcement; Command Staff
3661 VHS	<p>“Police Liability: Use of Force” - VHS</p> <p>This video re-enacts and analyzes three common Use of Force scenarios that often result in criminal and civil lawsuit against front line officers and their departments. The video shows the considerations for limiting liabilities and avoiding lawsuits.</p>	17:00	Law Enforcement; Command Staff
3662 VHS	<p>“Police Liability: Pursuit & Emergency Response” - VHS</p> <p>Written and shot with law enforcement personnel on the front line, this video teaches officers how to protect themselves and their departments against civil liability lawsuits resulting from pursuit and emergency response situations.</p>	16:00	Law Enforcement; Command Staff
3663 VHS	<p>“Officer’s Gun Accidentally Discharges - RCR Program #2” - VHS</p> <p>An officer's gun accidentally discharges almost striking a subject who has been arrested, handcuffed, and placed on the ground. This video features gun safety tips and lessons from technical advisory staff.</p>	6:55	Law Enforcement
3664 VHS	<p>“Physical Assaults: Covering Your Back - RCR Program #14” - VHS</p> <p>With <i>graphic</i> video of officers who have been violently physically assaulted, technical advisers pass along invaluable safety and survival tips to officers.</p>	6:50	Law Enforcement
3665 VHS	<p>“Handcuffing and Patdowns - TMW Program #13” - VHS</p> <p>Many officers have been injured or worse because of bad handcuffing or patdown techniques. This video shows how to improve yours.</p>	2:00	Law Enforcement
3666 VHS	<p>“Low Risk Stop, High Risk Escalation - TMW Program #30” - VHS</p> <p>Officer Pulls Over Van For Going 15 Over The Limit. While On Stop, He Hears a Muffled Cry From the Back of Van. What’s the next course of action?</p>	2:00	Law Enforcement

3667 VHS <i>(3 Tape Series)</i>	“Silent Wars: Infection Control for Law Enforcement Personnel.” - VHS <i>(Three tape series)</i> Part 1 - Discusses contagious diseases and the importance of infection control. Part 2 - Covers actions officers can take to protect themselves from exposure and handling suggestions during arrests, searches and vehicle deacon. Part 3 - Deals with post-incident procedures such as bookings and legal issues.	60:00	Law Enforcement
1007 DVD	“Fatigue Management” - DVD In our 21st Century world, business runs on a 24-hour clock, 7 days a week. As a result, fatigue has become a major concern for drivers and motor carriers alike. Nearly 60,000 collisions occur each year due to sleepy drivers. These crashes result in the deaths of almost 1600 people and cause over 40,000 serious injuries annually. The federal Department of Transportation estimates that there are nearly 8000 fatigue-related crashes each year. These accidents result in the deaths of almost 400 truck drivers and cost about two and a half billion dollars. Topics include: reduced vigilance, accident characteristics, sleep loss, Circadian Rhythm, medications, sleep apnea, caffeine use and rule compliance.	15:00	General Audience; Shift Workers
1028 DVD New 2018	“Shift Work – Preventing Fatigue” - DVD People who work rotating shifts suffer a higher rate of illness and death than day shift workers. Experience and statistics show that human error is the primary cause of 85% to 98% of accidents and injuries. Surveys show that shift workers are chronically deprived of sleep. This group has approximately twice as many automobile accidents as the 9 to 5 workers. This video focuses on understanding fatigue from shift work and procedures to cope with change.	15:00	All Drivers; Shift Workers
1302 Avail. in: DVD - CC 2nd lang. & VHS	“Back Safety For First Responders” While your EMTs, firefighters and law enforcement officers take care of others, you have to take care of them. To keep them healthy, lean on these solid safety techniques and exercises to keep their back muscles strong and flexible. <ul style="list-style-type: none"> • Back structure • Repetitive stress illnesses/reverse stretching • Common first responder back injuries • Proper lifting techniques • Training points for handling stretchers, gurneys and fire hoses 	20:00	First Responders

1304 <u>Avail. in:</u> DVD & VHS	<p>“Emergency Responders Bloodborne Pathogens”</p> <p>Emergency medical responders save lives. Emergency responders are highly skilled professionals dedicated to their jobs and they perform these jobs above and beyond the call of duty on a daily basis. In your job as emergency responders, there’s a new threat to your own personal safety and health and it’s called bloodborne pathogens. That’s what this video is all about; protecting your health from bloodborne pathogens while you’re performing these services.</p> <p>Topics include: explaining bloodborne pathogens, i.e. AIDS, HBV or Hepatitis B, Hepatitis C Virus, HCV and how they are transmitted, new rules and standards for the Control of Occupational Exposures to Bloodborne Pathogens, occupational exposure to bloodborne pathogens, elements of an Exposure Control Plan, personal hygiene, safe work practices, means of prevention, disinfectants, waste containers for contaminated needles and other sharps, gloves, mask and eye protection, approved sharps containers, approved containers for contaminated clothing, tongs or a broom and a dustpan for picking up broken glass, prohibiting eating, smoking, drinking or applying cosmetics in areas where bloodborne pathogens may be present, regular hand washing, disposable germicidal wipes, cleaning and sanitizing, vaccination from the Hepatitis B virus, warning labels, required information and training, and 14 required elements of the training video.</p>	26:00	First Responders
2709 DVD	<p>“HazMat: Understanding the Hazard Classes” - DVD</p> <p>This video divided in 5 chapters, describes the 9 hazard classes used by the DOT. The video states the common hazards of each class with a list of sample materials and recommended response actions. It starts with a review of defensive actions. It describes four emergency response considerations for each class: Hazard Recognition, Hazard Analysis, Recommended Actions and Incident Stabilization. Reference is made to the pages in the Emergency Response Guide (ERG). Scenes from actual emergencies are used to demonstrate hazard properties and response actions. Important terms such as flash point and explosive range are defined and explained as in vapor pressure, density and fire point. It supports the MSI class on Hazmat Awareness and provides a comprehensive review.</p>	43:00	Fire Department; Police Department

RESPIRATORY PROTECTION			
3700 <i>Avail. in:</i> DVD & VHS	“Respiratory Safety: Public Knowledge” Respirators can be hot, bulky, heavy and just an overall hassle. But they can also be the difference between life and death. Give your workers a straight-forward look at why they need respirators, how to properly fit and maintain them and when to use certain types. <ul style="list-style-type: none"> • Airborne hazards • Control and respirator selection • Fit test and fit check • Care and maintenance 	21:00	Employees enrolled in Respiratory Protection Program
3701 DVD	“Respirator Selection & Use” - DVD Anyone wearing a respirator must be trained and authorized by the company in several different areas such as how to put on and take off the respirator. We call that donning and doffing. The process is simple, but it does require some basic knowledge, which we'll now review. Topics include: fit testing, negative and positive pressure checks, seal checks, different types of respirators, filtering respirators, respirator use, limitations of respirator use, routine and emergency uses of respirators, breathing air quality for atmosphere supplying respirators, filtering face piece SCBA, and respirator	29:00	Employees enrolled in Respiratory Protection Program
3702 DVD	“Fit Testing Respirators” - DVD Always follow the procedures established for your company and when respiratory protection is issued to you, it is your responsibility to keep it clean, in good condition and of course, to wear it. If your equipment is damaged or leaking, report it to your supervisor immediately. Small cracks in the equipment can be the difference between protection or no protection. Topics include in this safety video are: fumes, vapors, gases, dusts, respiratory system, air purifying and air supplied respirators, cartridges and respiratory protection, dust masks, fit test, seal test, and air purifying respirators.	10:00	Employees enrolled in Respiratory Protection Program
3703 DVD New 2018	“Respirators and How to Use Them” - DVD Respiratory protection and self-contained breathing devices are used to protect from harmful gases, fumes, vapors and chemicals and when air does not contain enough oxygen. Training must be provided before attempting to use respirator protection along with information about the hazards involved. This video is designed to provide information about personal protection under hazardous conditions with an emphasis on safety.	12:00	Employees enrolled in Respiratory Protection Program
3704 DVD New 2018 2nd lang.	“Disposable Respirators: Exposure Control” - DVD An employee can not put a respirator over your nose and mouth and expect to remain safe. Respirators requires rigorous testing standards before they can be used. Know what these are, and comply with OSHA's Respiratory Protection Standard (1910.134). This program discusses the use, lifespan and maintenance of respirators, including the half mask cartridge and inspection procedures like fit testing. Topics Include: Respirator selection, Fit testing, Donning your disposable respirator, When to change a respirator, Maintenance, The written respirator plan, Voluntary use of disposable respirators	12:00	Employees enrolled in Respiratory Protection Program

Tape #	Title/Description	Length	Audience
3705 DVD New 2018	"Fit Testing Under New NIOSH Standards" - DVD Fit testing under New NIOSH Standards program explains the new rules and procedures for proper fit testing of respiratory equipment. These new standards have established new filtering efficiency and performance criteria for all non-powered, air-purifying, particulate-filter respirators. The purpose of fit testing is to make sure the respirator you use will not leak, under normal use and working conditions. Almost any respirator you use will appear to fit, but individuals wearing a respirator may not always be able to detect a leak; therefore a good fit testing program is necessary. It is absolutely critical that respirators fit properly.	16:00	Employees enrolled in Respiratory Protection Program
3706 DVD New 2018	"Respirators: The New Rules (2011)" - DVD Employers have protected their workers from potentially harmful gas, fumes, mists, vapors and airborne contaminants. Respiratory protection comes in a variety of models. There have been many improvements in respiratory technology as well as improved knowledge on how to protect people exposed to harmful contaminants. Topics Include: engineering controls, written procedures, respirator selection, emergencies and new rules	22:00	Employees enrolled in Respiratory Protection Program
1362 VHS	"Respirators: Your TB Defense & TB Respiratory Protection: Administrator's Review" - VHS Emmy award winner Loretta Swit hosts this presentation of two NIOSH videos. *Respirators: Your TB Defense is designed to educate health care workers on proper respiratory protection. *TB Respiratory Protection: Administrator's Review takes you step-by-step through developing a respiratory protection program for tuberculosis.	48:00	First Responders; Command Staff

RISK MANAGEMENT / LIABILITY

1101 DVD	"Drugs in the Workplace: America in Jeopardy" - DVD Protect your workers and their employer with this video on how to avoid and overcome drug abuse in the workplace.	20:00	Supervisors; Management
1401 <u>Avail. in:</u> DVD - 2 nd lang. & VHS	"Emergency Evacuation: Getting Out Alive" In an emergency situation, survival hinges on adequate training, preparation and an emergency action plan. This video explains several emergency situation responses, the importance of drills and the principles of RACE. It prepares your employees to handle any disaster - natural or otherwise and covers: <ul style="list-style-type: none"> • How to respond in several emergency situations • The importance of drills • RACE (Rescue, Alert, Contain & Evacuate) 	16:00	Safety Committee; General Audience
1402 <u>Avail. in:</u> DVD & VHS	"Severe Weather Alert: Are You Prepared?" Would you know what to do if a severe weather event occurred in your area? Severe weather can happen anywhere at any time. You must be prepared, because you often have to respond with little or no notice. This video offers some facts, tips and warnings that can help you survive serious weather emergencies. Topics include: severe weather watches and warnings, hazards posed by thunderstorms, flooding and moving water, being prepared for tornadoes, emergency response plans and precautions to take once a storm has passed.	15:00	General Audience

Tape #	Title/Description	Length	Audience
1403 <i>Avail. in:</i> DVD & VHS	“Introduction to Incident Command System” On February 2, 2003, President Bush requested the development of an Incident Command System for Federal, state and local agencies to use for any type emergency. ICS allow all responding agencies to use a common organizational structure and “language” for any situation, resulting in more effective response during multiagency missions.	8:30	Emergency Response Team
1405 DVD	“Emergency Evacuation” - DVD Explains the essentials of evacuations, precautions to take, and what to do in case of an emergency. Although designed for large buildings, it can be adapted to any size facility.	12:00	Safety Committee; General Audience
1414 <i>New 2018</i> DVD	“Incident Safety” - DVD Natural or man-made disasters are destructive which requires experienced, dedicated professionals to provide emergency services. The first priority is safety of the disaster workers. There is no disaster victim that can be helped if the lives of the emergency workers are jeopardized. In disasters you are likely to encounter issues such as personal safety, scene safety, disaster team safety, and the sights, sounds and smells at the scene of the disaster. An important part of your job will be to deal with your own personal depression, anger, and other emotional downturns. This video provides the basics of safety in disaster assistance.	18:00	Emergency Response Team
1466 VHS	“Local Emergency Planning Committees” - VHS Hazardous chemicals are a part of modern life. While chemicals are generally handled safely, serious accidents in the mid-1980’s led Congress to create Local Emergency Planning Committees (LEPCs). LEPCs prevent and plan the response to accidental or deliberate chemical incidents. This video tells the story of LEPCs, the history behind their creation, the community members who belong to them, and what LEPCs do to guard the safety of your community.	23:00	Emergency Response Team
1504 DVD	“Personal Liability in the Workplace Pranks & Harassment” - DVD Liability for pranks and harassment in the workplace is extremely high, with record lawsuits stemming from not only the practice of such actions, but from companies ignoring the problem and not taking action to prevent it. This training demonstrates to all employees that there could be personal liability for such action, as well as company liability. Video explains the problem and provides the steps to take to prevent such actions in the workplace. This video should be viewed by all employees, supervisors and management, to reduce individual and company liability. Topics Include: phone calls, broadcasting derogatory jokes, calls, postings on the Internet and social media outlets.	12:00	General Audience; Supervisors, Management
3273 VHS	“Cyber Crime and Privacy” - VHS There are many legal cyber issues other than hacking. This video covers the different laws and Federal Acts that deal with economic espionage, copyright infringement, computer security, and privacy issues. Viruses and pornography are also addressed.	13:00	Office Personnel; Supervisors; Management
3506 DVD	“Safe Active Play: A Guide To Avoiding Play Area Hazards” – DVD This video is designed to teach caregivers, child care staff and recreation officials how to create safe play environments. The video is intended both as an in-service training tool for caregivers who supervise children and as a guide to directors who may need to design a new play area or modify an existing area. The 12 hazards identified are based on a list by the National Playground Safety Institute.	35:00	Schools; Teachers; Caregivers.; Management

4000 DVD	<p>“Preventing Sexual Harassment...For Employees” - DVD</p> <p>Discuss various forms of sexual harassment, explain how to avoid inadvertently sexually harassing someone and review the procedures employees should follow if they feel that they or a coworker are being sexually harassed.</p> <p>Topics include: What constitutes sexual harassment, Behaviors to avoid, Recognizing victims and harassers, Avoiding "accidental" harassment, How to handle a sexual harassment incident, Reporting sexual harassment to management</p>	16:00	General Audience; Supervisors, Management
4005 <u>Avail in:</u> DVD & VHS	<p>“Handling a Sexual Harassment Investigation”</p> <p>Sexual harassment can have an incalculable cost for victims, their families, friends and coworkers. Any form of sexual conduct in the workplace is inappropriate, and may constitute sexual harassment if the actions or comments are unwanted or threatening. But recognizing sexual harassment is only half the battle. If action isn't taken quickly, and the situation is not resolved fairly, a company can face lawsuits and hefty fines. In fact, the company's reputation, business relationships and financial security could depend on how a manager or supervisor handles a sexual harassment incident. Video looks at a company's legal responsibility to prevent and deal with sexual harassment incidents, examine policies and procedures that should be followed when investigating allegations of sexual harassment, and discuss how to interview apparent victims, alleged harassers and potential witnesses.</p> <p>Topics Include: A company's legal responsibility regarding sexual harassment. Conducting an ethical investigation, Beginning the investigation process, Documenting harassment allegations, Interviewing alleged harassers and witnesses, and more</p>	20:00	Public Officials; Supervisors; Management
4315 DVD New 2018	<p>“Better Meeting Management” - DVD</p> <p>Put an end to unproductive meetings, for good! Are too many unproductive, wasteful meetings eating up your time? If so, then here is the better-meeting-management-training program you’ve been waiting for to put an end to unproductive meetings.</p> <p>This video begins by showing you the advantages and disadvantages of meetings in the pre-meeting step, then walks you through a systematic decision-making process. This all results in a productive problem-solving or informational meeting that everyone wants!</p> <p>Topics include: Understand when to/or not to hold a meeting by using A-C-T -Correctly distinguish who should be invited to a meeting; Set a clear, purposeful agenda; Crystallize the nature of the problems/issues and poignantly define objectives; Implement “Problem Re-formulation” to come up with workable ideas; Observe the three basic rules of brainstorming; Use “matching orders” to assign follow-feedback.</p>	31:00	Supervisors; Management
4316 DVD New 2018	<p>“Becoming a Leader” - DVD</p> <p>The key to developing leadership is to take control of how you communicate... even when you don’t realize you ARE communicating. In this video, you’ll learn to lead using The 8 Communication Principles of Leadership, including techniques on how to: Deliver a powerful nonverbal message that you are among the organization’s leaders; Make it easy for others to approach you; Give straight answers to even the most difficult questions; Take responsibility for everything done under your leadership; Speak and act in the organization’s best interests; Encourage dedication among those you work with; Always lead by example; and much more.</p>	20:00	Supervisors; Management

SANITATION SAFETY			
3900 <u>Avail. in:</u> DVD & VHS	<p>“Be Safe, Be Proud”</p> <p>This video was developed by the National Solid Waters Management Association (NSWMA). It uses real situations to focus on the workplace hazards faced by drivers and helpers on residential collection routes.</p>	18:00	Sanitation Operators
3901 <u>Avail. in:</u> DVD & VHS	<p>“Side Loader Operations and Safety”</p> <p>Side loaders were designed for speed of operation, safety, and ease of loading. They perform highly efficient jobs and they're just like any other waste hauling vehicle, with a few exceptions.</p> <p>Topics include: Vehicle operations, Landfill safety, And safety responsibility</p>	5:00	Sanitation Operators
3902 <u>Avail. in:</u> DVD & VHS CC	<p>“Residential Pick Up Driving and Helpers - Operations”</p> <p>Driving in the cities and suburbs can present many increased risks for you as a driver. There are more pedestrians than you'd encounter elsewhere; walkers, joggers, and cyclists. Children in neighborhoods at play may dart out in the street at any moment. Streets may be narrow, traffic congested, and more starts/stops involved so it's of vital importance that you stay alert, slow down, and drive defensively. In this video, we will focus on residential pick up of solid waste, the hazards you can expect to encounter, and best practices to avoid and prevent accidents.</p> <p>Topics include: responsibilities (driver and helper), residential pick-up, manual pick-up, safe manual lifting, automated pick-up, backing, truck fires, and landfill.</p>	11:00	Sanitation Operators
3903 <u>Avail. in:</u> DVD & VHS	<p>“Vehicle Backing Accident Prevention”</p> <p>100% of backing accidents can be prevented. You're a professional and you shouldn't be backing into anything for any reason. This video explains the common causes and solutions to vehicle backing accidents.</p> <p>Topics include: Daily inspection, Backing, Cone of invisibility, Children and Pedestrians, Landfills, Transfer Stations</p>	10:00	Sanitation Operators
3904 <u>Avail. in:</u> DVD & VHS CC	<p>“Rear Loader Safety and Operations” - DVD</p> <p>Rear loaders were designed for speed of operation, safety, and ease of loading. They perform high efficient jobs and are just like any other waste hauling vehicle. They require a vehicle pre-trip safety and operational inspection, just like all the other vehicles you operate. They require cleaning of windows, mirrors, and packing blade. They require inspecting the hydraulic systems for leaks and serviceability.</p> <p>Topics include: vehicle safety, safe operations, loading, helper safety, rear loader safety tips, maintenance and safety, and safety responsibility.</p>	10:00	Sanitation Operators
3905 DVD	<p>“Landfill Safety” - DVD</p> <p>Landfill Safety isn't an exciting topic, but the information in this video can certainly help keep you safe and free of accidents and injuries.</p> <p>Topics include: basic rules, personal protective equipment (PPE), potential hazards, and landfill trucks/machinery.</p>	14:00	Sanitation Operators

4005 <u>Avail in:</u> DVD & VHS	<p>“Handling a Sexual Harassment Investigation”</p> <p>Sexual harassment can have an incalculable cost for victims, their families, friends and coworkers. Any form of sexual conduct in the workplace is inappropriate, and may constitute sexual harassment if the actions or comments are unwanted or threatening. But recognizing sexual harassment is only half the battle. If action isn't taken quickly, and the situation is not resolved fairly, a company can face lawsuits and hefty fines. In fact, the company's reputation, business relationships and financial security could depend on how a manager or supervisor handles a sexual harassment incident. Video looks at a company's legal responsibility to prevent and deal with sexual harassment incidents, examine policies and procedures that should be followed when investigating allegations of sexual harassment, and discuss how to interview apparent victims, alleged harassers and potential witnesses.</p> <p>Topics include: A company's legal responsibility regarding sexual harassment, Conducting an ethical investigation, Beginning the investigation process, Documenting harassment allegations, Interviewing alleged harassers and witnesses, and more</p>	20:00	Public Officials; Supervisors; Management

Tape #	Title/Description	Length	Audience
4207 DVD	<p>“Walking & Working Surfaces”- DVD</p> <p>This safety training video identifies the hazards of different surfaces and provides the practical information and specific procedures employees need to help prevent slips, trips and falls on the job.</p> <p>It's easy to take the surfaces we walk and work on for granted, but that would be a big mistake. We depend on these surfaces to provide the support we need to position ourselves properly, use our muscles efficiently, keep our balance and do our work safely. Yet slips, trips and falls continue to make up the majority of on-the-job accidents. They cause almost 20% of disabling occupational injuries, and thousands of fatalities every year. And most of these accidents could have been prevented.</p> <p>Areas that are covered include the fundamentals of safe surfaces, walkways and floors, stairs and fixed ladders, scaffolding and more.</p>	17:00	General Audience
4208 VHS Only	<p>“How to Prevent Slips, Trips and Falls”</p> <p>It's important to understand that the vast majority of slips and falls occur because the person is not paying attention to where they are walking or what they're doing and they either trip on something or the floor surface is slippery. We can describe slips and falls as a dual cause accident. We say dual because there may be two causes.</p> <p>Topics include: physical hazards that can cause slips and falls, the walk off mat, wax, spills, potential slip and fall hazards, walking up or down stairs, torn carpeting, damaged tread nosing, oily treads, dirty stairs, falls from ladders, broken or damaged rungs, the top two rungs, belt buckle, getting into and out of vehicles, jumping from trucks or other vehicles or equipment, proper footwear, authorized walking areas, walking over conveyors, boxes, pallets, or other materials, wet or slippery surfaces, Engineering, Education, and Enforcement.</p>	11:00	General Audience
4209 DVD	<p>“Slips, Trips and Falls” (Marcom) – DVD</p> <p>Most employees don't give much thought to the prospect of slipping, tripping or even falling on the job. Yet these types of accidents account for more workplace injuries annually than any other accident category. Many of these injuries can be disabling... or even fatal.</p> <p>"Slips, Trips and Falls" show employees the situations that can lead to slips, trips and falls, and what they can do to avoid or prevent these accidents.</p> <p>Topics include:</p> <ul style="list-style-type: none"> • Why slips, trips and falls occur. • Common causes of accidents. • Potential health effects of resulting injuries. • Techniques used to avoid injury. • The importance of safety shoes. • How to fall safely. 	11:00	General Audience
4210 DVD New 2018	<p>“Preventing Slips & Falls in Trucking”- DVD</p> <p>This video focuses on preventing slips and falls from trucks. More drivers are hurt each year by slipping and falling from non-moving vehicles.</p> <p>Topics include: Footwear, inspect your equipment, enter and exit in proper direction, plan your exit and know where you're going, three point system, and keep both hands free.</p>	7:00	Truck Operators
4262 VHS	<p>“Slips, Trips and Falls” (Coastal) - VHS</p> <p>Falls account for almost 400,000 workplace injuries each year. This video will teach your workers to be aware of potential dangers and minimize serious injury on the job.</p>	17:00	General Audience

4305 DVD	<p>“Developing a Positive Safety Culture” - DVD</p> <p>This video discusses the benefits of developing a positive safety culture including fewer accidents and injuries, improved morale, increased productivity, and better public relations. In addition, methods for establishing a strong culture by communicating with staff, supporting safety items in the budget, setting a good example, holding staff accountable, and implementing cost allocations systems are reviewed.</p>	20:14	Supervisors; Management
4306 DVD	<p>“Critical Incident Stress Debriefing” - DVD</p> <p>This video stresses the importance of having a program that provides debriefings, how to make best use of these services, when to call, and generally dealing more effectively with Critical Incidents when they occur.</p> <p>Topics include: What is CISD?, lay-offs, What are some workplace incidents that would require action?, robberies, What is diffusing?, Some managers think CISD is psychological nonsense, terrorist threats, What should you do before an incident?, How soon should some form of CISD take place?</p>	13:00	Supervisors; Management
4307 DVD	<p>“Contractor Safety” - DVD</p> <p>This video introduces contract employees working at owners facilities to be aware that they must comply with the owner’s safety rules. It discusses the use of warning signs, container labels and Right to Know. It also describes the need for and how to obtain proper work permits, such as hot work and confined space entry. It discusses working in and around facility processes and the purpose of guarding and written programs such as Lock-Out, Tag-Out. If contractors are to use electrical equipment it must be powered through a GFCI. It also discusses fork lifts, injury reporting, handling emergencies and prohibited actions.</p> <p>This video is primarily aimed at informing contractors of good safety practices, but is also useful to supervisors, contractor coordinators and municipal engineers. It reminds owners of the need to inform and guide any outside contractor working within your facilities or doing construction for you.</p>	13:00	Contractor Coordinators; Supervisor; Management
4308 DVD	<p>“Responsibilities Of A Supervisor” - DVD</p> <p>You're responsible for productivity, efficiency, safety, security, housekeeping, the list is endless. When something goes wrong, it's your responsibility. What exactly are your responsibilities and liabilities, your capabilities, and limitations? Well, that's what this video is all about. Let's start with a few basic statements. Your primary responsibility is also the most difficult: managing other people. The success you'll have in people management is directly related to a number of skills.</p> <p>Topics include: concern for employees and the company, consistency, following company rules and policies, setting goals for your employees, follow up, communications, tact and diplomacy, follow through, praise, reprimands, discipline, performance reviews, courtesy, safety of all employees, safety program-written safety rules, training, documentation of this training, safety hazards must be identified and corrected, enforce the safety rules, and recognizing that change is inevitable and will happen.</p>	19:00	Supervisor; Management

4309 DVD Avail. in: DVD & VHS	“Safety and The Supervisor” - DVD All of a sudden your boss says safety is your responsibility. Oh no, not another job. Now you're burdened with accident reports, safety training, making sure employees follow safety rules and wear appropriate personal protective equipment when required. Safety is your responsibility. You're a supervisor. You're responsible for everything your employees do or fail to do, nothing new. The company safety manager or coordinator isn't responsible for safety. The supervisor is the only person having direct control over employees; therefore, the supervisor is absolutely responsible and accountable for safety. Let's take a look at exactly what this responsibility means and basically how safety programs should work. Topics include: company policies, company procedures, company rules, basics of safety training, general hazards, Employee Safety Orientation Program, Health and Safety Protection Plan to include (good employee training, training in the language understood by the employee, training that is responsive to their level of understanding, clear, frequent, and continually re-enforced), training in the specific hazards to which exposed, Hazard Communications Training (HazCom), Material Safety Data Sheets (MSDS), safety rule enforcement, accident, uncontrollable, Safety Counseling, 4 elements the company must satisfy to prove their safety program is an effective safety program, all injuries must be reported, First Aid treatment, and the Accident Investigation Report.	20:00	Supervisor; Management
4310 DVD	“Safety Committees The Real Story” - DVD When a safety committee is properly formed, supported and budgeted they can be invaluable to the safety program. It's important to understand the reasons why safety committees fall or die a slow death. This safety video covers the assignments and responsibilities of the safety committee members.	10:00	Safety Committee; Supervisor; Management
4311 DVD	“OSHA Recordkeeping for Managers and Supervisors” (Marcom) - DVD Help managers and supervisors meet the updated recordkeeping requirements of 29 CFR Part 1904. These products provide the information managers and supervisors need to comply with OSHA's revised regulation, and allows an organization to quickly identify and eliminate repetitive hazard situations. This video covers the details of the regulation's requirements, and show actual workplace incidents that demonstrate what their responsibilities are in documenting and reporting recordable accidents. Topics include: The importance of recordkeeping, Exempt businesses, Recordable incidents, Work-related illnesses/injuries and new cases, The three key recordkeeping forms, Employee rights under OSHA's Part 1904, Other recordkeeping issues.	23:00	Supervisor; Management
4312 DVD New 2018	“Stress Management for Supervisors and Employees” - DVD Stress has become a very big problem in industry. One of the reasons why stress is a problem is because most people are unaware that they are experiencing stress until it becomes a problem. This video is hosted by Dr. Edward Sheldon who gives advice on how to handle stress on the job.	20:00	Supervisors; Management General Audience
4313 DVD New 2018	“Discipline: The Supervisors Role” - DVD Discipline is having a set of rules and enforcing those rules. The difficult part is how to achieve discipline without being a disciplinarian. This video includes on-camera professionals speaking on the supervisor's role in enforcing company rules.	23:00	Supervisors; Management

4314 DVD New 2018	<p>“Safety Decision Making” - DVD</p> <p>Many people assume that workers will choose to work safely simply because they don’t want to get hurt. Unfortunately, our decision-making process isn’t that simple.</p> <p>This video, hosted by safety professional Tom Harvey, uses common examples, reenactments and a little humor to explain how humans are tempted to make unsafe choices by succumbing to the instant gratification of shortcuts, risk-taking and peer pressure. This video explains how our safety decision-making process works and provides tips and techniques we can use to overcome our human nature and make safe choices rather than unsafe ones.</p> <p>Topics include: why working safely goes against human nature, factors that influence the decision-making process, how outcomes of our actions affect future decisions, the concept of “normalized deviation” and creating a positive safety culture by offering and accepting safety feedback.</p>	19:00	Supervisors; Management
4315 DVD New 2018	<p>“Better Meeting Management” - DVD</p> <p>Put an end to unproductive meetings, for good! Are too many unproductive, wasteful meetings eating up your time? If so, then here is the better-meeting-management-training program you’ve been waiting for to put an end to unproductive meetings.</p> <p>This video begins by showing you the advantages and disadvantages of meetings in the pre-meeting step, then walks you through a systematic decision-making process. This all results in a productive problem-solving or informational meeting that everyone wants!</p> <p>Topics include: Understand when to/or not to hold a meeting by using A-C-T -Correctly distinguish who should be invited to a meeting; Set a clear, purposeful agenda; Crystallize the nature of the problems/issues and poignantly define objectives; Implement “Problem Re-formulation” to come up with workable ideas; Observe the three basic rules of brainstorming; Use “matching orders” to assign follow-feedback.</p>	31:00	Supervisors; Management
4316 DVD New 2018	<p>“Becoming a Leader” - DVD</p> <p>The key to developing leadership is to take control of how you communicate... even when you don’t realize you ARE communicating.</p> <p>In this video, you’ll learn to lead using The 8 Communication Principles of Leadership, including techniques on how to: Deliver a powerful nonverbal message that you are among the organization’s leaders; Make it easy for others to approach you; Give straight answers to even the most difficult questions; Take responsibility for everything done under your leadership; Speak and act in the organization’s best interests; Encourage dedication among those you work with; Always lead by example; and much more.</p>	20:00	Supervisors; Management
4360 VHS	<p>“Remember Charlie” - VHS</p> <p>As an oil refinery employee, Charlie considered himself one of the guys, and his company and union considered him a good worker. With 15 years of experience, he knew all the safety procedures - and how to get around them. In 1980, shortcuts nearly cost him his life when a routine job turned tragic. Burned over 50% of his body, Charlie spent five years in the hospital. Charlie, a dynamic speaker who touches an audience through is autobiographical story, emphasizes taking responsibility for one's actions and one's safety.</p>	56:49	Supervisors, Management

1460 VHS CC	“Facility Security: The Critical Link” - VHS <p>Most emergency situations arise with very little warning, and we now know that a terrorist attack can strike in any form. This video highlights important points in maintaining facility security and explains that in an emergency situation, <i>human intelligence</i> is the critical link.</p>	18:00	Safety Committee; General Audience
1501 DVD	“Conflict Resolution in the Office” - DVD <p>Conflict in the workplace is inevitable. Anytime two or more people come together, they will eventually disagree about something. While some conflict can be healthy, it is often an indication that there is something wrong. Conflict is frequently a "call to action"... a problem crying out for a solution.</p> <p>The good news about conflict is that it is usually based on "caring". The more someone defends their point of view in an argument, the more they care. But if conflict is allowed to fester and grow without a resolution, it can lead to serious problems such as threats and even physical violence. The effectiveness of an entire organization can be harmed if conflict is allowed to escalate.</p>	17:00	Office Personnel; Supervisors; Management
1503 DVD	“Workplace Harassment in the Office” - DVD <p>Discuss the various types of harassment that are found in the workplace, how they can affect an employee's work situation and what employees themselves can do to help prevent workplace harassment.</p> <p>Topics include: The nature of workplace harassment, How to recognize various types of harassment, How to handle verbal abuse and threats, The many forms sexual harassment can take, How to recognize the many variations of "assault", Knowing what to do, and what not to do, when confronted with a stalker, How fostering a positive workplace environment can increase productivity and safety</p>	17:00	General Audience; Supervisors, Management

1515 DVD	<p>“Bullying and Other Disruptive Behavior... for Managers” - DVD</p> <p>Fear, anger, frustration, humiliation, helplessness... these feelings shouldn't be part of anyone's job description. But they can be common in workplaces where bullying and other disruptive behavior is a problem. Your customers know that this type of behavior interferes with the functioning of a workplace, disturbs and threatens employees and can even affect their health... and that it can also damage a company's business and reputation. Employees and managers both need to understand bullying and disruptive behavior, and know what to do to prevent it or shut it down. Bullying and Other Disruptive Behavior: for Managers and Supervisors focuses on tools and techniques that can be used to raise awareness of the problem in a department, investigate reports of disruptive behavior, and intervene as necessary.</p>	22:00	Supervisor; Management
2400 Avail. in: DVD & VHS	<p>“I Choose to Look the Other Way”</p> <p>When employees are willing to speak to co-workers about unsafe acts, injuries can be prevented. This video dramatically tells the story of an employee who failed to speak up when witnessing an unsafe act. By choosing to 'look the other way,' he allowed the needless death of a co-worker to occur. Based on the popular safety poem by Don Merrell, this video shows how speaking up about unsafe acts can save lives and help develop a positive safety culture. Verses from the poem are meshed with the video's action to deliver a stimulating safety message. Viewers will be motivated to speak up when they see a co-worker putting himself in an unsafe situation, even if they feel that person's response may be negative.</p>	12:00	General Audience

2403 DVD	<p>“Safety Orientation” - DVD</p> <p>Thinking about safety should be as natural as thinking about other aspects of the job. Employees should be able to anticipate the possibility of accidents before they happen. Yet workplace accidents cause millions of people to suffer painful injuries every year, and cost business almost \$90 billion per year in medical bills, lost wages and lost production time. This video addresses two of the most prominent safety issues confronting employers today - that of developing a good "safety attitude" in their employees, as well as providing "introductory safety training."</p> <p>Topics include: Developing "safety awareness", Basics of accident prevention, Hazard evaluation, Safety housekeeping, Tool use and maintenance, Fire prevention and safety, Use of personal protective equipment.</p>	15:00	New Personnel; Supervisors; Management
2405 DVD	<p>“Employee Safety Orientation” - DVD</p> <p>This short video is an overview of your safety responsibilities to help you perform your job safely. Safety is a responsibility that's important to you, the company, and your fellow employees. Our basic safety policy is simply this: We don't have any job that can't be performed safely.</p> <p>Topics Include: basics of job safety, equipment safety, personal protective equipment, proper clothing, chemical safety, fire prevention, ladder safety, slips and falls, how to prevent back injuries, and safety awareness.</p>	15:00	New Personnel; Supervisors; Management
2406 DVD	<p>“Safety Orientation for Public Agency Employees” - DVD</p> <p>As employees working to serve the public in many capacities we have commitments to the organization, ourselves, and families to work safely. Unlike some occupations you have the risk of exposure to numerous potential sources of injuries and health hazards. Some examples can include but not be limited to:</p> <ul style="list-style-type: none"> -Working in traffic -Working with and around large construction equipment -Trenching and excavation risks -Confined space entry -Exposure to many potential toxins and chemicals -Hand and power tool hazards -Electrical hazards -Working at heights <p>Topics include: new hire orientation program, proper training required, organizations, Injury or Illness Prevention Program or IIPP, personal protective equipment (PPE), head protection, eye protection, hearing conservation, respiratory protection, foot protection, heat illness, HAZCOM, confined space, field safety, forklift, control of hazardous energy - lock out/tagout, electrical safety, unsafe condition reporting, accident reporting, and driving safety.</p>	24:00	New Personnel; Supervisors; Management
2407 DVD New 2018	<p>“Job Safety Analysis” - DVD</p> <p>This video provides the steps to be taken when performing a JSA. It is simply a procedure used to review job methods and uncover hazards that may have been overlooked in the layout of the plant or building and in the design of the machinery, equipment, tools, workstations, and processes or that may have developed after production started or that resulted from changes in work procedures or personnel. It's one of the first steps in hazard and accident analysis and in safety training.</p>	11:00	Safety Committee

2408 DVD New 2018	<p>“Job Safety Analysis: Safety Awareness and You (Concise)” - DVD</p> <p>While there are countless methods used to protect workers from injury, each method shares a common root. The genesis of all injury prevention methods is an understanding and awareness of the hazards to which a worker may be exposed. In other words, the company and the worker must be aware of a hazard before that hazard can be controlled.</p> <p>This video discusses the important roles played by both management and employees in recognizing and controlling workplace hazards and how these shared duties of safety awareness and hazard recognition help prevent injury.</p> <p>Detailed in the video is the process of developing a successful job safety analysis, including the sequence of dividing a job into steps, analyzing those steps for hazards and creating control measures for each step..</p>	10:00	Safety Committee
2410 DVD New 2018	<p>“Leading Indicators: It is the Little Things (Refresher)” - DVD</p> <p>Jeff “Odie” Espenship is a United States Air Force A-1 Warthog fighter pilot and also an international airline pilot. As a flight leader, he knows what it takes to operate safely in a high-risk and sometimes dangerous work environment. In this dynamic presentation, Odie discusses his experiences involving shortcuts and complacency as a pilot and how they relate to common workplace situations. Because these leading indicators tend to snowball and contribute to accidents, he stresses that employees must always be aware of the “little things” and take action when they tempt us or our co-workers to perform unsafe acts.</p>	13:00	General Audience; Supervisors
3104 VHS	<p>“Swimming Pool Operations: A Framework For Action” - VHS</p> <p>Addresses key chemical, physical and biological issues of the pool environment, including many day-to-day problems encountered by pool professionals. Illustrates specific examples that are difficult to explain verbally or in print.</p> <p>Topics include:</p> <ul style="list-style-type: none"> • Introduction - Begins with water appreciation, introduces the concept of a pool environment, and finishes with a discussion on water contaminates. • Physical Treatment: Circulation – Analyzing the circulation system and how to optimize it. • Physical Treatment: Filtration – Understanding filtration systems with details on sand, diatomaceous earth and cartridge filters. • Chemical Treatment – Balancing pool water through control of pH, alkalinity, hardness and total dissolved solids. • Biological Treatment – The origin of biological contaminants. How to disinfect pool water using chlorine and other oxidizing agents. • Water Testing – Guidelines for sampling and testing. 	54:00	Lifeguards; Parks & Rec.; Supervisors

Tape #	Title/Description	Length	Audience
4005 Avail in: DVD & VHS	“Handling a Sexual Harassment Investigation” Sexual harassment can have an incalculable cost for victims, their families, friends and coworkers. Any form of sexual conduct in the workplace is inappropriate, and may constitute sexual harassment if the actions or comments are unwanted or threatening. But recognizing sexual harassment is only half the battle. If action isn't taken quickly, and the situation is not resolved fairly, a company can face lawsuits and hefty fines. In fact, the company's reputation, business relationships and financial security could depend on how a manager or supervisor handles a sexual harassment incident. Video looks at a company's legal responsibility to prevent and deal with sexual harassment incidents, examine policies and procedures that should be followed when investigating allegations of sexual harassment, and discuss how to interview apparent victims, alleged harassers and potential witnesses. Topics covered include: <ul style="list-style-type: none"> • A company's legal responsibility regarding sexual harassment • Conducting an ethical investigation • Beginning the investigation process • Documenting harassment allegations • Interviewing alleged harassers and witnesses • and more 	20:00	Public Officials; Supervisors; Management
4708 DVD CC	“Recognizing Depression” - DVD Through the invaluable experiences of other people with depression, this video helps viewers understand what depression is and how it may be affecting their lives. They learn that having depression isn't something they can control, but it is treatable. The video covers the signs and symptoms of depression as well as the possible risks for developing depression. It encourages people to seek appropriate treatment and avoid negative coping behaviors, like alcohol abuse.	15:12	General Audience; Supervisors; Management
4714 DVD CC	“Signs & Symptoms of a Heart Attack” - DVD This video will teach you to recognize the signs and symptoms of a heart attack so you can seek help quickly and prevent further damage to your heart. It reviews the signs of a heart attack, what happens in the body during a heart attack, and possible treatments at the hospital. Angioplasty and bypass surgery are mentioned. The emphasis of this video is on acting quickly and appropriately. Real patients share what it felt like to them when they had a heart attack.	14:42	General Audience; Supervisors; Management

TASK SPECIFIC TRAINING

4400 DVD	“Tips from the Pros: Rigging and Lifting” – DVD For those who already understand the basics, rigging & lifting techniques used by the PRO's have been captured from hours of interviews and discussions. <ul style="list-style-type: none"> • TIPS on rigging attachments • TIPS on estimating weights • TIPS on locating balance points • TIPS on selecting pick points 	28:00	Crane Operators; Ground Crew
4401 DVD	“Safe Rigging” - DVD How a load is attached can make the difference between a successful lift & a deadly accident. Topics Include: Physical & mental preparation; PPE, hand signals, Equipment & hazard inspection, Slings, hitches, load angles	19:00	Crane Operators; Ground Crew

Tape #	Title/Description	Length	Audience
4407 DVD	<p>“Warehouse Safety” – DVD</p> <p>Warehouses are very busy places that can give rise to a lot of hazardous situations. Every year, thousands of warehouse workers are injured on the job, and more fatalities occur in warehouses than in most other types of workplaces as well. But it doesn't have to be that way. To protect themselves against accidents, employees need to meet warehouse hazards "head on" by being "safety minded".</p> <p>“Warehouse Safety” helps employees to stay safe by identifying the specific hazards they can encounter while working in a warehouse, and providing them with practical procedures they can use to avoid them.</p> <p>Topics include:</p> <ul style="list-style-type: none"> •Warehouse safety fundamentals. •Materials handling basics. •Pallets, packing, storing and stacking. •Working safely with forklifts. •Working safely on a loading dock. •and more. 	18:00	Employees working in Warehouses
4408 DVD New 2018	<p>“Rigging Safety” – DVD</p> <p>We have all heard the phrase... "A chain is only as strong as its weakest link". When it comes to crane operations, rigging can often be that "weak link". How a load is attached to a crane can make the difference between a successful lift and an unfortunate accident. And rigging-related accidents can often be deadly, due to the large and heavy loads that are lifted. Once a load or a crane itself falls not much can be done to stop it, and there is little time for people to move safely out of the way.</p>	20:47	Employees who perform rigging tasks
4460 VHS	<p>“Recommended Practices for High Pressure Waterjetting Equipment” - VHS</p> <p>This video is a visual depiction of many of the major topics in the Waterjet Technology Association's (WJTA's) <i>Recommended Practices for the Use of Manually Operated High Pressure Waterjetting equipment, Third Edition</i>. Includes suggestions for the operation of all types of manually operated high pressure waterjet equipment used by the construction, maintenance, repair, cleaning and demolition Industries. This video is an excellent training tool and supplement to operator training programs for business using high pressure waterjet technology.</p>	35:00	Employees using Waterjet Equipment
401 DVD	<p>“Cutting/Milling Asbestos Cement Pipe” - DVD</p> <p>Asbestos containing materials hidden within existing products have been in use for thousands of years. Asbestos has been used for many products such as fire proofing, pipe insulation, theatre curtains, siding, roofing, gaskets and packing, water and sewer pipe, and more. In water and waste water applications, asbestos cement pipe may contain as much as 20% asbestos or more which is used as re-enforcement for the pipe, much in the same way steel is used to re-enforce concrete in bridges and buildings. However, we must understand that the cement used in the pipe can degrade over time therefore increasing the risk of fiber release. The types of asbestos used are both the serpentine (Chrysotile) and amphibole (Amosite and Crocidolite).</p> <p>Topics include: employer responsibilities, physical characteristics, health effects, important regulations, personal protective equipment (PPE), planning, pipe removal, pipe cutting, field lathes, wet tapping, dry tapping, abrasive disk tools and saws, housekeeping and waste disposal, and unacceptable work practices for asbestos cement pipe.</p>	19:00	Utilities; Public Works; Supervisors

4104 DVD CC	"Powder Actuated Tools" - DVD In the construction industry, there are a variety of requirements where fasteners are used on semi-hard or rigid surfaces. One of the most effective methods of securing fasteners to these materials is through the use of a powder actuated tool. Only those powder actuated tools that meet the design requirements of ANSI A10.3-1977 may be used. The qualifications for becoming an operator depend upon safety standards and each individual employer. Topics include: training required to be a qualified instructor, equipment safeguards and restrictions, pole tool assemblies, limitations, additional requirements for the use of the equipment, and safety.	10:00	Powder Actuated Tool Operator
4109 DVD	"Portable Grinders and Abrasive Wheels" - DVD This video provides the viewer with information on the proper use and operation of grinders in a safe manner. If you ignore safety or ignore proper grinding procedures, it can be an extremely hazardous job. You're the only person who can make it a safe job. Always follow your company's operating instructions and of course, the manufacturer's recommendations for safely operating the equipment, abrasive wheels, and disks. There are portable, fixed and bench grinders which come in contact with rotating abrasive wheel or disk. Rules, procedures and protective equipment are essential in making your job safe. If you follow the rules, this equipment can be safe.	11:00	Public Works; Utilities; Mechanics; Recreation;
4307 DVD	"Contractor Safety" - DVD This video introduces contract employees working at owners facilities to be aware that they must comply with the owner's safety rules. It discusses the use of warning signs, container labels and Right to Know. It also describes the need for and how to obtain proper work permits, such as hot work and confined space entry. It discusses working in and around facility processes and the purpose of guarding and written programs such as Lock-Out, Tag-Out. If contractors are to use electrical equipment it must be powered through a GFCI. It also discusses fork lifts, injury reporting, handling emergencies and prohibited actions. This video is primarily aimed at informing contractors of good safety practices, but is also useful to supervisors, contractor coordinators and municipal engineers. It reminds owners of the need to inform and guide any outside contractor working within your facilities or doing construction for you.	13:00	Contractor Coordinators; Supervisor; Management
4503 DVD	"Laboratory Hoods" - DVD This video discusses when and why hoods are used, as well as how to operate and maintain them.	13:00	QC Personnel; Chemistry Teachers

2703 <i>Avail. in DVD & VHS</i>	<p>“Chlorine Safety”</p> <p>Chlorine is the major chemical used for the sanitation of water, swimming pool disinfection, or in the treatment process of sewage. In the manufacturing world, it's used to treat industrial water and can be found in plastic pipe and hundreds of other uses. It's one of nature's chemicals. It is also one of the most hazardous materials known to man. Chlorine comes in the gaseous form, but when cooled and compressed, the gas becomes liquid. Chlorine is generally shipped to the user in tank cars, in 1-ton cylinders or 150 pound cylinders. Handling, storing, and using chlorine in these cylinders becomes very important to those persons working with the chemical.</p> <p>Topics include: Material Safety Data Sheets (MSDS), make sure that piping is dry before admitting chlorine, never put a leaking container into water only dry, oil free air or nitrogen, and never use water to detect or absorb leaking gas.</p>	19:00	Utilities
2905 <i>DVD</i>	<p>“Hydro-Vacuum Truck Safety” - DVD</p> <p>The vacuum or hydro-vacuum truck - no other modern piece of equipment has developed. In addition, there are a number of other ways to be injured while working around this equipment.</p> <p>Topics include in this safety video are: potential hazards, history, awareness and training, your responsibility, utility excavation, personal protective equipment (PPE), and pressure relief safety valves and safety switches.</p>	13:00	Utilities

4702 <i>Avail. in: DVD & VHS</i>	“Working with Stress” The nature of work is changing rapidly. Now more than ever, job stress poses a threat to the well-being of workers and organizations. Through its research and educational materials such as this video, NIOSH is committed to providing the public with the knowledge to overcome this threat.	17:00	General Audience
4703 <i>Avail. in DVD & VHS</i> CC	“Smoking: Getting Ready to Quit” In this video, smokers learn how to create their personal plan for quitting. The video examines why people smoke, why they may want to quit, how they can identify their personal triggers to smoke, and introduces nicotine replacement, as well as non-nicotine replacement therapies, to aid in quitting. It encourages people to make a diary of their smoking behavior and to set a quit date. Potential relapse situations are also covered.	15:55	General Audience
4704 <i>Avail. in DVD & VHS</i> CC	“Diet, Nutrition, and Cancer Prevention” This video is about how you can take steps to help protect yourself and your family from various types from cancer. About one third of all cancer deaths may be related to what we eat. Making positive choices in your diet everyday promotes good nutrition and good health and may reduce your risk of some types of cancer. This video is designed for healthy people and its recommendations are consistent with seven simple guidelines developed to help people eat and maintain a healthy diet.	11:00	General Audience
4705 DVD	“MRSA... The Ticking Time Bomb” - DVD <i>Practical Ideas For Preventing Staph</i> 70 million student athletes and others are at risk. Schools have been shut down because of it. Cases have skyrocketed. The MRSA staph infection epidemic has arrived. Now, help is here. This information packed DVD is part of a staph prevention program that you can start at your school, sports program, work facility, health classes or at home, right now. <ul style="list-style-type: none"> • Learn what MRSA & community acquired staph infections are • Find out how the MRSA epidemic started • Understand why MRSA spreads so quickly • Discover why students and athletes are at the biggest risk • Hear from coaches, athletic trainers & administrators that have battled MRSA and won. 	11:00	Schools; Facilities; General Audience
4706 DVD - CC 2 nd lang.	“Why Don’t We Do It In Our Sleeves? - DVD This short video was designed to encourage people to cough and sneeze according to the infection control guidelines put forth by the Centers for Disease Control and Prevention. It is aimed at the common citizen. Its message is serious, but it is presented with humor in such a way that it engages the viewer's attention while the message is repeated in interesting new ways. It can be enjoyed by individuals, but it is even more fun to watch in groups, resulting in community reinforcement. It has been used in hospitals and schools with great success. It actually makes people change the way they cough and sneeze.	5:00	General Audience

4707 <i>(2 disks)</i> DVD Multiple Language	“Duet for Clean Hands” - DVD <i>(Two disk set)</i> Ask most public health practitioners which simple behaviors could do the most to limit the spread of disease, and they would answer: wash your hands and cover your cough with your clothes, not your hands. This 2 DVD set gives you the tools you need to teach those lessons, and have fun while teaching. Disc 1: Why Don’t We Do It in Our Sleeves? This is the hilarious hit video on coughing and sneezing hygienically, featuring the Olympics of Sneezing. Disc 2: Soap in the City These four short features demonstrate the why’s and the how-to’s of hand washing. *Soap in the City: a comedic riff on the story of Typhoid Mary *Last Clean Chance: a science fiction clip on the technique of hand washing with soap and water *Clay and Rebecca: a demonstration of hand sanitizing techniques with foam and gel *We’re Dirty: a children’s hand washing song with singing hands	12:00	General Audience
4708 DVD CC	“Recognizing Depression” - DVD Through the invaluable experiences of other people with depression, this video helps viewers understand what depression is and how it may be affecting their lives. They learn that having depression isn’t something they can control, but it is treatable. The video covers the signs and symptoms of depression as well as the possible risks for developing depression. It encourages people to seek appropriate treatment and avoid negative coping behaviors, like alcohol abuse.	15:12	General Audience; Supervisors; Management
4709 DVD	“AIDS-What Everyone Needs to Know” - DVD Information, interviews, animation and live-action illustrate facts and misconceptions about HIV and AIDS, the progression from HIV to AIDS, the important role of supportive family and friends, a focus on women and HIV, correct condom use for safer sex, and changing perceptions of HIV positive people and their quality of life.	22:00	General Audience
4710 DVD CC	“Exercise: Getting Active, Staying Active” - DVD Stressing that the key to developing a safe and active lifestyle is to take small steps, this video helps discover how to fit activity into schedules. It explains that there are three types of exercise (aerobic, strength training, and flexibility conditioning), but also tells viewers that increasing activity level in everyday chores can benefit them as well. It discusses barriers to exercising and exercise tips about clothing, hydration, and pacing. The theme of this video is that small steps can make a difference in health.	12:54	General Audience
4711 DVD	“How to Make Healthy Lifestyle Changes” - DVD An overview to making healthy lifestyle changes, this video gets viewers to think about their reasons for changing. It helps them determine their own long-term goals and use short-term goals to achieve them. It also helps identify barriers to change and anticipate obstacles along the way. It suggests to keep written records, rewards (but not with food and drink), and not be discouraged by setbacks.	13:31	General Audience; Safety Committee

4717 DVD CC	"High Cholesterol: An Introduction to Treatment" - DVD After explaining what cholesterol levels mean, this video gives patients the basics of the treatment plan for high cholesterol. It covers both lifestyle changes and medications. The second edition includes the new food guide pyramid, fats, triglycerides, trans fats, low fat substitutes, fiber, how to make healthier food choices and how to prepare foods. It also discusses quitting smoking, losing weight and increasing physical activity.	13:08	General Audience
4718 DVD CC	"Overweight: Who's in Control?" - DVD This edition includes the 2005 Dietary Guidelines, the Food Guide Pyramid, and how to read food labels. It will encourage people who have struggled to lose weight but have been unable to keep it off. The video stresses lifestyle change and helps viewers increase their awareness of behavior patterns, emotional aspects of eating and pitfalls. It explains that exercise is a key part of both weight loss and weight maintenance.	15:14	General Audience; Safety Committee
4719 DVD CC	"Weight Control: Losing Weight and Keeping It Off" - DVD This video explains why quick fix diets don't work, and shows the basics for gradual weight loss. It emphasizes that weight control is a lifestyle change, it is not dieting. This presents the foundations of weight loss to be what we eat, how much we eat, and how much we move. It will help viewers see that even small weight losses will benefit their health.	10:22	General Audience
4720 DVD	"Wellness and Fitness" - DVD A good wellness and fitness program can significantly improve employees' safety records. Studies have found that accidents and injuries occur less frequently with employees who are healthier and in better shape. This video shows employees how small changes in lifestyles can produce big benefits. While wellness is a gradual process, eliminating negative lifestyle factors can help keep employees healthy. Topics Include: The importance of "attitude", Blood pressure and other stress related conditions, Smoking, Nutrition and weight control, Drug and alcohol use, Exercise.	13:00	General Audience; Safety Committee
4721 DVD	"Nutrition: Restaurants, Fast Food and Parties" - DVD This video shows viewers how to eat healthy in situations where it might not be easy to do so. It discusses portion control, carbohydrate, fat, and calories. It gives viewers practical tips they can use and shows examples of healthy food choices. The video suggests that by making small changes in what they order, viewers can eat out and still eat healthy.	18:17	General Audience
4722 DVD	"What is Heart Failure" - DVD This video provides an overview of the information patients need in order to manage their heart failure. Colorful animation shows viewers what happens to the heart and how heart failure affects the body. The video covers risk factors, symptoms, medications, sodium and fluid guidelines, balancing activity and rest, and daily monitoring of symptoms.. Types of medications are explained along with cautions about side effects, and the importance of taking medications exactly as prescribed. The video helps patients know when they should call the healthcare team.	18:36	General Audience
4723 DVD	"Stroke: Reducing Your Risk" - DVD This video explains what happens in the brain during a stroke, the signs, and symptoms of a stroke (including TIAs), and the importance of calling 911 and getting to the hospital as quickly as possible. It recommends that people know their risk factors and presents the controllable and non-controllable risks. The video shows patients how to reduce their chances of having a stroke.	14:02	General Audience

Tape #	Title/Description	Length	Audience
4730 DVD	<p>“Go With Your Own Glow (Skin Cancer)” - DVD</p> <p>Skin cancer is the most common of all cancers, afflicting more than two million Americans each year, a number that is rising rapidly. This video describes with humor the danger of sun exposure. The Go with Your Own Glow campaign was developed to encourage all people but especially young women to love — and protect — their skin, whatever its natural hue. The campaign focuses on fashion and beauty trends to show that tanning is not fashionable or flattering and is obsolete as a lifestyle. Natural, glowing, healthy skin is the look that makes everyone look their best. When you tan, indoors or out, you increase signs of aging as well as your risk of developing skin cancer. Once people stop associating tanned skin with beauty, we will really make headway against skin cancer. Skin cancer is the uncontrolled growth of abnormal skin cells. It occurs when unrepaired DNA damage to skin cells (most often caused by ultraviolet radiation from sunshine or tanning beds) triggers mutations, or genetic defects, that lead the skin cells to multiply rapidly and form malignant tumors.</p>	4:00	General Audience
4731 DVD	<p>“Workplace Stress” - DVD</p> <p>In the fast-paced world that we live in, we are always encountering situations that can be stressful. Many of these occur at work. Yet stress, and its effects on our ability to do our jobs, is a subject that is often overlooked. This video helps employees identify potentially stressful situations and learn how to cope with them.</p> <p>Topics include: Situations causing stress, Positive versus negative stress, Recognizing symptoms of stress, Effects of stress on the mind and body, Eliminating "stress factors", Stress-relieving exercises</p>	13:00	General Audience
4732 DVD	<p>“Personal Hygiene in the Workplace” - DVD</p> <p>Of all the very human issues that we find in workplaces around the world, one of the most common, and most sensitive, is that of Personal Hygiene. It can make or break a person's success at their job, and it can cause discomfort and embarrassment that result in a breakdown of communication and productivity. This video has been developed as a tool for employers to be proactive in addressing the subject, as well as an aid to those managers and supervisors that find themselves in the position of needing to react and take action in the event of a complaint. You will be able to send a message to all of your employees in an upbeat and non-threatening manner that may head off future problems at the pass. Additionally, should a complaint be made regarding a co-worker or employee, this is the perfect presentation to be utilized in addressing the issue with the employee in question, rather than attempting a difficult, and often damaging conversation. Why not give everyone the opportunity to put his or her best foot forward?</p>	7:00	General Audience
4733 DVD	<p>“What is Diabetes? (Type 2)” - DVD</p> <p>This DVD explains what diabetes is, the symptoms, the long term effects, and treatment. It informs viewers that being overweight contributes to the development of diabetes, explains insulin resistance, and outlines a diabetes self-management plan. Information covered includes the target range of blood glucose, making healthy food choices, the food guide pyramid, carbohydrates, fats, portion sizes, and possible use of medications if healthy foods and physical activity are not enough to keep blood glucose in a healthy range.</p>	15:00	General Audience

4734 DVD	<p>“Fitness & Wellness” (Updated Version) - DVD</p> <p>Healthier employees just plain feel better about themselves, so they work better, they're more productive and they're less prone to illness and accidents which is good for them and their employers! This Fitness and Wellness training video provides the information and inspiration employees need to achieve these benefits by eating right, exercising and reducing stress. It shows them how to set and reach reasonable goals while eliminating bad habits like smoking, alcohol and drug use that can hold them back.</p>	14:00	General Audience
4735 DVD New 2018	<p>“Anxiety Disorders: Generalized Anxiety Disorder” - DVD</p> <p>Anxiety disorders are currently the most common psychiatric illnesses affecting both children and adults. Whether it is the generalized anxiety associated with everyday living or the devastating effects of a severe traumatic event, people who develop the extreme symptoms of an anxiety disorder can find their lives impaired in significant ways. It is important for students and healthcare professionals to know what differentiates excessive anxiety from an anxiety disorder.</p> <p>This video identifies the criteria for Generalized Anxiety Disorder and the manner in which anxiety can become a pervasive reality in people’s lives. It examines the emerging link between depression and anxiety and some of the limitations that can arise with an individual who struggles daily with this disorder. Effective dramatic vignettes and interviews with professionals and educators in the field are used to explore current treatment options and the challenges that these disorders present in home, vocational, and clinical environments.</p>	21:00	General Audience
4736 DVD New 2018	<p>“Spillover – Zika, Ebola & Beyond” - DVD</p> <p>Throughout the last few decades, diseases that spill over from animals to humans have been on the rise. What’s behind their increase, and can we do anything to combat these dangerous foes? Join scientists as they investigate the rise of spillover viruses like Zika, Ebola and Nipah, and learn what science can do to anticipate and prevent epidemics around the world.</p> <p>Filmed on four continents, this video sheds light on one of the most important public health challenges of our time—predicting and stopping the next pandemic. The film is a rich mix of cutting edge science and inspiring personal stories of both tragic loss and selfless heroism. Graphics reveal the invisible world of viruses—organisms that reside in the nether land between being "alive" and "dead"—and animation portrays some of the most dramatic moments of the recent Ebola crisis.</p>	60:00	General Audience
501 DVD CC	<p>“Back Injury Prevention Through Exercise” - DVD</p> <p>This video will outline a pro-active approach to back injury prevention. Specifically, a routine of exercise that will build up the strength and endurance of your back. Remember, a strong healthy back is less prone to injury.</p> <p>Topics Include: Exercises to do before work, Exercises to do at home</p>	7:00	General Audience
4312 DVD New 2018	<p>“Stress Management for Supervisors and Employees” - DVD</p> <p>Stress has become a very big problem in industry. One of the reasons why stress is a problem is because most people are unaware that they are experiencing stress until it becomes a problem.</p> <p>This video is hosted by Dr. Edward Sheldon who gives advice on how to handle stress on the job.</p>	20:00	Supervisors; Management General Audience

POLICE DEPARTMENT			
'IN-THE-LINE OF DUTY' SPECIAL ISSUE SERIES			
5000 DVD	"Rapid Response to The Active Shooter" - DVD This outstanding training video details the latest tactics for dealing with an active shooter. At Columbine, the SWAT Team was unable to form and enter the high school for some 45 minutes after the incident started. All the shooting had stopped within 11 minutes. Therefore, the new strategy involves sending first responders in to neutralize the shooting without waiting for the tactical unit to arrive. It is new. Some consider the tactics controversial. Find out for yourself in this video.	50:22	Law Enforcement
5001 DVD	"The Tampa Massacre" - DVD This video tells the full story of the May 1998 incident in which wanted felon Hank Earl Carr got the drop on two Tampa homicide detectives and killed them both. He then killed a Florida Highway Patrol Officer before killing himself.	60:00	Law Enforcement
5002 DVD	"The Do's and Don'ts of Serving Warrants" - DVD It can be the law enforcement officer's most dangerous task. This video hits the major points of how to prepare for serving the warrant, and executing it. It's a bargain at our price.	9:00	Law Enforcement
5003 DVD	"The Murder of Georgia Deputy Kyle Dinkheller" - DVD When a young Georgia deputy made a low-risk stop for speeding, little did he expect a gunfight for his life---a gunfight he would lose. Exclusive video and interviews with deputy's back-up officers and responders... coupled with top to bottom actual video.	55:41	Law Enforcement
5004 DVD	"Racial Profiling" - DVD If there is a hotter issue in law enforcement today, we don't know about it. Making stops on the basis of the race or ethnicity of those in a car rather than on grounds of reasonable suspicion is wrong & a violation of rights.	15:00	Law Enforcement
5005 DVD	"Do's and Don'ts of Handling Anthrax" - DVD This program centers on what the first responder should and should not do when answering a call about a suspicious package. From the role of the dispatcher to the role of the Haz-Mat unit, this program is a must for a nation facing the terrorist threat.	15:30	Law Enforcement
5006 DVD	"What Every Street Cop Needs to Know About Terrorists" - DVD This is a must program for American law enforcement. It is complete with vital information on dealing with the new terrorist threat in this county, including what to look for and what to do when you find it.	47:22	Law Enforcement

Tape #	Title/Description	Length	Audience
5007 DVD	"Cops and Ethics" - DVD The I.A.C.P. says that the issue of law enforcement ethics and leadership is one of the biggest issues facing law enforcement today. This outstanding video goes over the do's and don'ts of proper ethical procedures through more than a dozen real-world scenarios.	30:00	Law Enforcement
5008 DVD	"Animal Abuse: Why Cops Can and Need to Stop It" - DVD Far too often when law enforcement officers run across cases of animal abuse, they slough it off as "kids being kids." It is much more than that. Studies show that people who abuse animals also abuse other people.	35:00	Law Enforcement
5009 DVD	"Jason's Story: Miracle In Phoenix - We've Got a 962 With Fire; Officer Burning Alive" - DVD Truly one of the most inspiring stories of officer survival in the history of American law enforcement. By any standard, this remarkable Phoenix officer should have died when his cruiser was rammed by a taxi and burned furiously with him inside.	52:00	Law Enforcement
5010 DVD	"Dealing with Media/Recognizing Media Tricks" - DVD The Washington sniper case, a civil disturbance, an airline crash... all examples of how an unexpected event can bring a wave of media attention. Law enforcement is often the target of media attention during such times. This is an extensive examination of how law enforcement can respond effectively at such times includes experts in journalism and law enforcement public information specialists. This program includes a special segment on techniques reporters use to extract information which can be embarrassing and harmful to investigations. It is a must for cops of all ranks.	38:17	Law Enforcement
5011 DVD	"What Dogs Try to Tell Cops" - DVD Now, learn some very basic techniques on how each officer can 'read' a dog's behavior and prove without doubt your agency is sensitive and attentive to such training. There have been cases where cops have killed dogs they thought threatened them, only to learn there was no threat and then face enormous liability consequences. It's short, to-the-point and geared exclusively for law enforcement.	23:50	Law Enforcement
5012 DVD	"Pit Bull Fighting/What Every Cop Should Know" - DVD Brutal, bloodthirsty dogfighting has become a billion dollar "industry" worldwide The U.S. is now the leading provider of fighting dogs internationally. Now, learn how you can stop it on your turf and make great arrests for a multitude of other crimes, ranging from drug trafficking to money laundering to racketeering. Also addressed; preserving dogfighting crime scenes; gathering evidence/what to look for; eating 'em in court Learn how you can also generate revenue for your municipality, city and county by making good arrests of dogfighters AND those who attend dogfights. Other law enforcement agencies are doing it now!	42:12	Law Enforcement

POLICE DEPARTMENT 'IN-THE-LINE OF DUTY' SERIES

Tape #	Title/Description	Length	Audience
5013 DVD	"Dealing With The Mentally Ill" - DVD This is a pioneering law enforcement training video which many agencies have asked us to produce. It features the nationally-recognized program of the Albuquerque(NM) PD which is at the very forefront of officer training for dealing with the mentally ill and disturbed. Mental health experts with the department are interviewed at length for their expertise. The department's training program for officers is analyzed and scrutinized. Also, you'll ride with Albuquerque officers to see first-hand how this department is implementing their strategy and why it has become the state-of-the-art in the entire country's law enforcement community.	54:52	Law Enforcement
5014 DVD	"Simple Spanish Commands" - DVD With almost absolute certainty all peace officers at some point in their careers will deal with subjects who speak only Spanish. The Hispanic minorities in many of our urban and, indeed, rural communities are growing at a fast rate. Even communities in areas that traditionally had minimal, if any, Hispanic influences are changing. It's crucial, therefore, for officer safety and departmental liability that officers who deal with Hispanics have some knowledge of basic Spanish commands a cop would use. This program guides officers through the most commonly used law enforcement Spanish commands and teaches them via a very easy verbal refresher.	25:34	Law Enforcement
5015 DVD	"Signs Of The Deaf" - DVD Like the program dealing with Spanish commands, this video takes officers through the most commonly used signs of the deaf one might encounter on the street. It's perfect for officers who need to learn these commands over several sessions, because like the Spanish commands, this program can be easily learned. It's also a must addition to a departmental video library, because it proves the department concern over officer/citizen safety and departmental liability issues.	31:45	Law Enforcement
5016 DVD	"Drug Concealment Spots" - DVD Your officers will be amazed at the ingenuity of the drug runners when it comes to concealing their dope. Some of the most surprising and clever drug concealment spots ever recorded are analyzed and graphically presented in this video. It's well worth adding to your video library, because until you've seen it, you're not going to believe it. This program also includes some of the tactics drug runners are using to get over and get past police officers. A definite must if you make drug stops in your community or on your streets, roads, and interstates!	15:52	Law Enforcement

POLICE DEPARTMENT 'IN-THE-LINE OF DUTY' SERIES

Tape #	Title/Description	Length	Audience
5017 DVD	"Big Rig Stops" - DVD Jim Crotty of "Strategies for Officer Survival," provides what could someday be a lifesaving show and tell for traffic cops. You'll see and learn about the different elements in making a traffic stop involving a big rig as opposed to a passenger vehicle. And, there are many of them, from approach to safe interrogation of drivers and passengers. Each and every approach and tactic is clearly visualized for officers, and this video can, too, be re-visited by officers without losing any momentum in their training. An excellent tutorial that will explode some myths in big rig stops and approaches.	10:05	Law Enforcement
5018 DVD	"Less Than Lethal Force Options" - DVD More and more departments are expressing great interest in the options available to them that involve less than full lethal force. This program is geared specifically to provide officers and departments with the very latest options currently available involving weapons of less than lethal force. This includes actual video of both the bean bag and the TASER in use and tutorials on both provided by law enforcement experts.	20:09	Law Enforcement
5019 DVD	"Staying Calm Under Pressure--Dispatching" - DVD Featuring comments from dispatchers in all regions of the nation, this program also includes vital tips and "lessons learned" from experts in dispatcher training. This video training program for dispatchers is a must for your department. Dispatchers are often the most neglected yet vital link in the lifeline of any major incident. Graphic examples of proper dispatching are included from the North Hollywood Shoot-out to hot pursuits to domestic violence eruptions.	28:53	Law Enforcement
5020 DVD	"Joining The Force" - DVD If you're interested in "putting the department's best foot forward" to recruit talented young people, this is the video for you! Not only do the cameras follow excellent, enthusiastic officers from every branch and unit but also the video provides young people with multi-ethnic role models from both genders.	61:13	Law Enforcement
5021 DVD	"Incident At White Castle" - DVD This video documents in complete detail one of the most controversial incidents in the history of the Cincinnati Police Department. The incident centers on the attempted arrest of a 350 pound man high on drugs. He resisted arrest and fought with officers for several minutes before they finally subdued him with batons. However, he died at the scene. The officers did everything right, but the outcome was wrong. Many lessons learned here.	48:27	Law Enforcement

POLICE DEPARTMENT 'IN-THE-LINE OF DUTY' SERIES

Tape #	Title/Description	Length	Audience
<p style="text-align: center;">'IN-THE-LINE OF DUTY' ROLL CALL REVIEW SERIES 1 - DVD Programs 1 - 17</p>			
5024 DVD <i>Includes programs #1 - #17</i>	"Tampa Detectives Murdered - #1" A tremendous, gripping roll call presentation featuring two Tampa homicide detectives who have arrested murder suspect Hank Earl Carr. The officers are seen arresting Carr and escorting him to their cruiser. Moments later, both detectives are dead, brutally murdered by Carr who used an undetected handcuff key.	6:15	Law Enforcement
<i>Included in 5024</i>	"Officer's Gun Accidentally Discharges - #2" An officer's gun accidentally discharges almost striking a subject who has been arrested, handcuffed, and placed on the ground. This program features gun safety tips and lessons from the LINE OF DUTY technical advisory staff.	6:55	Law Enforcement
<i>Included in 5024</i>	"New Mexico Trooper Held at Gunpoint - #3" A New Mexico State Trooper is held at gunpoint by a subject who charges out of a vehicle during a traffic stop. This program includes comments from the trooper who ultimately talked the youthful subject into surrendering.	6:53	Law Enforcement
<i>Included in 5024</i>	"Officer Shoots Homeless Person - #4" An officer under high stress shoots a subject during an encounter in a crowded Baltimore Marketplace. Dramatic video is supplemented with comments from the officer.	6:58	Law Enforcement
<i>Included in 5024</i>	"Human Shield Incident - #5" In this roll call tape, an officer has taken a subject as a literal 'human shield' while approaching an alleged criminal's vehicle. This controversial technique is not only dramatically depicted on the live-action tape but also is analyzed thoroughly.	5:20	Law Enforcement
<i>Included in 5024</i>	"Officer Tries to Block Moving Subject's Car - #6" A highway patrol officer stands in front of a stopped subject's car ordering the individual not to proceed. When the subject, however DOES continue driving forward, the officer draws his service weapon and fires numerous times at the fleeing individual.	6:33	Law Enforcement
<i>Included in 5024</i>	"Off-Duty Considerations for Street Cops - #7" This is a vital roll call program for all officers and includes dramatic video of a shoot-out involving an off-duty officer plus expert thoughts and considerations for officers who carry weapons when off-duty.	6:04	Law Enforcement
<i>Included in 5024</i>	"The Darrell Lunsford Murder/Lessons Learned - #8" Texas constable murdered during stop by 3 subjects who overwhelmed him. This is the first officer murder ever recorded on cruiser-cam video	6:09	Law Enforcement

POLICE DEPARTMENT 'IN-THE-LINE OF DUTY' SERIES

Tape #	Title/Description	Length	Audience
<i>Included in 5024</i>	"Cop Kills Motorist During Chase - #9" When an arrested subject commandeers a police car, the chase is on. This, however, ends tragically when an officer accidentally kills an innocent motorist during the pursuit.	6:43	Law Enforcement
<i>Included in 5024</i>	"Training Accident Kills Officer - #10" Tragically, many law enforcement officers are injured and killed every year during training exercises. This roll call program depicts the death of a State Trooper shot to death by another trooper who thought his weapon was not loaded.	7:00	Law Enforcement
<i>Included in 5024</i>	"Jailer Transporting Prisoner is Murdered - #11" Another tragedy that can teach officers crucial lessons and safety procedures. A jailer transporting a prisoner from one facility to another is shot to death when the subject seizes the female deputy's service weapon from her and opens fire.	6:30	Law Enforcement
<i>Included in 5024</i>	"Remaining Calm During Major Adrenaline Rushes - #12" A state trooper loses all patience and cool when a motorist fails to pull over despite his flashing lights and siren. As a result, he angrily and forcefully yanks her from her vehicle. The resulting uproar causes the trooper to lose his job.	6:45	Law Enforcement
<i>Included in 5024</i>	"Officers Lose Job Over Hog-Tying Death - #13" Five officers are fired after a subject dies during a hog-tying incident. This roll call review includes vital points to ponder and questions to ask before a police officer should consider hog tying---or, whether or not to ever consider such a tactic.	5:18	Law Enforcement
<i>Included in 5024</i>	"Physical Assaults: Covering Your Back - #14" With graphic video of officers who have been violently physically assaulted, technical advisers to IN THE LINE OF DUTY pass along invaluable safety and survival tips to officers.	6:50	Law Enforcement
<i>Included in 5024</i>	"Officer Shoots Self in Training Exercise - #15" An officer nearly kills herself during a shooting exercise and has extensive brain surgery before her long road to recovery. The vital lessons learned and survival tips are summarized.	7:00	Law Enforcement
<i>Included in 5024</i>	"Complacency Can Lead to Tragedy - #16" A female deputy is held at gunpoint while checking on a man supposedly asleep in his car. Dramatic video and lessons learned. A must at roll call training.	6:16	Law Enforcement
<i>Included in 5024</i>	"Meth Labs - #17" This program features graphic video of law enforcement meth raids and experts discussing the very critical do's and don'ts for cops who will likely be involved in methamphetamine raids.	5:46	Law Enforcement

Also, learn how critical body armor is after a St. Louis County (MO) officer is struck directly in the chest by a bullet. A defensive tactics expert has vital follow-up analysis of the Georgia Knife Fight (Vol 2, Program 11).	30:37	Law Enforcement
5306 VHS	Volume III - Program 6 "San Francisco Firefight" - VHS A wild firefight in downtown San Francisco results in the death of a veteran police officer. A gunman with a veritable arsenal of weaponry and ammunition opens fire in a posh San Francisco neighborhood. The resulting chaos is documented visually and with in-depth interviews with responding officers.	45:40	Law Enforcement
5307 VHS	Volume III - Program 7 "Contact and Cover" - VHS The San Diego P.D.'s "Contact and Cover" program, developed after two of its officers were shot and killed, is analyzed. Also, the Collinsville (IL) P.D. provides dramatic video and analysis of an incident in which contact and cover was not used to its fullest, leading to near disaster. 'Contact and cover' defines the roles of officers during any interaction with suspects. Non-verbal communication using hand signals is a key element of this excellent tactical strategy. Complete training overview.	38:17	Law Enforcement
5309 VHS	Volume III - Program 9 "Traffic Safety" - VHS Several incidents in which officers have either been injured or killed by an inebriated teenage motorist and analyzes his own response. Also, Jim Crotty of 'Strategies for Officer Survival' demonstrates excellent passenger-side approaches while making traffic stops.	29:44	Law Enforcement
5310 VHS	Volume III - Program 10 "High-Risk Stop" - VHS This program is two important parts: 1) a follow-up to V-3, P-9 in which Bonner County (ID) Deputy John Lunde is hit by a fleeing motorist. The resulting high-risk stop is studied and analyzed by Lunde and his fellow back-up officers and 2) Jim Crotty of 'Strategies for Officer Survival, Inc.' provides a demonstration of a 'textbook' felony vehicle stop with the cooperation of the Brunswick, GA P.D. In 'Back-Up' the L.A.S.O. has success lowering convenience store hold-ups with robot mannequins complete with 'in-head' video cameras.	35:33	Law Enforcement

Tape #	Title/Description	Length	Audience
5311 VHS	Volume III - Program 11 "Canine Saves Fellow Officer" - VHS In an extraordinary incident, a police K-9 saves the life of another K-9 which had been sent into a waterway to attempt to apprehend an armed robbery suspect. The suspect started drowning the first dog until the other animal swims to his partner's rescue. Also, vital tips for any street patrol officer who may ever have dealings with K-9's. This important information is provided by K-9 experts with the St. Louis Metropolitan Police Department.	35:30	Law Enforcement
5312 VHS	Volume III - Program 12 "Tinted Window Shooting" - VHS Two sheriff's deputies stop a car with tinted windows and are forced to resort to lethal force. Once the subject is stopped, the deputies must shoot out the vehicle's tires as it rolls down the highway into traffic. Excellent analysis and lessons provided by both deputies, who happen to be brothers. Also, Jim Crotty of 'Strategies for Officer Survival' joins the Orange County (FL) Sheriff's Department in demonstrating the best methods of approaching vehicles with tinted windows, both day and night. A crucial training program for all patrol officers.	30:03	Law Enforcement
5401 VHS	Volume IV, Program 1 "Trooper Shot Point Blank" - VHS Idaho State Trooper Gonzales is shot at point blank range yet still assists in the arrest of the offender. Analysis and interview with Gonzales and other troopers involved plus experts from the I.S.P.'s own video training documentation.	30:00	Law Enforcement
5402 VHS	Volume IV - Program 2 "Homicide Suspect Commits Suicide" - VHS A homicide suspect driving through a rural Texas community is stopped by D.P.S. officers. He exits his vehicle-then returns to it and pulls the trigger. Officers involved discuss and analyze their response to this incident, their tactics in making the original stop, and the "lessons learned".	30:00	Law Enforcement
5407 VHS	Volume IV - Program 7 "Crime Scene Preservation for Street Cops" - VHS This program promises to be an invaluable edition for police officer training. It features Dee Heil, formerly a lead homicide investigator for the Illinois State Police. Mr. Heil brings his many years of expertise to bear graphically showing street officers the crucial first steps needed when coming onto a major crime scene. The program features explicit crime scene video and photos with Mr. Heil explaining in detail the areas of utmost concern for officers charged with protecting crime scenes. Not only is their graphic crime scene video and photos used in this tutorial but Mr. Heil walks through a simulated homicide scene point-by-point for officers. A critical training resource for law enforcement!	38:46	Law Enforcement

POLICE DEPARTMENT 'IN-THE-LINE OF DUTY' SERIES

Tape #	Title/Description	Length	Audience
5408 VHS	Volume IV - Program 8 "Kehoe Brothers Shootout" - VHS The first complete training documentation ever produced dealing with the dramatic shoot-out in Ohio between law enforcement and the Kehoe brothers, known paramilitary extremists. This will include in-depth training interviews with both officers involved and will provide the first ever crucial "lessons learned" and officer safety and survival tips. The complete video, of course, will be used in this tutorial by the two officers involved in one of law enforcement's most extraordinary incidents ever caught on cruiser cam. Additionally, a training tutorial from Jim Crotty of "Strategies for Officer Survival" will be included zeroing in on the critical first moments of concealment and cover for an officer in a lethal force incident.	47:09	Law Enforcement
5409 VHS	Volume IV - Program 9 "Fresno Multi-Ethnic Community Policing" - VHS Many agencies now must deal with the dilemma of communities, which have a multitude of ethnic groups and languages. In some cases, scam artist and predators have used new arrivals' lack of familiarity with U.S. law enforcement to insinuate themselves into people's homes. Robbery, rape, and even murder have been the result. Now, learn how the Fresno (CA) P.D. has been developed one of the nation's most visionary community policing programs in a multi-ethnic environment. Complete detailing of how Fresno has successfully evolved their approach in one of the US's most ethnically diverse cities (nearly 80 different cultures). The innumerable "lessons" Fresno has learned are included plus a checklist for your department to study as you continue development of your own community-policing program in multi-ethnic, multi-cultural surroundings.	39:50	Law Enforcement
5410 VHS	Volume IV - Program 10 "Suicide by Cop" - VHS After deputies give chase to a subject following an armed robbery, he stops exits his vehicle, and points his weapon directly at the first arriving officer. The result, recorded dramatically by two cruiser cameras, is "suicide by cop". The program includes in-depth interviews with the officer and his back up plus details the many issues surrounding the increasingly common phenomenon known throughout law enforcement as "suicide by cop". A first-of-its kind program which is a must for police officers everywhere who could easily find themselves in similar predicaments.	42:27	Law Enforcement
5412 VHS	Volume IV - Program 12 "Gangs Update" - VHS Including dramatic gang footage from throughout the nation, this program promises to be a critical training product for officers nationwide, even worldwide. Through in-depth interviews with law enforcement gang experts, learn about trends in a wide variety of gang-related activities. To be included are updates on Hispanic gangs', Russian gangs; Street gangs; Hell's Angels' Black gangs; and "tagging."	52:10	Law Enforcement

5501 VHS	Volume V - Program 1 "Alabama Officer Assault/Body Language Part One" - VHS An Alabama officer is severely beaten after a subject attacks him during a nighttime traffic stop. The assault occurs as the officer attempts to handcuff and arrest the individual for D.U.I. The incident is analyzed and critiqued from top to bottom including in-depth interviews with the officer and his back-up. The program includes an excellent tutorial on subjects' body language which will help all officers identify potential danger signs.	42:12	Law Enforcement
5502 VHS	Volume V - Program 2 "Verbal Judo/Body Language Part Two" - VHS It's called "martial arts for the mouth" and is yet another weapon in the street officer's arsenal. George Thompson has a national reputation for teaching officers how to communicate with subjects in a manner which will maximize compliance, and minimize risk. Thompson goes over his 5 and 8 step programs point by point and explains why and how you can be more effective in communicating on the street. His program is a proven success and all but guarantees to upgrade your effectiveness.	38:00	Law Enforcement
5503 VHS	Volume V - Program 3 "Verbal Judo Part Two (SAFER)" - VHS We continue with Dr. George Thompson's Verbal Judo tutorial on tactical communications from 015-2. Thompson says words may fail, but verbal judo does not. In this program, we examine his pioneering technique called SAFER: what to do when words do fail. This is a must for all street officers. In addition, we discuss heart attacks from the cop's perspective including the stresses that cause heart problems, the warning signs and treatment.	33:30	Law Enforcement
5504 VHS	Volume V - Program 4 "Texas Officer Hostage" - VHS A Texas D.P.S. officer is briefly held at gunpoint after approaching a passenger during a rural traffic stop. His partner is attempting to cover the driver who had been stopped earlier for questioning. The officer is able to break free and both he and his partner fire a volley of rounds at the fleeing gunman. Complete coverage of this incident is provided, and it includes extremely in-depth interviews with both officers and the many lessons that were learned.	39:46	Law Enforcement
5505 VHS	Volume V - Program 5 "Less Lethal (Seattle Swordsman)" - VHS This program details the Seattle, Washington P.D.'s efforts to disarm a mental subject who was waving and flourishing a samurai sword for hours in front of a Seattle restaurant. It details the department's efforts to disarm the subject with everything from verbal tactics, to beanbags, to water cannon and includes in-depth interviews with officer lethal force from beanbags to TASERS.	45:57	Law Enforcement

5506 VHS	Volume V - Program 6 "Explosive Training for Street Officers" - VHS This video includes complete explosives recognition training and information for street officers and dramatic video of two incidents in which one officer died and another was injured after approaching unrecognized explosives. Scott Baker the chief of arson and bomb investigations for the California Department of Forestry and Fire Prevention is the featured expert. Also included are photos and video of devices used to try to confuse law enforcement which, in truth, can hide and house lethal explosives.	37:45	Law Enforcement
5507 VHS	Volume V - Program 7 "Low Light Shooting" - VHS Most law enforcement shooting incidents, of course, occur in low-light or no light scenarios. With the assistance of the Fairfax County (VA) Police Dept. via their new state-of-the-art training facilities & shooting range, we'll provide the first-ever training coverage of this most crucial aspect of police training. Also included is numerous video clips involving low-light shooting situations which have taken place throughout the country.	37:10	Law Enforcement
5508 <u>Avail. in:</u> DVD & VHS	Volume V - Program 8 "Methamphetamine: An Update" Many law enforcement agencies have requested we provide a street officer's informational and training program on methamphetamine use and lab detection. This program, therefore, will address the skyrocketing use of methamphetamines and the accompanying problems faced by law enforcement. We also have important lessons learned from agencies at the forefront of the meth wars, and how they're dealing with the problem. Many meth safety issues for street officers will also be addressed.	38:50	Law Enforcement
5509 VHS	Volume V - Program 9 "Iron Will To Survive/Cincinnati Policewoman Shot Point Blank Kills Assailant" - VHS This is one of the most extraordinary training programs In the Line of Duty has ever produced. It features dramatic audio dispatch, photos and video during and after an incident in which a policewoman shot and killed a subject who had leaped into her cruiser, shot her several times, and taken her hostage. A thorough interview with the officer is included as is an in-depth training module which includes specific Cincinnati Police Department training which she credits with saving her life.	30:15	Law Enforcement
5510 VHS	Volume V - Program 10 "Aggressive Driving/Road Rage" - VHS Featuring innovative programs for dealing with road rage and aggressive driving. The video highlights the pioneering approaches of the Illinois State Police which will be of utmost interest to all law enforcement dealing with this growing national problem.	45:35	Law Enforcement

6211 <i>DVD</i>	Volume XII - Program 11 "Safe Pursuit-Response Driving - Part I" – DVD This takes a look at the topic of deadly driving. Every year, law enforcement officers are killed or severely injured needlessly because of unsafe practices behind the wheel. We will discuss the elements that go into safe driving, vehicle maintenance and when pursuits become too dangerous.	26:18	Law Enforcement
6212 <i>DVD</i>	Volume XII - Program 12 "Safe Pursuit-Response Driving - Part II" – DVD This program is a continuation of Volume 12 Program 11. More concepts and techniques for safe driving will be covered. Since operating a motor vehicle is something street officers do with great regularity, it makes good sense that safe driving techniques are taught and regularly practiced and updated.	37:00	Law Enforcement
6301 <i>DVD</i>	Volume XIII - Program 1 "Amber Alert Pursuit/James Dean's Final Ride" – DVD In this program, an Illinois officer embarks on a high-speed pursuit. The suspect is wanted for kidnapping and an AMBER Alert has been issued. The chase covers two states before ending in St. Louis, Missouri. Many issues are covered in this program; pursuit policy, safety to the public, driver awareness and inter-department cooperation.	35:00	Law Enforcement
6302 <i>DVD</i>	Volume XIII - Program 2 "Off-Duty Walgreen's Groundfight" – DVD An off-duty Nevada police officer, on a shopping errand for his daughter, suddenly finds himself in a groundfight with no backup weapon. In this program, see what tactics the officer used to stop a crime and save his life.	34:30	Law Enforcement
6303 <i>DVD</i>	Volume XIII - Program 3 "Cross-Jurisdictional Response" – DVD In this program, a South Carolina officer responds to a robbery at a gas station. Many different factors come into play during his response. First of all, it is not even in his jurisdiction. From there, it takes on many different twists. We will discuss all of the lessons he learned during this incident.	32:43	Law Enforcement
6304 <i>DVD</i>	Volume XIII - Program 4 "Domestic Violence Response" – DVD In this program, we will look at the subject of domestic violence. A South Dakota teenager attacked his family, killing his mother and injuring his sister. We will review how officers responded to this incident and cover the many dangers of responding to domestic violence calls.	27:54	Law Enforcement
6305 <i>DVD</i>	Volume XIII - Program 5 "Investigating and Prosecuting Domestic Violence" – DVD In this program, we will discuss the elements involved in investigating and prosecuting a domestic violence case. Thorough police work can make the prosecutor's job much easier by documenting the incident with copious note-taking, use of cameras, and even audio recordings of the victim's account.	29:36	Law Enforcement

POLICE DEPARTMENT 'IN-THE-LINE OF DUTY' SERIES

Tape #	Title/Description	Length	Audience
6306 <i>DVD</i>	Volume XIII - Program 6 "Ethics Lapses/When Cops Get Into Hot Water" – DVD This video presents ethical situations faced by real law enforcement officers and both their positive and negative response. It focuses on real-world situations, the response, and the consequences. Not all of what is included is flattering to law enforcement. It is from these situations that we hope to reinforce the need the ethical response.	25:00	Law Enforcement
6307 <i>DVD</i>	Volume XIII - Program 7 "Ft. Oglethorpe Shootout" – DVD Watch as a Georgia officer stops a subject with an active warrant. This stop soon turns lethal and we will discuss the many lessons learned covering topics such as use of lethal force, communications and back-up.	31:00	Law Enforcement
6308 <i>DVD</i>	Volume XIII - Program 8 "Signs of a Terror Attack" – DVD In this program, we will look at ways officers can spot terrorist activity. They will become familiar with types of weapons that can be used along with items that can be used for making explosives. The street officer has become the first line of defense in stemming the tide of terrorist activity.	31:00	Law Enforcement
6309 <i>DVD</i>	Volume XIII - Program 9 "Dogfighting, the Ugliest Scar; How Cops Must Fight Back" – DVD In this program, we will examine the growing problem of pit bullfighting. We will discuss the strategies and techniques for law enforcement to put an end to it.	28:00	Law Enforcement
6310 <i>DVD</i>	Volume XIII - Program 10 "Ohio Officer Groundfight/ Off-DUTY MO Officer Kills Four While DUI" – DVD In this program, an Ohio officer stops a vehicle for a suspected hit-and-run incident. The stop soon turns into a violent physical confrontation. Many issues are covered such as knowing when to move up the force continuum, detecting signs that a suspect is getting ready to engage you physically and reacting when your taser doesn't work properly.	21:00	Law Enforcement
6311 <i>DVD</i>	Volume XIII - Program 11 "SC Trooper Misses Fatal Funnel And Nearly Shot to Death" – DVD In this program a South Carolina State Trooper makes a broad-daylight traffic stop at a busy gas station and is nearly shot to death. As he pulls the vehicle over he notices there are three occupants, yet everything seems normal—at first. The driver, though unable to produce any form of identification, appears cooperative. In fact, he even seemed to be helping the Trooper by not immediately pulling over on the side of the highway but by waiting to pull into the crowded parking lot of a gas station. Initially, there is nothing to arouse his suspicions yet little does the trooper know that in a few minutes he would be in a gunfight for his life. There are many lessons learned in this program including the important reminder to never take for granted what seems to be a low-risk traffic stop.	26:06	Law Enforcement

POLICE DEPARTMENT

'IN-THE-LINE OF DUTY' SERIES

Tape #	Title/Description	Length	Audience
6312 <i>DVD</i>	Volume XIII - Program 12 "Traffic Stops of Sovereign Citizens: What Every Cop Needs to Know" – DVD During a broad daylight traffic stop, two officers are killed by a 16-year old boy with an AK- 47. The teen and his father were "sovereign citizens." In this program we will discuss the sovereign citizen movement and look at what happened during this traffic stop. Making officers aware of these sovereigns is vital and the proclivity towards extreme violence of a minority of them. Analysis of the incident along with discussion of sovereign traits, beliefs and indicators to help identify this potentially dangerous group is also covered in this program.	40:14	Law Enforcement
6401 <i>DVD</i>	Volume XIV - Program 1 "Violent Groundfight Erupts; Are You Prepared-Part 1" – DVD In this program, a Dayton (OH) police officer initiates a traffic stop with an older subject. During the course of the stop, the subject attacks the officer and tries to go for his gun. The subject is finally subdued with the help of a passing motorist who witnessed the attack. We will break down the struggle and review the factors leading up to this attack. We will also look at the officer's options and choices that he made during the struggle.	22:40	Law Enforcement
6402 <i>DVD</i>	Volume XIV - Program 2 "Violent Groundfight Erupts; Are You Prepared-Part 2" – DVD Officer Joshua Campbell is dispatched to a Walgreens pharmacy to pick up surveillance video of an armed robbery that took place just a few hours earlier around 2:15 am. As he enters there is a customer in the store at the counter allegedly buying a pack of gum. Even with Officer Campbell standing right behind the counter in the direct line of sight of the checker (the same checker involved in the armed robbery just a few hours earlier) he witnesses this 'customer' reach over the counter and start emptying the register. He must then quickly decide how best to proceed after witnessing this felony right before his eyes.	21:30	Law Enforcement
6403 <i>DVD</i>	Volume XIV - Program 3 "Terror in Tuscaloosa: The Public Safety Response" – DVD During the last days of April 2011, the United States experienced one of the worst tornado outbreaks in her history. From April 25-28 358 tornadoes were confirmed in 21 states from Texas to New York. On April 27, 2011 one of these tornadoes touched down in Greene County, AL and roared northward through Tuscaloosa County devastating downtown Tuscaloosa and surrounding areas. This F4 tornado left a path of destruction 37 miles long and up to 1.5 miles wide through Tuscaloosa. The destruction was so complete it was compared by some to a weapon of mass destruction. In this program we will look at the public safety response to such a catastrophe, interviewing the officers involved and asking what lessons there are to be learned.	82:14	Law Enforcement

POLICE DEPARTMENT 'IN-THE-LINE OF DUTY' SERIES

Tape #	Title/Description	Length	Audience
6404 <i>DVD</i>	Volume XIV - Program 5 "Shootout in Conroe: What Would You Have Done?" – DVD Two uniformed officers working extra duty as movie theater security are in a close-quarter gun battle for their lives and are grievously wounded before being able to stop the threat.	54:57	Law Enforcement
6405 <i>DVD</i>	Volume XIV - Program 4 "El Segundo Movie Theater Fight" – DVD A veteran Texas officer responds to a call for a man with a shotgun outside a local bakery. But his decision not to pull the trigger on the rifle wielder, for the sake of potentially innocent bystanders, nearly cost him his life. What would you have done?	34:38	Law Enforcement
6406 <i>DVD</i>	Volume XIV - Program 6 "Bath Salts: What Every Cop Needs to Know" – DVD It almost seems as if naked 'zombies' have been competing to get onto the 10 o'clock news. Maybe it's good for ratings or a few laughs, but, for cops everywhere, one of the most dangerous phenomenon they have faced in years—Bath Salts. And for patrol officers one of the most important points to take away from this video is that there is almost no chance you'll be able to verbally communicate with subjects high on Bath Salts.	25:00	Law Enforcement
6503 <i>DVD</i>	Volume XV - Program 3 "Cops and Black Eyes: Ethics Training" – DVD How many ways are there to derail your career? A cop gets a black eye and it could end a career, or even a life as he or she knew it. Perhaps no other career gives you as many opportunities to screw up, and get negative worldwide publicity, as law enforcement. This program is a brief overview of the many ways in which cops have jeopardized their careers, and the life and safety of others in some cases, through lapses in judgment to outright criminal behavior.	24:20	Law Enforcement
6505 <i>DVD</i>	Volume XV - Program 5 "Murder of an Arkansas Officer" – DVD Death stalks a young Arkansas officer, but in taking his life cops everywhere may someday get a second chance at living. In this program, we hope, with the help of the Trumann Police Department, to provide critical guideposts for officers who may fall prey or victim to the potential tragedy of complacency.	60:00	Law Enforcement
6506 <i>DVD</i>	Volume XV - Program 6 "What If...Scenarios That Can Save Cops' Lives" – DVD One of the shortest, most powerful sentences in any language is 'what if'. 'What if' scenarios have saved the lives of many officers. Use them to your benefit. Don't use them and you may pay the ultimate price.	34:00	Law Enforcement
